Language George Melville Bolling,Bernard Bloch,1999 *Language Processing in Advanced Learners of English* Marco Schilk,2020-05-15 The production and processing of collocations and formulaic language is a field of growing interest in corpus linguistics and experimental psycholinguistics In the past this fascinating field at the interface of grammar and the lexicon has been mainly studied based on English native speakers while research focusing on second language speakers and language learners has been comparatively rare This book proposes an integration of corpus based and experimental methods by analysing language processing of collocation by advanced learners of English In using corpus derived collocational stimuli of native like and learner typical language use in an experimental setting it shows how advanced German L1 learners of English process native like collocations L1 based interferences and non collocating lexical combinations This book is of interest to anyone interested in the psycholinguistic validity of collocation from a bilingual point of view as it explores methods of tracking collocational processing of speakers working with different sets of collocational preferences

American Book Publishing Record ,2005 Quinquereme ,1988 Discourse Analysis in Translation Studies Jeremy Munday,Meifang Zhang,2017-07-18 Discourse analytic approaches are central to translator training and translation analysis but have been somewhat overlooked in recent translation studies This volume sets out to rectify this marginalization It considers the evolution of the use of discourse analysis in translation studies presents current research from ten leading figures in the field and provides pointers for the future Topics range from close textual analysis of cohesion thematic structure and the interpersonal function to the effects of global English and the discourses of cyberspace The inherent link between discourse and the construction of power is evident in many contributions that analyse institutional power and the linguistic resources which mark translator interpreter positioning An array of scenarios and languages are covered including Arabic Chinese English German Korean and Spanish Originally published as a special issue of *Target* 27 3 2015
