**Germany in the High Middle Ages** Horst Fuhrmann, 1986-10-09 This book describes and explains the conditions and changes happening in Germany from 1050 1200     Germany in the high Middle Ages Horst Fuhrmann, 1986     Germany in the High Middle Ages, C. 1050-1200 Horst Fuhrmann, 1992     **Germany in the High Middle Ages C 1050-1200 :**  
**Translated by Timothy Reuter** Horst Fuhrmann, 1986     **Germany in the Early Middle Ages c. 800-1056** Timothy Reuter, 2014-06-06 The first volume chronologically in a new multi volume History of Germany Timothy Reuter's book is the first full scale survey to appear in English for nearly fifty years of this formative period of German history the period in which Germany itself and many of its internal divisions and characteristics were created and defined Filling an important gap the book is itself a formidable scholarly achievement     **Medieval Germany, 500-1300** Benjamin Arnold, 1997-06-09 Medieval Germany 500 1300 is an interpretation of the foundation of Germany based upon the three most outstanding characteristics of the medieval polity its division into several distinct peoples with their own customs dialects and economic interests from whom the later Germans would be drawn the imperial ambitions to which the successive German dynasties aspired and the structure of German kingship which was a military religious and juridical exercise of authority rather than a meticulous administration based upon scribal institutions     **Noble society** , 2018-01-02 This book provides scholars and students alike with a set of texts that can deepen their understanding of the culture and society of the twelfth century German kingdom The sources translated here bring to life the activities of five noblemen and noblewomen from Rome to the Baltic coast and from the Rhine River to the Alpine valleys of Austria To read these five sources together is to appreciate how interconnected political military economic religious and spiritual interests could be for some of the leading members of medieval German society and for the authors who wrote about them Whether fighting for the emperor in Italy bringing Christianity to pagans in what is today northern Poland or founding reforming and governing monastic communities in the heartland of the German kingdom the subjects of these texts call attention to some of the many ways that noble life shaped the world of central medieval Europe     Medieval Polities and Modern Mentalities Timothy Reuter, 2006-11-02 This is a collection of influential and challenging essays by British medievalist Timothy Reuter a perceptive and original thinker with extraordinary range who was equally at home in the Anglophone or German scholarly worlds The book addresses three interconnected themes in the study of the history of the early and high Middle Ages Firstly historiography the development of the modern study of the medieval past How do our contemporary and inherited preconceptions and preoccupations determine our view of history Secondly the importance of symbolic action and communication in the politics and polities of the Middle Ages Finally the need to avoid anachronism in our consideration of medieval politics Throwing light both on modern mentalities and on the values and conduct of medieval people themselves and containing articles at time of publication never previously been available in English this book is essential reading for any serious scholar of medieval Europe     Routledge Revivals:

*"The Making of Europe"*, 2016-05-09 In *The Making of Europe Essays in Honour of Robert Bartlett* a group of distinguished contributors analyse processes of conquest colonization and cultural change in Europe in the tenth to fourteenth centuries They assess and develop theses presented by Robert Bartlett in his famous book of that name The geographical scope extends from Iceland to the Islamic Mediterranean from Spain to Poland Themes covered range from law to salt production from aristocratic culture in the Christian West to Islamic views of Christendom Like the volume that it honours the present book extends our understanding of both medieval and present day Europe Contributors are Sverre Bagge Piotr Grecki John Hudson Hugh Kennedy Simon MacLean William Ian Miller Esther Pascua Echegaray Ana Rodriguez Matthew Strickland John Tolan Bjorn Weiler and Stephen D White This is an excellent collection of essays that do justice to Robert Bartlett's inexhaustible book *The Making of Europe* Rather than merely repeating and venerating Bartlett's ideas the essays engage creatively and critically with them and spark new ideas and insights that cast a flood of light on the culture of medieval Europe The result is a worthy tribute that will send readers scurrying back to Bartlett to quarry yet more nuggets from *The Making of Europe* still fizzing with intellectual brio some twenty years after its publication Stuart Airlie University of Glasgow October 2015

*Irish Kingship in the Eleventh and Twelfth Centuries* Ronan Mulhaire, 2025-05-23 *Irish Kingship in the Eleventh and Twelfth Centuries* examines the power of medieval Irish kings but treats power as a complex concept worthy of study in its own right It starts from the premise that historians of medieval Ireland have interpreted power in a narrow way This book engages with the rich corpus of literature on power produced by political scientists and sociologists which reveals the sheer complexity and vicissitudes of power as a concept Where there is

power there is resistance Hence drawing on evidence from medieval Irish chronicles hagiographies saga literature and advice texts this book explores the largely ignored phenomena of revolt resistance and violence in eleventh and twelfth century Ireland It argues against a panoptic narrative of royal centralisation and suggests that the existence of a multiplicity of kings and non royal lords has proven to be more of a problem for historians than it was for the Irish kings themselves This book will appeal to scholars and students of medieval Ireland as well as those interested in the history of kingship power and resistance
