Health And Social Services Among International Labor Migrants A Comparative Perspective:

Health and Social Services Among International Labor Migrants Antonio Ugalde, Gilberto Cardenas, University of Texas at Austin. Center for Mexican American Studies, 1997 The contributors to this volume representing a wide variety of disciplines including medicine social work political science sociology anthropology psychology and biology are in agreement that the health and human services offered in industrial nations are generally monocultural and not well suited for migrants from other cultures One article even arrives at the disquieting conclusion that the mental health services offered to immigrants not only do not respond to their needs but rather serve to reinforce negative perceptions regarding immigrants from third world countries This book represents a timely and urgently needed contribution to the discourse on health services for migrants It demonstrates that the issues and problems of immigration in the United States and Europe have many commonalities and that much can be learned from examining the experiences successes and failures of both

International Migration Douglas S. Massey, J. Edward Taylor, 2004-03-25 International Migration Prospects and Policies offers a comprehensive up to date survey of global patterns of international migration and the policies employed to manage the flows It shows that international migration is not rooted in poverty or rapid population growth but in the expansion and consolidation of global markets As nations are structurally transformed by their incorporation into global markets people are displaced from traditional livelihoods and become international migrants In seeking to work abroad they do not necessarily move to the closest or richest destination but to places already connected to their countries of origin socially economically and politically When they move migrants rely heavily on social networks created by earlier waves of immigrants and in recent years professional migration brokers have become increasingly common Developing countries generally benefit from international migration because migrant savings and remittances provide foreign earnings to finance balance of payments deficits and make productive investments Some developing nations have gone so far as to establish programs or ministries dedicated to the export of workers Developed nations in contrast focus more on the social and economic costs of immigrants and seek to reduce their numbers regulate their characteristics and limit their access to social services Over time receiving nations have gravitated toward a similar set of restrictive policies yielding undocumented migration as a worldwide phenomenon Globalization also creates infrastructures of transportation communication and social networks to put developed societies within reach In the latter ageing populations and segmenting markets create a persistent demand for immigrant workers All these trends are likely to intensify in the coming years to make immigration policy a key political issue in the twenty first century

Inequalities in Health Care for Migrants and Ethnic Minorities David Ingleby, 2012 Vol 1 examines how much is known about migrant and ethnic minority health and where the barriers to scientific progress lie Vol 2 is concerned with the changes that are needed to improve the matching of health services to the needs of these groups

The Tracks North Barbara A. Driscoll, 1999 As part of a bilateral commitment to focus on winning

World War II over 100 000 contracts were signed between 1943 and 1945 to recruit and transport Mexican workers to the United States for employment on the railroads A little known companion to the widely criticized agricultural bracero program the railroad bracero program corresponded in its implementation more closely to the original intent of both governments than did its agricultural counterpart In spite of pressure from the railroad industry to continue the program indefinitely the U S government was adamant about terminating it on schedule and returning the workers to Mexico The railroad bracero program still stands as the only historical example of a binational migration agreement between the two countries that was executed and concluded in the spirit of the original negotiations The abuses commonly associated with the agricultural program were controlled in the railroad program by the organization of international committees wherein the Mexican government could and did force the U S government to be accountable for the plight of railroad braceros The Tracks North is the only book length study devoted to the railroad bracero program Barbara Driscoll examines the program and its place in the long history of U S Mexican relations In so doing she uses a wealth of materials seldom used by investigators of the bracero program and also provides a clearer picture of the internal workings of the bracero program in Mexico than any other study produced to date

Keywords of the Balkan Route Marijana Hameršak,Iva Pleše,Tea Škokić,2025-11-01 Shaped by the criminalization of migration and control over movement the Balkan Route has emerged as a key site of border violence and migrant resistance along the southeastern edges of the European Union Keywords of the Balkan Route explores the vocabularies structuring this regime by tracing the meanings overlaps and tensions of terms such as Autonomy Route Waiting Game and Solidarity Featuring contributors from Croatia Slovenia and Serbia the volume draws on ethnographic research and interdisciplinary approaches to examine restricted mobilities and border struggles through critically engaged perspectives and experimental analytical formats

Culturally Competent Practice with Immigrant and Refugee Children and Families Rowena Fong,2004-01-01 Meeting a crucial need for social workers and other practitioners as well as students this authoritative text covers the breadth of issues involved in working with immigrant and refugee children and families Within an innovative conceptual framework essential knowledge is presented to guide culturally competent practice with clients from over 14 immigrant groups whose numbers are growing in the United States today Expert authors review the history of each group s migration to the U S and discuss key issues facing families including cultural conflicts trauma associated with refugee experiences and or illegal status and the effects of poverty and discrimination Particular attention is given to ways that the practitioner can help families draw on culturally based resources for coping and resilience as they navigate the challenges of their new lives Throughout recommendations for strengths based assessment and intervention are brought to life in detailed case examples

American Immigration James Ciment,John Radzilowski,2015-03-17 Thoroughly revised and expanded this is the definitive reference on American immigration from both historic and contemporary perspectives It traces the scope and sweep of U S immigration from the earliest settlements to the present

providing a comprehensive multidisciplinary approach to all aspects of this critically important subject Every major immigrant group and every era in U S history are fully documented and examined through detailed analysis of social legal political economic and demographic factors Hot topic issues and controversies from Amnesty to the U S Mexican Border are covered in depth Archival and contemporary photographs and illustrations further illuminate the information provided And dozens of charts and tables provide valuable statistics and comparative data both historic and current A special feature of this edition is the inclusion of more than 80 full text primary documents from 1787 to 2013 laws and treaties referenda Supreme Court cases historical articles and letters *Women in Global Migration, 1945-2000* Eleanore O.

Hofstetter,2001-03-30 With large numbers of people migrating to other countries after World War II a substantial amount of scholarship has focused on the status problems and successes of women immigrants since 1945 The first comprehensive compilation of the international literature on these women this bibliography with over 5 100 entries reveals the breadth of scholarship on feminist immigration issues Focusing particularly on sources from North America and Western Europe where most immigrant women settled the book includes feminist analyses bibliographies demographic studies economic comparisons educational research health and medical reports legal discussions biographies and autobiographies psychological case studies religious reports sociological investigations and publications dealing with general aspects of female immigration The book covers such legal issues as citizenship international conventions on contract workers the traffic in women and services and government benefits to immigrants Medical entries include such topics as female genital mutilation comparative obstetric results and equity of treatment Education entries cover such subjects as adult education and the second language programs necessary for assimilation With entries in several languages the bibliography includes books journal articles essays and chapters in books dissertations ERIC reports national and international government documents and statistical sources With immigration a major political and social issue in most countries today the book provides an important research tool **Europe Since 1980** Ivan T. Migrant and Minority Patients in European Hospitals Alexander Bischoff,2006 Social changes in European societies place migration and cultural diversity on the European political agenda The European initiative Migrant Friendly Hospitals MFH aims to identify develop and evaluate models of effective interventions It has the following objectives To strengthen the role of hospitals in promoting the health of migrants and ethnic minorities in the European Union and to improve hospital services for these groups This report reviews models of effective intervention in the medical literature and provides the background information needed to enable partner hospitals taking part in the MFH initiative to select and implement suitable interventions The interventions reviewed in this study are grouped in four areas Communication Responsiveness Empowerment of migrant and minority patients and communities Monitoring of the health of migrants and minorities and the health care they receive Ed **Health Care and Immigration** Patricia Fernández-Kelly,Alejandro Portes,2013-10-31 This

pioneering volume represents the culmination of state of the art research whose purpose was to investigate the relationship between health care and immigration in the USA two broken systems in need of reform This volume sets out to answer the question how do medical institutions address the needs of individuals and families who are poor lacking English fluency and often devoid of legal documents The book provides an examination of the challenges faced by institutions aiming to serve impoverished people and communities desperately in need of help It represents a comprehensive portrayal of two institutional arrangements affecting the lives of millions on a daily basis Health Care and Immigration offers accounts of the alternative paths used by immigrants to bypass dominant health care organizations and regional variations in health care the evolution and character of health care legislation factors explaining the persistence of altruistic institutions in a market economy as well as the parts played by local legislation and social networks and changes resulting from migration that affect the health of immigrants This volume will be an invaluable resource for academics researchers and students as well as public officials addressing the health care needs of disadvantaged groups This book was originally published as a special issue of Ethnic and Racial Studies

Gender, Movement and Safety Jasmin Lilian Diab, 2019-02-18 This book looks into the sexual assault of irregular illegal immigrant women and girls throughout their arrival to the European Union borders and borderlands between the period of 2011 and 2018 through an Intersectional lens It intends to analyze this sensitive human rights issue through grasping the cultural obstacles and procedures at European borders which have fueled the violation of this fragile migrant group's human rights while also supporting this argument with academic research statistical data and reports on irregular migration from international and regional organizations security mechanisms at borders and statistics on sexual abuse and exploitation during the aforementioned period It intends to explore the manner in which several factors and developments at European borders and in the borderlands have resulted in a more dangerous migration journey for these women and girls as well as the manner in which these developments further perpetuate the likelihood of sexual violence of migrants and female migrants in particular This book aims to comprehend the linkages between academic research and the supporting statistical information through the lens of Intersectionality Theory a theory which will allow for the issue to be tackled across its different layers and across all the intersections and overlaps these layers create This book highlights multiple instances of sexual violence throughout the journey and upon arrival of these migrant women and girls to the European borders and borderlands and subsequently emphasizes that these events further perpetuate the vulnerability to sexual assault for irregular migrant women due to the very illegal nature of their journeys Through this lens this process is examined across power dynamics security legal status and gender Through examining these realities and power systems it becomes evident that this particularly vulnerable group of women and girls from developing countries escaping war economic burdens and conflict are ostracized and subordinated in a number of interconnected patterns This book highlights a need for more gender sensitive policies because the group of women in question has close to no viable resource for justice

Counseling and Therapy Uwe P. Gielen, Juris G. Draguns, Jefferson M. Fish, 2008-06-19 In an era of globalization characterized
 by widespread migration and cultural contacts psychologists counselors and other mental health professionals face a unique
 challenge how does one practice successfully when working with clients from so many different backgrounds Gielen Draguns
 and Fish argue that an understanding of the general principles of multicultural counseling is of great importance to all
 practitioners The lack of this knowledge can have several negative consequences during therapy including differences in
 expectations between counselor and client misdiagnosis of the client's concerns missed non verbal cues and the client feeling
 that she has been misunderstood This volume focuses on the general nature of cultural influences in counseling rather than
 on counseling specific ethnic groups Counseling practices from all over the world not just those of Western society are
 explored Bringing together the work of a diverse group of international experts the editors have compiled a volume that is
 not only concise and teachable but also an essential guidebook for all mental health professionals *Contextualizing Health*
