subject to further critical analysis This is the same position as with any philosophical medical or scientific view The argument that decision making in medicine is inadequate unless grounded on a philosophy of medicine is not meant to include all of philosophy and every philosopher On the contrary it includes only sound practical and humanistic philosophy and philosophers who are creative and critical thinkers and who have concerned themselves with the topics relevant to medicine These would be those philosophers who engage in practical philosophy such as the pragmatists humanists naturalists and ordinary language philosophers A new definition of our own philosophy of life emerges and it is necessary to have one Good lifestyle no longer means just abstaining from cigarettes alcohol and getting exercise It also means living a holistic life which includes all of one s thinking personality and actions This book also includes new ways of thinking In this regard the Metaphorical Method is explained used and exemplified in depth for example in the chapters on care egoism and altruism letting die etc Medical and Health Care Books and Serials in Print ,1986 **Christian Theology and Medical Ethics**
