[The Practice of Persuasion](#) Keith P. F. Moxey, 2001 This sequel to *The Practice of Theory* stresses the continued need for self reflective awareness in art historical

writing Offering a series of meditations on the discipline of art history in the context of contemporary critical theory Moxey addresses such central issues as the status of the canon the nature of aesthetic value and the character of historical knowledge The chapters are linked by a common interest in even fascination with the paradoxical power of narrative and the identity of the authorial voice Moxey maintains that art history is a rhetoric of persuasion rather than a discourse of truth Each chapter in The Practice of Persuasion attempts to demonstrate the paradoxes inherent in a genre that while committed to representing the past must inevitably bear the imprint of the present In Moxey s view art history as a discipline is often unable to recognize its status as a regime of truth that produces historically determined meanings and so continues to act as if based on a universal aesthetic foundation His new book should enable art historians to engage with the past in a manner less determined by tradition and more responsive to contemporary values and aspirations [Doctor Who-Guide 1/3](#) compiled from Wikipedia pages and published by Dr Googelberg,2012-08-07 Almost everything about the good doctor his companions and travels his enemies and friends Additionally the actors etc Part three contains all summaries of all TV episodes Compiled from Wikipedia pages and published by Dr Googelberg
