George C. Marshall, 1964 **Fearing the Worst** Samuel F. Wells Jr., 2019-11-26 After World War II the escalating tensions of the Cold War shaped the international system Fearing the Worst explains how the Korean War fundamentally changed postwar competition between the United States and the Soviet Union into a militarized confrontation that would last decades Samuel F Wells Jr examines how military and political events interacted to escalate the conflict

Decisions made by the Truman administration in the first six months of the Korean War drove both superpowers to intensify their defense buildup. American leaders feared the worst case scenario that Stalin was prepared to start World War III and raced to build up strategic arms resulting in a struggle they did not seek out or intend. Their decisions stemmed from incomplete interpretations of Soviet and Chinese goals especially the belief that China was a Kremlin puppet. Yet Stalin, Mao and Kim Il sung all had their own agendas about which the United States lacked reliable intelligence. Drawing on newly available documents and memoirs including previously restricted archives in Russia, China and North Korea, Wells analyzes the key decision points that changed the course of the war. He also provides vivid profiles of the central actors as well as important but lesser known figures. Bringing together studies of military policy and diplomacy with the roles of technology, intelligence and domestic politics in each of the principal nations, *Fearing the Worst* offers a new account of the Korean War and its lasting legacy.

FDR and the American Crisis Albert Marrin, 2015-01-06 The definitive biography of president Franklin Delano Roosevelt for young adult readers from National Book Award finalist Albert Marrin is a must have for anyone searching for President's Day reading. Brought up in a privileged family, Franklin Delano Roosevelt had every opportunity in front of him. As a young man, he found a path in politics and quickly began to move into the public eye. That ascent seemed impossible when he contracted polio and lost the use of his legs. But with a will of steel, he fought the disease and public perception of his disability to become president of the United States of America. FDR used that same will to guide his country through a crippling depression and a horrendous world war. He understood Adolf Hitler and what it would take to stop him before almost any other world leader did. But to accomplish his greater goals, he made difficult choices that sometimes compromised the ideals of fairness and justice. FDR is one of America's most intriguing presidents, lionized by some and villainized by others. National Book Award finalist Albert Marrin explores the life of a fascinating, complex man who was ultimately one of the greatest leaders our country has known.

Unlikely Heroes Derek Leebaert, 2023-02-28 Masterful. The Guardian Propulsive. The Wall Street Journal Leebaert has done the near impossible, crafted a fresh and challenging portrait of the man and his inner circle. Richard Norton Smith, author of *An Uncommon Man*, former director of the Hoover, Eisenhower, Reagan and Ford presidential libraries. A fascinating and absorbing analysis of FDR's brilliantly chosen team of four courageous and creative men and women. Susan Dunn, author of *1940 FDR Willkie Lindbergh Hitler the Election Amid the Storm*, Massachusetts Professor of Humanities, Williams College. Drawing on new materials, *Unlikely Heroes* constructs an entirely fresh understanding of FDR and his presidency by spotlighting the powerful, equally wounded figures whom he raised up to confront the Depression, then to beat the Axis. Only four people served at the top echelon of President Franklin Roosevelt's Administration from the frightening

early months of spring 1933 until he died in April 1945 on the cusp of wartime victory These lieutenants composed the tough constrictive long term core of government They built the great institutions being raised against the Depression implemented the New Deal and they were pivotal to winning World War II Yet in their different ways each was as wounded as the polio stricken titan Harry Hopkins Harold Ickes Frances Perkins and Henry Wallace were also strange outsiders Up to 1933 none would ever have been considered for high office Still each became a world figure and it would have been exceedingly difficult for Roosevelt to transform the nation without them By examining the lives of these four a very different picture emerges of how Americans saved their democracy and rescued civilization overseas Many of the dangers that they all overcame are troublingly like those America faces today
