George Macdonald Selections From His Greatest Works:

George MacDonald George MacDonald,1990 **C. S. Lewis's List** David Werther,Susan Werther,2015-04-09 In 1962 The Christian Century published C S Lewis's answer to the question What books did most to shape your vocational attitude and your philosophy of life Lewis responded with ten titles ranging from Virgil's Aeneid to James Boswell's The Life of Samuel Johnson and from George Herbert's The Temple to Boethius's The Consolation of Philosophy C S Lewis's List brings together experts on each of the ten books to discuss their significance for Lewis's life and work illuminating his own writing through those he most admired **Military Chaplains' Review** ,1990 **C. S. Lewis and the Inklings** Jason Fisher,Mark Hall,Salwa Khoddam,2015-09-18 This is a unique collection of two of the Inklings and their literary associates views on the negative impacts of technology in various areas of life and the resolution of these impacts through fellowship with others and faith in the Creator Some of these essays offer suggestions on how ensnarement by social media and surrender to modern technology can be countered by surrender to God Other essays also demonstrate how the significant literary craft of these authors can enchant readers and invite them into fairylands from which they return empowered and with a keener spiritual vision to tackle universal and present concerns *Stones of Remembrance* Lois Evans,2006-10-01 When times get difficult and they will we all have a choice We can either dwell on the crashing waves or turn our focus to the solid rock on which we stand In this bedrock book of faith and assurance Lois Evans draws the reader's attention to those points in life when God has shown His enduring faithfulness creating memory stones that will serve as a lifelong anchor of hope amid the rushing floodwaters of life *C. S. Lewis and the Inklings* Mark Hall,Jason Fisher,Salwa Khoddam,2012-12-18 This volume offers essays on a variety of aspects of the inter related topics of hiddenness and discovery literary biographical philosophical and source study The Inklings that are examined in this anthology are C S Lewis J R R Tolkien and Owen Barfield with two of their literary predecessors and influences that are included under the term Inklings in this anthology G K Chesterton and George MacDonald Readers will find new territory for further exploration of C S Lewis and the Inklings in the areas of 1 creative collaboration among the Inklings 2 genres for example the penny dreadful Christian liturgical poetry 3 literary influences H G Wells Dante 4 linguistics Tolkien's web of words and 5 the convergence of literature and theology Other areas which readers would find interesting are medieval cosmology classical mythology and Nordic mythology in Lewis's and Tolkien's works the pagan mythology of the Greeks and Romans and the Nordic myth of Ragnarok Consequently Lewis's A Discarded Image was studied by several contributors to substantiate his knowledge on the medieval cosmos **The Greatest Works of G. K. Chesterton** G. K. Chesterton,2023-12-09 In The Greatest Works of G K Chesterton readers are invited into an expansive literary universe where profound philosophical inquiry meets a playful narrative style Chesterton often celebrated for his wit employs a masterful blend of irony and humor while addressing serious themes ranging from faith and morality to social justice and the nature of existence The collection showcases his signature use of paradox making

complex ideas accessible and engaging By weaving together essays fiction and poetry Chesterton creates a vibrant tapestry that reflects the intellectual landscape of the early 20th century demonstrating the interplay between spirituality and the modern world G K Chesterton 1874 1936 a prolific British writer journalist and theologian emerged as a prominent voice in the literary movement of his time His personal journey transformed him from a skeptic to a committed Christian deeply influencing his worldview and literary output Chesterton s background in art and philosophy allowed him to approach writing with a unique perspective exploring the tensions between faith and reason tradition and innovation thus enriching his works with depth and insight This collection is essential for those wishing to explore the intersections of theology philosophy and literature It not only highlights Chesterton s brilliance but also invites readers to reflect on their beliefs and the complexities of life Whether you are a long time admirer or a new reader Chesterton s insights continue to resonate making this anthology a timeless treasure

Persona and Paradox Suzanne Bray,2013-01-15 Although certain aspects of C S Lewis s work have been studied in great detail others have been comparatively neglected This collection of essays looks at Lewis s life and work and those of his friends and associates from many different angles but all connected through a common theme of identity Questions of identity are essential to the understanding of any writer The ways authors perceive themselves and who they are the communities they belong to by birth or choice inevitably influence their work The way they present other people real or fictional are also rooted in their own conception of identity In this volume scholars from several countries examine gender and family roles national regional racial and professional identities membership of a particular church ideological attachments and personal descriptions either with regard to Lewis and those who knew him and influenced him or in a study of their writings Authors studied here include J R R Tolkien Dorothy L Sayers Charles Williams George MacDonald and T S Eliot
