4-wheeled Armoured Cars in Germany Ww2 Alan Ranger, 2020-03-19 Germany was at the forefront of the development of armoured cars during the First World War however with the end of the war in November of 1918 and the signing of the Treaty of Versailles in 1919 the victorious allies imposed a complete ban on the Germany army being equipped with any armoured vehicles including armoured cars In the early 1920's The Zusatz von Bologne which was an amendum to the Treaty of Versailles allowed the German Army to produce armoured cars primarily for policing duties and eventually this gave rise to the Sd Kfz 13 series in the early 1930's however with the Nazi party takeover of Germany in 1933 new 4 wheeled armour cars were ordered and they were all to be based on the Horch off road heavy passenger chassis they were numbered Sd Kfz 221 222 and 223 the same chassis was also developed in to the Sd Kfz 260 and 261 radio command vehicles This publication

covers the German 4 wheeled cars in great photographic detail focusing on the armoured cars and their crews as they dealt with the conditions and circumstances they found themselves in photographs from the author s own collection have been used to illustrate this book that were taken by the average German soldier not official army cameramen who s photos are well known and have been published over and over again already **Puma Sdkfz 234/1 and Sdkfz 234/2 Heavy Armoured Cars**

Dennis Oliver,2023-07-30 a well researched title that covers a lesser known type and that manages to squeeze a heck of a lot into 64 pages WarWheels The lightning advances of the German armored units during the Polish and French campaigns were spearheaded by fast moving armed reconnaissance vehicles But these early designs suffered heavily due to their light weaponry and thin armor and a program was soon underway led by the firm of B ssing NAG which culminated in the development of the Sdkfz 234 series of heavy eight wheeled armored cars the first of which entered service in late 1943 These vehicles proved to be rugged and reliable and were gradually up armed to serve in the infantry support role and eventually as tank killers This volume of the LandCraft series concludes the story of the Sdkfz 234 series examining the versions that took part in the last battles of the war Using archive photos and extensively researched color illustrations Dennis Oliver examines the Sdkfz 234 1 and Sdkfz 234 2 and the units that operated these often neglected yet important armored vehicles A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks **1914-1938 Armored Fighting Vehicles**

George Bradford,2010-09-20 George Bradford s latest collection of scale drawings of armored fighting vehicles focuses on the years from World War I to the eve of World War II a period of fast paced AFV development around the world The volume is filled with detailed diagrams of more than 100 vehicles from Britain Czechoslovakia France Germany Italy Japan Poland Romania the Soviet Union and the United States including Whippet medium tank Britain Renault R35 light tank France Panzer I light tank Germany T 35 multiturreted tank Soviet Union T3 Christie tank United States And many more **Pakwagen SDKFZ 234/3 and 234/4 Heavy Armoured Cars**

Dennis Oliver,2022-10-24 squeezes a lot of useful information into a modest 64 pages and is a useful addition to any library of German armored cars War Wheels Experience in the Polish and French campaigns had convinced the German high command of the value of fast moving armed reconnaissance vehicles But it was realised that many of the early designs were too lightly armed and development of a heavy eight wheeled prototype resulted in the Sdkfz 234 series of armored cars the first of which entered service in late 1943 Built by the firm of B ssing NAG these sturdy and reliable vehicles were gradually up armed and served in the infantry support role and eventually as tank killers largely as the result of Hitler s desperation to arm as many vehicles as possible with anti tank weapons Drawing on official documentation and unit histories Dennis investigates the formations that operated these vehicles and uses archive photos and extensively researched color

illustrations to examine the markings camouflage and technical aspects of the Sdkfz 234 2 234 3 and 234 4 armored cars that served on the Western and Eastern Fronts in the last months of the war A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeller needs to recreate an accurate representation of these historic vehicles

Red Army Weapons of the Second World War Michael Green,2022-09-21 While the Red Army s arsenal at the start of the Second World War included weapons dating back to the Great War or earlier the 1930s modernization program had introduced the automatic Tokarev pistol and self loading Tokarev rifle Its small arms were soon replaced by mass produced sub machine guns such as the PPSH 1941 nicknamed the PePeSha Supplementing the submachine guns the Degtyarev Light Machine Gun DP 27 Fitted with a circular pan magazine it received the not unsurprising nickname Record Player New mortars and towed artillery pieces ranging from 76mm to 203mm entered service in the pre war years In addition to a wide range of towed self propelled and anti tank guns the Soviets fielded the Katyusha rocket launchers in 1941 nicknamed the Stalin s organ by the Germans The 1930s saw the introduction of the BT light tank series The iconic T 34 medium tank series came into service in late 1940 joined by the IS 2 heavy tank from early 1944 the prefix letters IS translates to Joseph Stalin These formidable AFVs led the Red Army to victory in May 1945 over Nazi Germany All these weapons and more are covered with numerous images in this authoritative overview of the subject

The Encyclopedia of Weapons of World War II Chris Bishop,2002 The encyclopedia of weapons of world war II is the most detailed and authoritative compendium of the weapons of mankind s greatest conflict ever published It is a must for the military enthusiast and all those interested in World War II

World War II in Europe David T. Zabecki,2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A

bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps

German Late War Armored Fighting Vehicles George Bradford,2007-02-07 This work is filled with fine scale drawings of Germany's late war armoured vehicles including Panther Tiger Elephant Jagdtiger and dozens more **Hitler Strikes North** Jack Greene,Alessandro Massignani,2013-03-19 A detailed account of Germany's groundbreaking Operation Weserbung the first three dimensional land sea air strategic invasion in history The German invasion of Denmark and Norway in April 1940 brought a sudden and shocking end to the Phoney War in the West In a single day multiple seaborne and airborne landings established German forces ashore in Norway overwhelming the unprepared Norwegian forces and catching the Allied Powers completely by surprise Their belated response was ill thought out and badly organized and by June 9 all resistance had formally ended The strategic importance of Scandinavian iron ore shipped through the port of Narvik to Germany was the main cause of the campaign The authors show how Allied attempts to interdict these supplies provoked German plans to secure them and also how political developments in the inter war years resulted in both Denmark and Norway being unable to deter threats to their neutrality despite having done so successfully in the First World War The German attack was their first joint air sea and land operation making large scale use of air landing and parachute forces and the Luftwaffe's control of the air throughout the campaign would prove decisive Although costly particularly for the Kriegsmarine it was a triumph of good planning improvisation and aggressive determined action by the troops on the ground Making full use of Norwegian Danish and German sources this book is a full and fascinating account of this highly significant campaign and its aftermath both for the course of the Second World War and the post war history of the two countries conquered with such unprecedented speed **Thunder in the East** Evan Mawdsley,2015-11-19 Thunder in the East originally published in 2005 is widely regarded as the best short history of the entire Nazi Soviet military conflict It tells the story from the pre war expectations of Hitler and Stalin through the pivotal battles deep in Russia in 1942 43 and on to the huge Soviet offensives across Eastern Europe in 1944 45 This final march of liberation destroyed the Third Reich and set Europe's history for the next 45 years The book provides penetrating answers to vital questions Why did the war in the East develop as it did Why did Hitler's Wehrmacht lose Why did the Red Army win and why did the people of Soviet Russia pay such a high price for victory The first edition took advantage of the flood of new sources that followed the end of the Soviet era This second edition takes account of what has been written over the last decade the Nazi Soviet war in all its aspects has continued to be the subject of extensive and innovative research and heated controversy *Fascist Italy at War* James J. Sadkovich,2025-03-27 Rather than a chronological account this history contains discussions of topics ranging from economics and diplomacy to industrial capacity and armored doctrine The author challenges claims that Italians were militarily incompetent by examining the influence of demography natural resources industrial capacity and Italy's allies on its war efforts during both world wars He also challenges assertions that ideology determined the choice of allies and

formulation of military doctrine and arguments that Italy's war effort was negligible in world wars. Based on primary and secondary sources, this revisionist history contains seventy-four tables and arguments rarely found in the literature in English.
