Geopolitical And Economic Changes In The Balkan Countries:

Geopolitical and Economic Changes in the Balkan Countries Nicholas V. Gianaris, 1996-08-16 Geopolitical and Economic Changes in the Balkan Countries is a background work on the history wars and invasions of the Balkans The ways in which this background has produced and altered the present unsettled situation in Bosnia and other parts of the peninsula is discussed The recent involvement of the United States and the stabilizing role of Greece in southeastern Europe as well as the potential economic cooperation between the Balkan countries and the European Union are analyzed *The Balkans and the West* Andrew Hammond, 2017-03-02 This collection of essays locates investigates and challenges the manner in which the Balkans and the West have constructed each other since 1945 Scholars from the two sections of the continent explore a wide range of fiction film journalism travel writing and diplomatic records both to analyse Western European balkanism and to study Balkan representations of the West over the last fifty years The first section looks back to the Cold War examining the divergent often favourable images of the Balkans that existed in Western culture as well as the variety of responses that appeared in South East European writings on the West The second section analyses the transitions that took place in representation during the 1990s Here contributors explore both the harsh denigration of the Balkans which came to dominate western discourse after the initial euphoria of 1989 and the emerging tradition of contesting Western balkanism in South East European cultural production Through this dual emphasis the volume exposes the representational practices that help to maintain a deeply divided Europe and challenges the economic and political injustices that result Despite the rise to prominence of postcolonial theory with its awareness of global inequality the current crises in many parts of South East Europe have received scant attention in literary and cultural studies *The Balkans and the West* addresses this deficiency Ranging in focus from Serbian cinema to Romanian travel literature from Western economic writings to Yugoslav fiction and from public discourse in Albania to NATO s vast propaganda machine the essays offer wide insight into representation and power in the contemporary European context Peacekeeping & International Relations ,1997 *The Politics of Nation-Building* Harris Mylonas, 2013-02-18 What drives a state s choice to assimilate accommodate or exclude ethnic groups within its territory In this innovative work on the international politics of nation building Harris Mylonas argues that a state s nation building policies toward non core groups individuals perceived as an ethnic group by the ruling elite of a state are influenced by both its foreign policy goals and its relations with the external patrons of these groups Through a detailed study of the Balkans Mylonas shows that how a state treats a non core group within its own borders is determined largely by whether the state s foreign policy is revisionist or cleaves to the international status quo and whether it is allied or in rivalry with that group s external patrons Mylonas injects international politics into the study of nation building building a bridge between international relations and the comparative politics of ethnicity and nationalism Bosnia and Beyond Jeanne M. Haskin, 2006 Could we should we have prevented the break up of Yugoslavia Can genocide be prevented or halted The author

examines the dire consequences of the rapid economic reforms demanded by the West and asks where responsibility lies when external pressures destroy a nation and lead to genocide Bosnia and Beyond The Quiet Revolution That Wouldn't Go Quietly is in part the story of how the West destroyed a country through the imposition of economic and political reform Promoted as a way to modernize Yugoslavia and bring it into the mainstream the program was in fact meant to bring down the Communist government in a quiet revolution of the type that was envisaged for other former Soviet bloc countries Showing how Western plans for the liberalization of the country resulted in ethnic polarization and the election of ethno nationalist leaders the book then goes on to describe the events of the war The struggle of the republics for independence was yet another proxy war which the West encouraged in order to chastise Milosevic and nudge him into becoming the man that they wanted him to be While no formal plan has surfaced to show that the whole thing was engineered to provide a base for US NATO troops on the other hand the situation was so egregious that intervention was highly sought and that the West had an obligation to clean up its mess which it finally did Many have been emotionally manipulated into being grateful for NATO intervention and then it was quite convenient that a NATO base existed But how does one say that intervention was needful and then point the finger at the intervening forces One can claim that Germany Austria and the Vatican were in favor of Croatian and Slovenian secession and the United States came late to the game to demand Bosnian independence It can also be claimed that Britain and France did not stand in the way of Serbian secession within Bosnia and Croatia but rather promoted their goals Yugoslavia was a case of secession within secession raising the question of who was supported by whom in either case The work considers the research and views of a wide range of scholars historians journalists and humanitarian writers such as Cohen and Reisman Udoviki and Ridgeway Eds Norman Cigar Laura Silber and Alan Little Danielle Sremac Michael Walzer Ed Vulliamy Peter Maas Samantha Power Peter du Preez Lawrence Freedman Hoffman Johansen and Sterba Ervin Staub and Thomas Mockaitis Transnational Agrarian Movements Confronting Globalization Saturnino M. Nicholas V. Gianaris, 2000-10-30 The global economy is undergoing dramatic financial changes The removal of technical trade and monetary barriers and the liberalization of world economies create challenges and opportunities for investment

and financial transactions With these changes international finance is expected to play a vital role in foreign exchange cross border capital flows joint ventures and economic growth but rapid progress in telecommunications and electronic capital transfers could lead to tremors in financial markets making the global economy vulnerable to speculation investors panic and economic fluctuations Supported by the latest empirical research this book weaves together a theoretical framework of international finance supported by the latest empirical research IGlobalization R provides a comprehensive analysis of traditional and modern theories of international monetary systems problems of balance of payments exchange rates and related adjustment and stabilization policies for industrialized and emerging nations Following a brief historical review the book covers advanced theories of international trade and finances as well as related real world performance It examines strengths and weaknesses of fixed and floating exchange rates forward exchanges spreading global shareholder capitalism problems of emerging markets international capital movements and banking activities market capitalization and foreign debt It also examines investment movements and cross border mergers economic and financial integration related effects of macroeconomic policies in open economies and problems of global income inequalities The book will be of great theoretical and practical importance to students scholars and business leaders *Ethnic Conflict in Asymmetric Federations* Gorana Grgić, 2016-12-19

In the last years of their existence the Union of Soviet Socialist Republics USSR and the Socialist Federal Republic of Yugoslavia SFRY found themselves facing a similar and very grim state of affairs After their disintegration the former Yugoslav republics spiralled into a set of ethnic conflicts that did not leave a single one of them unscathed and in the ex Soviet space conflicts were far more limited This book offers an in depth analysis of the difference in state collapses and ensuing conflicts in the Soviet Union and Yugoslavia by focusing on their asymmetric ethnofederal structure and the different dynamics of ethnic mobilization that the federal units experienced Moreover it explores the links between identity politics and international relations as the latter has been a latecomer in research on ethnonationalism and ethnic conflict Finally it contributes to the literature on the democratization conflict nexus by proposing that the sequencing of ethnic mobilization and political liberalization has significant effects on the likelihood of conflict This text will be of key interest to scholars and students of Post Soviet politics Balkan politics ethnic conflict peace and conflict studies federalism and more broadly to comparative politics and international relations

The Changing Geopolitics of Eastern Europe Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership

19th Century Europe Hannu Salmi, 2013-04-24 Nineteenth Century Europe offers a much needed concise and fresh look at European culture between the Great Revolution in France and the First World War It encompasses all major themes of the period from the rising nationalism of the early nineteenth century to the pessimistic views of fin de siècle It is a lucid fluent presentation that appeals to both students of history and

culture and the general audience interested in European cultural history The book attempts to see the culture of the nineteenth century in broad terms integrating everyday ways of life into the story as mental material and social practices It also highlights ways of thinking mentalities and emotions in order to construct a picture of this period of another kind that goes beyond a story of isms or intellectual and artistic movements Although the nineteenth century has often been described as a century of rising factory pipes and grey industrial cities as a cradle of modern culture the era has many faces This book pays special attention to the experiences of contemporaries from the fear for steaming engines to the longing for the pre industrial past from the idle calmness of bourgeois life to the awakening consumerism of the department stores from curious exoticism to increasing xenophobia from optimistic visions of future to the expectations of an approaching end The century that is only a few generations away from us is strange and familiar at the same time a bygone world that has in many ways influenced our present day world

Bulgarian Geopolitics in a Balkan Context Valentin Mihaylov,2024-04-01 This book is about the geographic space as an inseparable component of a nation s historical memory territorial awareness geopolitical visions and obsessions The empirical part of the book focuses on the critical analysis of first hand sources containing representations of the imagined spaces and places of Bulgaria and Bulgarians from a long term perspective The research results are structured in accordance with the author s model of an imagined national space It contains three general domains possessed national space the ethnogeopolitical neighbourhood and ancient and legendary spaces The book also explores how Bulgarians historical and ethnic spaces are linked with specific geopolitics such as passive internal geopolitics soft revisionism non intervening geopolitical claims blocking international integration as a disguised form of old territorial claims and emerging historical geopolitics It examines how the imagined national space is approached by statesmen politicians academics and other creators of high geopolitics The book also pays attention to the role of spatial imaginations in growing low popular geopolitics which includes media popular culture and national mythology Written in an interdisciplinary manner this timely book will attract the interest of scholars and students in geopolitics human geography international relations nationalism studies and ethnic history

Three Decades of Polish Socio-Economic Transformations Paweł Churski,Tomasz Kaczmarek,2022-08-27 This edited volume analyses and discusses the systematisation of Polish socio economic transformations of the last three decades using selected examples of the most important changes 1989 marked the onset of the political transformation process in Poland and other countries of Central and Eastern Europe The transition

involved a shift from a socialist system to a parliamentary democracy and from a command economy to a market one. Due to the deep economic crisis that culminated in 1988 and the peaceful model of change developed and implemented in Poland, the magnitude and manner of implementing various initiatives was unprecedented and had specific implications. This transformation opened Polish society and the Polish economy to the impact of global social and economic changes, triggering successive transformations often overlapping in terms of their causes and consequences. This publication aims to present the course and effects in particular territorial of Poland's socio-economic transformation in the years 1990-2020. The analysis covers the key aspects of this transformation, illustrated with references to the concepts and theories of development, domestic and foreign literature, own empirical research, and existing or newly developed model approaches to transformation in the territorial dimension. The book appeals to researchers and students in the fields of geography, spatial management, economics, and business sociology, and political sciences, public and private economic research institutes, employees of governmental bodies and corporations, consultants in public administration, journalists, and policymakers.

Peace, Conflict and Developments in the Western Balkans. The Role of EU Integration Reina Zenelaj Shehi, Eglantina Hysa, 2020-09-10. The Western Balkan countries are characterized by an entanglement of different national, ethnic, and religious groups. Within all Balkan states, nationalist rivalries have been and are exploited by political leaders as a propaganda tool when faced with internal unrest or unpopularity. Yet the proximity of ethnic communities to their countries of ethnic origin tie all the Balkan states into a common problem: the spillover effect of regional insecurity. Existing and future disputes require an exhaustive survey of national, ethnic, religious, territorial, economic, and political problems, and this is precisely what this volume sets out to do.

The New Balkans George A. Kourvetaris, 2002. A thorough overview of trends in southeastern European countries over the post-1989 period; these essays also project into the future. Chapters discuss the troublesome transitions to democracy and the legacy of communism; the prospects for economic development and the role of foreign investment; the development of the EU and American and NATO policies toward the region.

Great Powers and Geopolitics Aharon Klieman, 2015-04-02. This book presents the theoretical, historical, comparative political framework needed to fully grasp the truly dynamic nature of 21st-century global affairs. The author provides a realistic assessment of the shift from U.S. predominance to a new mix of counterbalancing rival middle-tier and assertive regional powers while highlighting those geopolitical zones of contention most critical for future international stability. The book will appeal to scholars and policy makers interested in understanding the contours of the emerging world order and in identifying its principal shapers and leading political actors.

The EU-Western Balkans Future Relations: Exploring Liberal vs. Realist Scenarios Labinot Greiçevci, 2025-09-26. This book offers a comprehensive analysis of the evolving relations between the EU and the Western Balkans, adopting a forward-looking perspective for the next 5 to 10 years. It delves into the complex dynamics of integration and envisions multiple alternative scenarios: liberal vs. realist for the region's future relations with the EU, considering

potential challenges and opportunities that may arise in the process The book begins with a theoretical discussion of numerous perspectives that analyse the EU's role in international relations with specific emphasis on the EU actorness thesis Subsequently it provides a context and background related to the EU Western Balkans relations It then shifts its focus to the future presenting and analysing a series of alternative scenarios status quo status quo geopolitical partial enlargement and geopolitical full enlargement for the next 5 to 10 years Through in depth analysis and expert insights readers will gain a comprehensive understanding of the evolving dynamics between the EU and the Western Balkans Ultimately the book aims to equip scholars policymakers and interested readers with the knowledge needed to navigate the complex landscape of the EU's future relations with this strategically significant region
