Hawthornes Conception Of The Creative Process:

Hawthorne's Conception of the Creative Process Richard J. Jacobson, 1965 Richard Jacobson examines and delineates the processes of mind that Hawthorne conceived of as underlying the creative act Taking issue with previous studies that have presented the novelist as an adherent of one or another of the particular schools of thought representative of his time the author demonstrates that Hawthorne's views were in fact eclectically formed and were a fusion of classical and romantic attitudes His intense preoccupation with the relationship between art and morality and the validation of imaginative insights are central elements Jacobson maintains in Hawthorne's theory of the creative process *A Historical Guide to Nathaniel Hawthorne* Larry J. Reynolds, 2001-07-19 Nathaniel Hawthorne remains one of the most widely read and taught of American authors This Historical Guide collects a number of original essays by Hawthorne scholars that place the author in historical context Like other volumes in the series *A Historical Guide to Nathaniel Hawthorne* includes an introduction a brief biography a bibliographical essay and an illustrated chronology of the author's life and times Combining cultural criticism with historical scholarship this volume addresses a wide range of topics relevant to Hawthorne's work including his relationship to slavery children mesmerism and the visual arts *The Cambridge Companion to Nathaniel Hawthorne* Richard H. Millington, 2004-09-23 The Cambridge Companion to Nathaniel Hawthorne offers students and teachers an introduction to Hawthorne's fiction and the lively debates that shape Hawthorne studies today In newly commissioned essays twelve eminent scholars of American literature introduce readers to key issues in Hawthorne scholarship and deepen our understanding of Hawthorne's writing Each of the major novels is treated in a separate chapter while other essays explore Hawthorne's art in relation to a stimulating array of issues and approaches The essays reveal how Hawthorne's work explores understandings of gender relations and sexuality of childhood and selfhood of politics and ethics of history and modernity An Introduction and a selected bibliography will help students and teachers understand how Hawthorne has been a crucial figure for each generation of readers of American literature **The Productive Tension of Hawthorne's Art** Claudia Durst Johnson, 1981 In both his short fiction and major works Nathaniel Hawthorne like many romantics is torn between the eighteenth century view of an orderly balanced static art and universe on the one hand and the nineteenth century conception of a changeful various art on the other Hawthorne based his social and psychological values on an organic view of the world but the world of his art tended to be mechanistic Johnson argues that Hawthorne found in theology the myths which became vehicles for his exploration of his art *The Half-vanished Structure* Magnus Ullén, 2004 This book takes issue with the tendency in twentieth century Hawthorne criticism to blur the distinction between symbolism and allegory Rejecting the long standing notion that Hawthorne is a symbolist in allegorical disguise Ullén argues that allegory is the key to understanding how religion sexuality aesthetics and politics are interwoven in Hawthorne's writings The study presents a model for allegorical interpretation of general applicability which is brought to bear on each of Hawthorne's

mature romances and on the oft neglected Wonder Books written for children An unparalleled analysis of the formal intricacies of Hawthorne's writings this book is an eloquent plea for the necessity of grounding ideological analysis in aesthetical considerations

Hawthorne's Histories, Hawthorne's World Michael J. Colacurcio, 2022-05-17 Hawthorne's Histories Hawthorne's World picks up Hawthorne where *The Province of Piety* left him extending the historical and theological reading there developed of the early Puritan and revolutionary tales Hawthorne wrote in birthplace Salem on to the contemporary tales sketches essays and finally four published romances based on his stays in Brook Farm Boston Concord Lenox Salem Liverpool and Rome A collection of essays rather than a single continuously argued monograph Hawthorne's Histories Hawthorne's World collects together the essays Professor Colacurcio has written on Hawthorne since the publication of his ground breaking *Province of Piety* elaborating and refining his analyses of how Hawthorne's most memorable early tales do history but proceeding then to explore the later productions of that author's distinguished career The result in Colacurcio's patient analysis is something like Hawthorne's history of his own times

Barlowe John Ronan and John F Birk A Chronology and revised and expanded Selected Bibliography Handbook of American Romanticism Philipp Löffler, Clemens Spahr, Jan Stievermann, 2021-07-05 The Handbook of American Romanticism presents a comprehensive survey of the various schools authors and works that constituted antebellum literature in the United States The volume is designed to feature a selection of representative case studies and to assess them within two complementary frameworks the most relevant historical political and institutional contexts of the antebellum decades and the consequent re appropriations of the Romantic period by academic literary criticism in the twentieth and early twenty first centuries

Henry James as a Biographer Willie Tolliver, 2014-02-04 This study of Henry James s biographies of Nathaniel Hawthorne and William Wetmore Story offers an argument that he deserves greater recognition for his contributions to the development of biography based on his implicit theory of biography found in his critical commentary and on these two complicated and ultimately artistically innovative performances in the genre Although James maintained an ambivalent relationship to the art of biography in his reviews criticism letters and fiction he wrote about biography from a core of aesthetic conviction that constitutes an informal poetics It is necessary thus to scrutinize the ways in which James s theoretical convictions particularly his insistence on artistic unity fail him when he writes two biographies himself Both Hawthorne 1879 and William Wetmore Story and His Friends 1903 fail to cohere in the way traditional biographies achieve unity Neither work has at its center a dynamic and fully dimensional apprehension of the biographical subject Instead James violates one of his own essential biographical tenets He usurps his subject and places himself at the center of what should be a narrative of his subject s life The results fall short of fully achieved biography but they do not fall short of literary interest In order to write these books according to his own genius James had to reinvent the form They are rife with innovations chief among them his great experimentation with narrative point of view here brought to bear on biography This concept and others survey the terrain for the important biographical practitioners and theorists who follow him For this reason a special place must be found for James in pantheon of experimental biographers

Sophia Peabody Hawthorne Patricia Dunlavy Valenti, 2004 Sophia Peabody Hawthorne is known almost exclusively in her role as the wife of Nathaniel Hawthorne who portrayed her as the fragile ethereal infirm Dove That image invented by Nathaniel to serve his needs and affirm his manhood was passed on by his biographers who accepted their subject s perception without question In fact the real Sophia was very different from Nathaniel s construction of her An independent sensuous daring woman Sophia was an accomplished artist before her marriage to Nathaniel Moreover what she brought to their union inspired Nathaniel s imagination beyond the limits of his previously confined existence In *Sophia Peabody Hawthorne* Patricia Dunlavy Valenti situates the story of Sophia s life within its own historical philosophical and cultural background as well as within the context of her marriage Valenti begins with parallel biographies that present

Sophia and then Nathaniel at comparable periods in their lives Sophia was born into an expansive somewhat chaotic home in which women provided financial as well as emotional sustenance She was a precocious eager student whose rigorous education in her mother's and her sisters' schools began her association with the children of New England's elite Sophia aspired to become a professional self-supporting painter exhibiting her art and seeking criticism from established mentors She relished an eighteen-month sojourn in Cuba Nathaniel's reclusive family his reluctant early education his anonymous pursuit of a career and his relatively circumscribed life contrast markedly with the experience of the woman who became his wife and the mother of his children Those differences resulted in a creative abrasion that ignited his fiction during the first years of their marriage Volume 1 of this biography concludes with Sophia's negotiation of the Hawthornes' departure from the Old Manse and the birth of their second child This period also coincides with the conclusion of Nathaniel's major phase of short story writing Sophia Peabody Hawthorne is an engrossing story of a nineteenth-century American life It analyzes influences upon authorship and questions the boundaries of intellectual property in the domestic sphere The book also offers fresh interpretations of Nathaniel Hawthorne's fiction examining it through the lens of Sophia's vibrant personality and diverse interests Students and scholars of American literature literary theory feminism and cultural history will find much to enrich their understanding of this woman and this era
