N. Hays,2009-10-15 In this sweeping approach to the history of disease the author a historian chronicles perceptions and responses to plague and pestilence over two thousand years of Western history He frames disease as a multidimensional construct situated at the intersection of history politics culture and medicine and rooted in mentalities and social relations as much as in biological conditions of pathology He shows how diseases affect social and political change reveal social tensions and are mediated both within and outside the realm of scientific medicine *Surprised by the Power of the Spirit* Zondervan,2010-08-10 What caused a former Dallas Seminary professor to believe that the miraculous gifts of the Holy Spirit are being given today What convinced someone skeptical about miracles that God still speaks and heals A dramatic change took place in Jack Deere s life when he took a fresh look at the Scriptures He discovered that his cherished arguments against miraculous gifts were based more on prejudice and a lack of personal experience than on the Bible As soon as Deere became a seeker instead of a skeptic

the Holy Spirit revealed himself in new and surprising ways In Surprised by the Power of the Spirit Jack Deere provides a strong biblical defense for the Spirit s speaking and healing ministries today He also describes several reliable cases of people who were miraculously healed or who heard God speak in an unmistakable way Finally he gives sound advice for using spiritual gifts in the church Written in popular style with the care of a scholar but the passion of personal experience this book is a vital resource for people on both sides of the debate about miraculous gifts

The Crisis of Evangelical Christianity Keith C. Sewell,2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orbbed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century

Spirit Wind Peter L. H. Tie,Justin T. T. Tan,2020-12-29 Spirit Wind a collaborative investigation into the works and person of the Holy Spirit clearly and richly demonstrates diversity in theological perspectives but unity in the Christian faith All theological discussions should aim at humbly respecting theological distinctiveness while sincerely encouraging theological conversations Spirit Wind offers itself to achieve just that Spirit Wind consists of nine chapters written by nine Chinese theologians born in the Orient and trained in the West who are now serving passionately as seminary professors in Australia Singapore Taiwan or the United States Each author endeavors to explain the person and works of the Holy Spirit not only from Chinese standpoints but also from biblical historical and cultural pastoral perspectives and yet all chapters are theological in nature No theologian claims to capture all matters about the Spirit but every author of this book is captivated by the powerful presence sovereign freedom and beautiful operations of the Holy Spirit You will be too

Evangelical and African Pentecostal Unity Hugh Osgood,2024-04-18 As the millennium approached the number of independent African Pentecostal churches in Britain increased rapidly Having assimilated classical Pentecostalism and the charismatic movement and having begun to find ways of working with the Caribbean Pentecostal denominations it remained

to be seen how UK evangelicalism would fare with African Pentecostals This book looks at the intricacies of the relationship at a time that provided ample opportunities to weigh the benefits and challenges of integration from every possible angle

TONGUES VOLUME 1: CONFUSED BY ECSTASY David A Swincer, 2013-12-21 The focus of this study is upon ecstasy as the confusing antecedent of Corinthian glossolalia Most commentators accept ecstasy as the most significant characteristic of the Corinthian Christian glossolalic phenomenon This assumption is questioned in this research because it needs to be clarified It is contended that ecstasy is the confusing element because it was characteristic of the contemporary Corinthian mystery religious practice and that that background was carried into the Corinthian church thus colouring Paul s treatment of the subject It is not to be seen as an essential element of glossolalia Most commentators agree that the glossolalic phenomenon in the Acts is different from that at Corinth What then is a valid charismatic glossolalia It is contended that the Acts draws attention to the only authentic cases and they are three of glossolalia in the Bible The book of First Corinthians gives a corrective to an abuse with no clear authentication of a gift Paul gives guidelines necessitated by the background of religious ecstasy Hence instead of proposing ground rules for a valid spiritual expression it becomes apparent that First Corinthians is giving a restrained corrective against an abuse of contemporary culture that masqueraded as an authentic Christian experience It is ecstasy that is the confusing element to this picture It should be added that the Acts experiences speak of valid one stage linguistic phenomena whilst the gift to the church in 1 Corinthians is clearly a two stage phenomenon Bergsma reflecting on the repetitious and almost daily insignificant sic revelations of modern glossolalists believes that they are misguided or presumptuous It is like the Himalayan Mountain in obstetrical labour and producing a mouse The preoccupation and emphasis is out of all proportion to the minimal benefits derived and indeed the mischief it generates The overall significance of the study is to provide a basis for authenticating a valid glossolalic expression and all this comes from the foundation of the test case in Corinth which in turn is dependent upon an understanding of ecstasy in the antecedent Mystery Religions of Corinthian contemporary society Dr Clifford Wilson himself a prolific author urged Whatever else happens you must publish the historic material there are

very few people who have any idea of the true background of glossolalia within their denominations
