Geriatric Longterm Procedures And Treatments:

Geriatric Long-term Procedures & Treatments Marie S. Jaffe, 1999 Focuses on provision of safe and competent care in long term alliterative or assistive care facilities Sixteen general systems with 131 related procedures and treatments are included Features information on definition assessment nursing diagnoses interventions and problem solving actions for each skill Procedures and treatments are divided into sections identified with the nursing process to facilitate the problem solving method Psychosocial considerations are covered as well as performance of physical tasks within each skill **Geriatric Long-term Procedures & Treatments** Marie S. Jaffe, 1994 Handbook of Clinical Behavior Therapy with the Elderly Client Patricia A. Wisocki, 2013-11-21 Although we speak of the elderly as if there were one body of people with common characteristics older adults are more heterogeneous than any other population People over the age of 65 are also the fastest growing segment of the population in the United States currently numbering 25 million The majority of older adults reside in their communities a small fraction of them are cared for in institutions Most may expect to experience some kind of physical impairment Approximately a quarter of the population may expect to suffer a mental health impairment While traditional therapies have not been especially effective for older adults behavior therapy has shown exceptional promise as a treatment modality This book presents a comprehensive explication of the relatively new field of behavioral gerontology It was written for the clinician interested in the interaction of medical environmental and psychological variables and their effects on treatment of elderly clients and for the researcher who will be looking to extend knowledge about interventions with this population It will be useful for the graduate student in clinical psychology as well as the experienced clinician who will want to include the elderly in his or her therapeutic population Infection Management for Geriatrics in Long-Term Care Facilities Thomas T. Yoshikawa, Joseph G. Ouslander, 2006-09-14 Offering an authoritative overview of all infection management protocols currently utilized by infectious disease specialists geriatricians and infection control practitioners this Second Edition examines current strategies to diagnose treat control and prevent common infectious diseases in long term care geriatric facilities Covering a wide **Clinical Geriatrics and Issues in Long-term Care**, 1996-07 **Principles and Practice of Geriatric Surgery** Ronnie Ann Rosenthal, Michael E. Zenilman, Mark R. Katlic, 2013-06-29 More than two decades ago in response to the special healthcare needs of the aging American population interest in the field of geriatric medicine began to grow and blossom in the United States In 1984 and 1985 under the editorial leadership of Christine K Cassel and William R Hazzard respectively two major textbooks devoted to the medical care of aged patients were published These scholarly comprehensive texts provided insight into the principles of aging and guidance in the care of the geriatric patient Three editions later the need to understand the special issues involved in the medical care of the elderly is widely accepted by internists primary care providers and medical specialists For the editors of this book the special issues involved in the surgical care of the elderly have been apparent for nearly as long Although there have been a few scholarly texts on

the subject including one in 1990 by Mark R Katlic general acceptance of the concept of geriatric surgery by our surgical and medical colleagues has however lagged This is not the result of a proportionately smaller number of older patients with surgical disease because cancer cardiovascular disease and orthopedic problems are diseases of the aged It is rather the result of uncertainty about the value of surgery in the elderly and concerns about the risks of operations In the past such concerns prevented primary care givers from referring patients for surgical care and prevented surgeons from agreeing to operate
