## German Trauma Experiences And Reflections 1938 :

**The German Trauma** Gitta Sereny,2000      **The German Trauma** Gitta Sereny,2001-09-06 Gitta Sereny is one of the world's most respected journalists and historians. This book gathers together the best of her writing on Germany from over sixty years. It amounts to an extraordinary portrait of the country and its people, how they have come to terms with their Nazi past, both collectively and in specific instances, and how the burden of their guilt has altered the national identity. She writes about key individuals: Stangl, Speer, and the questions which their lives raise. The penetration and conviction of her writing throughout is startling, and she constantly reminds us why it is important to consider the questions she addresses: war guilt, holocaust denial, and the temptations of obedience.

**The German Trauma** Gitta Sereny,2000      The German Trauma Gitta Sereny,2000 IN 1945 Germany underwent a radical political transformation, moving from certainty and irreversibility from dictatorship to freedom under a model federal constitution. But despite this remarkable public success and the economic revival that accompanied it, the experience of war remains current in the imagination of Germans. Indeed, so total was their defeat, so complete was their culpability, that Germany's obvious dynamism has coexisted with the always open wound of their history. The fact that this wound exists and has been felt so deeply for more than half a century has altered what has usually been thought of as the German character.

Law, Memory, and the Legacy of Apartheid Wessel Le Roux, Karin Van Marle,2007      *Postwar Migration Policy and the Displaced of the British Zone in Germany, 1945-1951* Imogen Bayley,2024-11-08 This book examines the experiences of refugees who populated the Displaced Persons (DP) camps in the British Zone of Allied-occupied Germany after the Second World War. With a specific focus on Polish and Jewish communities, it explores the interaction between migration policy and the migration strategy of refugees, or in other words, the relationship between DP policy and individual choices, and how these evolved over time. The book aims to harmonize often contradictory images of displaced persons in the British Zone of occupation by taking a comparative approach and analysing conflicting identifications and state-individual relations. Drawing on the records of the International Tracing Service, refugee memoirs, DP publications distributed in the camps themselves, and personal petitions and correspondences, the author sheds light on the experiences of displaced persons and illustrates the difficulty of making clear-cut distinctions between forced and voluntary migration. Today, as in the post-war period, refugees' access to social rights and welfare, settlement rights, and the possibility of family reunification can all be determined by the same labels that were so fiercely contested after 1945. A dichotomy between so-called economic and political migration endures, and many claims to asylum are today rejected on the grounds of applicants not being formally recognized as genuine refugees and recipients of aid. This book therefore adds to our growing understanding of the plight of refugees and the need to ensure access to justice for all through the ongoing building of an effective, accountable, and inclusive refugee regime.
