*Globalization* Ravinder Kaur Sidhu, 2006-08-15 Universities and Globalization To Market To Market examines the operations of power and knowledge in international education under conditions of globalization with a focus on the three biggest exporters of higher education the United States Australia and the United Kingdom An interdisciplinary approach based on the core social sciences is used to explore the power relations that shape global education networks The role of nation states in creating the conditions for education markets and the desire for a Westernized template of international education in the postcolonial world is discussed The volume offers a sophisticated attempt to recast international education as a series of geopolitical and geoeconomic engagements that transcend simple supply and demand dynamics Engaging with the

theoretical debates about education and globalization this book examines global cultural flows and boundary crossings the cultural economy of education networks and the possibilities for supra territorial subjectivities International education markets are examined from the perspectives of both first world producers and postcolonial consumers By investigating how first world universities imagine and enact the global in their marketing practices the expressions of cultural diversity valued by education markets and the types of individual and institutional subjectivities merging from markets Universities and Globalization To Market To Market offers students faculty administrators marketing consultants and others who work in the area a highly nuanced account of the global relations fostered by education markets This original critical examination of the forms and cultural politics of international education is a significant contribution to the field

**Border Politics** Nick Vaughan-Williams, 2012-02-29 Presents a distinctive theoretical approach to the problem of borders in the study of International Relations It turns from the current debate regarding the presence or absence of borders to consider the fundamental change that is occurring in the concep

**Emplaced Resistances in Occupied Palestine** Suzanne Hassan Hammad, 2023-12-06 In this deeply personal study Hammad illuminates a deep agenda of place meaning and resistance in territorial struggles through the telling of a less heard story of how women men and young people understand their world and their lives in the occupied Palestinian West Bank landscape Taking a case study of a contested and divided Palestinian village situated in the heart of the Occupied Palestinian Territories and known for its sustained non violent protest against the Separation Wall that cuts through its lived spaces Hammad examines how villagers live experience interpret and attempt to resist infringements on their property and person The study considers the spectrum of ways that people resist in this context examining not only the overt weekly protests but also the everyday acts and subjectivities of resistance of its residents young and old It offers valuable theoretical insight into the extent and ways that meanings of place hold the potential to mediate shape and sustain resistance struggles through the voices and experiences of people The backdrop of the protracted Palestinian Israeli conflict and Palestinians struggle over space place and history which continues to play out in the present makes this book politically relevant and empowering as it brings voices from a secluded contested village to the world

**Dynamics of Change in the Persian Gulf** Anoushiravan Ehteshami, 2013-03-05 The Persian Gulf has come to represent one of the most strategically significant waterways of the world In terms of geography geopolitics resources global political economy and regional influence the Gulf is perhaps home to the world s most significant group of countries Focusing on the complexities of the interplay between domestic level changes and region wide interactions this book presents the reader with the first comprehensive survey of the dynamics of change in this crucial area Systemic oriented in its approach the impact of war and revolution on the countries of the sub region is discussed and the ways in which these factors have shaped the security dilemmas and responses of the Gulf States is also explored The role of oil is examined in terms of the impact of its income on these states and societies and the manner in which oil has shaped the integration of these states into

the global system Oil has shrunk developmental time in these countries and has accelerated generational shift At the same time it has created the dialectical relationship which now characterizes the difficult balance between prosperity and instability which is at the heart of the sub region Casting new light on the workings of a strategically significant part of the international system this book will be an essential resource for students and scholars of international relations international security and Middle Eastern politics *Handbook of the Geographies of Religion* Lily Kong,Orlando Woods,Justin K.H.

Tse,2024-12-02 This international and interdisciplinary handbook offers a comprehensive and an in depth overview of contemporary research theory and practice in the geographies of religion in various parts of the world and with different populations The book showcases the major theoretical interventions in the field and the debates about the existential constitution of sacred space and what this means for secularization It outlines the most significant geographical themes related to these new developments with their implications for how to think about landscapes space bodies and worlds The book also discusses the future of the field especially in the realms of encounters and ethics economies and markets institutions and organisations movements and migrations and media and mediums It also offers views from disciplines outside of geography including from sociology anthropology religious studies and media and communications which demonstrates the contributions of geographers of religion to wider intellectual conversations and debates *The SAGE Handbook of Political Geography* Kevin R Cox,Murray Low,Jennifer Robinson,2007-12-18 A thorough and absorbing tour of the sub discipline An essential acquisition for any scholar or teacher interested in geographical perspectives on political process Sallie Marston University of Arizona This unique book is a true encyclopedia of political geography Vladimir Kolossov Institute of Geography of the Russian Academy of Sciences and Vice President of the IGU The SAGE Handbook of Political Geography provides a highly contextualised and systematic overview of the latest thinking and research in the field Edited by key scholars with international contributions from acknowledged authorities on the relevant research the Handbook is divided into six sections Scope and Development of Political Geography the geography of knowledge conceptualisations of power and scale Geographies of the State state theory territory and central local relations legal geographies borders Participation and representation citizenship electoral geography media public space and social movements Political Geographies of Difference class nationalism gender sexuality and culture Geography Policy and Governance regulation welfare urban space and planning Global Political Geographies imperialism post colonialism globalization environmental politics IR war and migration The SAGE Handbook of Political Geography is essential reading for upper level students and scholars with an interest in politics and space **India's Spatial Imaginations of South Asia** Shibashis

Chatterjee,2018-12-14 Since India attained independence its foreign policy discourse has imagined its South Asian neighbourhood through the politics of realism This imagination explicates state interest in South Asia by establishing it as a space of sovereign territoriality Even today India s foreign and security policies are primarily shaped by geopolitical centrism

and remain unaffected by economic prosperity and community concerns As a part of the Oxford International Relations in South Asia series this volume examines alternative conceptions of South Asian space in terms of geo economics and community and justifies why they have been unable to replace its dominant understanding irrespective of the political regime This volume probes reasons behind the relevance of differentiated cartography of territorial nationalism in our shared understanding of space politics society and the community

**Environmental Security** Simon Dalby, 2002 Since the end of the Cold War environmental matters especially the international implications of environmental degradation have figured prominently in debates about rethinking security But do the assumptions underlying such discussions hold up under close scrutiny In this first treatment of environmental security from a truly critical perspective Simon Dalby shows how attempts to explain contemporary insecurity falter over unexamined notions of both environment and security Adding environmental history aboriginal perspectives and geopolitics to the analysis explicitly suggests that the growing disruptions caused by a carbon fueled and expanding modernity are at the root of contemporary difficulties Environmental Security argues that rethinking security means revisiting the question of how we conceive identities as endangered and how we perceive threats to these identities The book clearly demonstrates that the conceptual basis for critical security studies requires an extended engagement with political theory and with the assumptions of the modern subject as progressive political agent Viewed thus on a global scale the environmental security discourse raises profoundly troubling political questions as to who we are and what kind of world we are collectively making in our efforts to be secure
