Technology Transfer and Academic Entrepreneurship Albert N. Link,Donald S. Siegel,Mike Wright,2015-03-09

Universities are now in the business of managing intellectual property portfolios and commercializing discoveries from their laboratories Much of the money universities make from this is in the form of licensing revenue and IPO related wealth However managing intellectual property portfolios is still a very new business for universities and administrators and policymakers are still uncertain about how best to navigate the many practical and fundamental issues that arise Written for both practitioners and academics The Chicago Handbook of University Technology Transfer and Academic Entrepreneurship provides a clear outline of the broad set of new practices and institutions that have sprung up to manage and sell intellectual property from university technology transfer offices and cooperative engineering research centers to vast research parks To determine what makes technology transfer work the question is approached from a variety of perspectives historically internationally and from the perspectives of professors entrepreneurs administrators and regulators Some chapters offer guidelines and examples of how to foster and maintain successful research ventures from various perspectives Others explore how developments in university technology transfer affect the public interest and inform the notion of open innovation and science Defense Conversion Strategies Robert E. Dundervill, Jr.,Peter F. Gerity,Anthony K.

Hyder,Lawrence H. Luessen,2013-03-09 A North Atlantic Treaty Organization NATO Advanced Studies Institute AS I on Defense Conversion Strategies was held at the Atholl Palace Hotel Pitlochry Perthshire Scotland from July 2 through July 14 1995 This publication is the proceedings of the Institute The NATO Advanced Studies Institute program of the NATO Science Committee is a unique and valuable forum under whose auspices over one thousand international tutorial meetings have been held since the inception of the program in 1959 The ASI is intended to be primarily a high level teaching activity at which a carefully defined subject is presented in a systematic and coherently structured program The subject is treated in

considerable depth by lecturers eminent in their fields and of international standing The subject is presented to other experts or practitioners who will already have specialized in the field or possess an advanced general background appropriate to the topic The ASI is aimed at an audience at the post doctoral level This does not exclude advanced graduate students or other senior participants with qualifications and achievements in the subject of the ASI or related areas This ASI was prompted by several events in the defense environment

Handbook of Research on Entrepreneurship Policy David B. Audretsch, Isabel Grilo, A. Roy Thurik, 2007 This book is a well written and handy source for readers Additionally it provides an overview of current issues relevant to the development of entrepreneurial policy which is based on interesting case studies across a number of nations Dessy Irawati International Journal of Entrepreneurial Behaviour and Research What is new in the world is the need to understand business dynamics the entry exit and growth of firms in the economy This dynamic firm structure as opposed to the static firm structure that dominated past thinking has spurred an outpouring of research The heart of the issue is that while many have identified the importance of business dynamics entry and exit we have only recently taken a closer look at the ecological system in which some companies must die for others to thrive Entrepreneurs are the predators of this system Public policy in an entrepreneurial economy dynamic must limit the forces that prevent firm exit and foster the forces that promote firm entry This book makes an important contribution to the debate Zoltan J Acs George Mason University US and Max Planck Institute of Economics Germany This unique Handbook provides a solid foundation for essential study in the nascent field of entrepreneurship policy research This foundation is initially developed via the exploration of two significant propositions underpinning the nature of entrepreneurship policy research The first is that entrepreneurship has emerged as a bona fide focus of public policy particularly with respect to economic growth and employment creation The second is that neither scholars nor policy makers are presently equipped to understand the public policy role for entrepreneurship The contributors experienced scholars specialist researchers and dynamic policy makers thus grapple with novel questions of considerable policy relevance that few have previously posed The Handbook therefore provides some of the first crucial systematic analyses of important issues and key questions to be raised in order to move entrepreneurship policy forward are also presented Written by academics and practitioners drawing examples from both North America and Europe this stimulating new Handbook is a prerequisite for students scholars and practitioners in the incipient world of entrepreneurship policy
