

The background is a light blue field filled with various white and red icons representing medical and scientific concepts. These include a DNA double helix, a microscope, a pill, a heart with an ECG line, a stethoscope, a syringe, a flask with red liquid, a molecular structure, a pair of glasses, a clock, and a speech bubble. The central text is contained within a large, rounded, teal-colored speech bubble.

## **Health And The Rhetoric Of Medicine:**

*Health and the Rhetoric of Medicine* Judy Z. Segal, 2008-06-30 Assessing rhetorical principles of contemporary health issues Hypochondriacs are vulnerable to media hype anorexics are susceptible to public scrutiny and migraine sufferers are tainted with the history of the migraine personality maintains rhetorical theorist Judy Z Segal All are influenced by the power of persuasion *Health and the Rhetoric of Medicine* explores persistent health conditions that resist conventional medical solutions Using a range of rhetorical principles Segal analyzes how patients and their illnesses are formed within the physician patient relationship The intractable problem of a patient's rejection of a doctor's advice says Segal can be considered a rhetorical failure a failure of persuasion Examining the discourse of medicine through case studies applications and analyses Segal illustrates how illnesses are described in ways that limit patients choices and satisfaction She also illuminates psychiatric conditions infectious diseases genetic testing and cosmetic surgeries through the lens of rhetorical theory *Health and the Rhetoric of Medicine* bridges critical analysis for scholarly professional and lay audiences Segal highlights the persuasive element in diagnosis health policy illness experience and illness narratives She also addresses questions of direct to consumer advertising of prescription drugs the role of health information in creating the worried well and problems of trust and expertise in physician patient relationships A useful resource for critical common sense in everyday life the text provides an effective examination of a society increasingly influenced by the rhetoric of health and medicine

**Rhetorical Questions of Health and Medicine** Joan Leach, Deborah Dysart-Gale, 2011 *Rhetorical Questions of Health and Medicine* illustrates how rhetorical theory and analysis contribute to our understanding of the ways in which pressing questions are posed debated and answered in the context of contemporary medicine

*Methodologies for the Rhetoric of Health & Medicine* Lisa Meloncon, J. Blake Scott, 2017-07-06 *Methodologies for the Rhetoric of Health Medicine* charts new methodological territories for rhetorical studies and the emerging field of the rhetoric of health and medicine It advances the larger goal of differentiating the rhetoric of health and medicine as a distinct but pragmatically diverse area of study

**Rhetorical Ethos in Health and Medicine** Cathryn Molloy, 2019-10-16 This book explores rhetorical ethos and its ongoing role in patients credibility and in misdiagnoses stemming from gender race and class based biases Drawing on the concept of ethos as a theoretical framework it explores health and mental illness across different conditions and across different methodological approaches Extending work on ethos in clinical encounters and public discourse about biomedicine and presenting new research on the rhetoric of mental health stigma and mental illness the book explores how bias in clinical settings can lead to symptoms labelled in the patient's head masking treatable medical problems This notable contribution to the rhetoric of health and medicine will be of interest to all researchers and graduate students of rhetoric and composition studies rhetoric of health and medicine disability studies medical humanities communication and psychology

*Rhetoric of Health and Medicine As/Is* Lisa Meloncon, S. Scott Graham, Jenell Johnson, Cynthia Ryan, John A. Lynch, 2020-09 Examines how

healthcare and medical issues circulate in the social cultural economic and political aspects of our world      The Rhetoric of Medicine Nigel James Nicholson, Nathan R. Selden, 2019 The Rhetoric of Medicine explores problems that confront medical professionals today by first examining similar problems that confronted physicians in ancient Greece This framework provides illuminating entry points into challenges faced by the practice of medicine enabling readers to understand more clearly their shape and operation in the modern context as well as their possible solutions Topics covered include larger cultural ideas about the body tension between professional values and working for money effective collaboration and competition with alternative healthcare providers restrictions on political involvement that are part of a physician's identity maintaining a space for professional autonomy and judgment mentoring that is effective but not exclusive and physicians' recognition of themselves as patients as well as professionals A unique collaboration between a classicist and a neurosurgeon The Rhetoric of Medicine is a call to interrogate the narratives and ideas that shape medical care and to revise and replace those that do not serve patient health      *Rhetoric of Healthcare* Barbara Heiffler, Stuart Cameron Brown, 2008 Initiates inquiry into the role of rhetoric in various healthcare and medical discourses and examines what rhetoric as a discipline in its right can contribute to This volume brings rhetorical inquiry to the fields of medicine health and disease as well as the discursive and writing modes within and about them      **The Rhetoric of Medicine** Dr Nigel Nicholson, Dr Nathan Selden, 2019-04-16 The Rhetoric of Medicine explores problems that confront medical professionals today by first examining similar problems that confronted physicians in ancient Greece This framework provides illuminating entry points into challenges faced by the practice of medicine enabling readers to understand more clearly their shape and operation in the modern context as well as possible solutions to these problems This text represents a unique collaboration between a classicist and a neurosurgeon and is a call to interrogate the narratives and ideas that shape medical care and to revise and replace those that do not serve patient health      Encyclopedia of Science and Technology Communication Susanna Hornig Priest, 2010-07-14 The explosion of scientific information is exacerbating the information gap between richer poorer educated less educated publics The proliferation of media technology and the popularity of the Internet help some keep up with these developments but also make it more likely others fall further behind This is taking place in a globalizing economy and society that further complicates the division between information haves and have nots and compounds the challenge of communicating about emerging science and technology to increasingly diverse audiences Journalism about science and technology must fill this gap yet journalists and journalism students themselves struggle to keep abreast of contemporary scientific developments Scientist aided by public relations and public information professionals must get their stories out not only to other scientists but also to broader public audiences Funding agencies increasingly expect their grantees to engage in outreach and education and such activity can be seen as both a survival strategy and an ethical imperative for taxpayer supported university based research Science communication often in new forms must expand to meet all these needs

Providing a comprehensive introduction to students professionals and scholars in this area is a unique challenge because practitioners in these fields must grasp both the principles of science and the principles of science communication while understanding the social contexts of each For this reason science journalism and science communication are often addressed only in advanced undergraduate or graduate specialty courses rather than covered exhaustively in lower division courses Even so those entering the field rarely will have a comprehensive background in both science and communication studies This circumstance underscores the importance of compiling useful reference materials The Encyclopedia of Science and Technology Communication presents resources and strategies for science communicators including theoretical material and background on recent controversies and key institutional actors and sources Science communicators need to understand more than how to interpret scientific facts and conclusions they need to understand basic elements of the politics sociology and philosophy of science as well as relevant media and communication theory principles of risk communication new trends and how to evaluate the effectiveness of science communication programmes to mention just a few of the major challenges This work will help to develop and enhance such understanding as it addresses these challenges and more Topics covered include advocacy policy and research organizations environmental and health communication philosophy of science media theory and science communication informal science education science journalism as a profession risk communication theory public understanding of science pseudo science in the news special problems in reporting science and technology science communication ethics

**Rhetoric, Medicine, and the Woman Writer, 1600-1700** Lyn Bennett, 2018-02-08 How did physicians come to dominate the medical profession Lyn Bennett challenges the seemingly self evident belief that scientific competence accounts for physicians dominance Instead she argues that the whole enterprise of learned medicine was in large measure facilitated by an intensely classical education that included extensive training in rhetoric and that this rhetorical training is ultimately responsible for the achievement of professional dominance Bennett examines previously unexplored connections among writers and genres as well as competing livelihoods and classes Engaging the histories of rhetoric medicine literature and culture throughout she goes on to focus specifically on the work of women who professed as well as practiced medicine Pointing to some of the ways women s writing shapes realities of body mind and spirit as it negotiates social cultural and professional ideologies of gender this book offers an important corrective to some long held beliefs about women s role in early modern discourse

Analysing Health Care Organizations Ewan Ferlie, 2016-03-02 Analysing Health Care Organizations seeks to link the world of health policy and management with the academic field of organization studies in a novel and additive way It outlines the main developments in UK health care management apparent over the last thirty years and explores how they might be re seen with the application of some important organizational theories and perspectives This book draws out contemporary and enduring themes from current literature on health care organization and considers them from a range of theoretical perspectives Drawing on robust areas of research and some key

academics who contribute to work in this field it is a book relevant both to experts in the field and to those seeking to develop an understanding of health care organization from a theoretical perspective *Analysing Health Care Organizations* provides a state of the art introduction foundation for subsequent works that will extend its content providing a broad introductory overview of this theoretical terrain and setting the scene for further research *Strategic Interventions in Mental Health Rhetoric* Lisa Melonçon, Cathryn Molloy, 2022-02-06 Offering rhetorically informed strategic interventions this innovative collection moves beyond critiques of mental health issues problems and care With sections that focus on methodological cultural and legal and pedagogical interventions readers will find an engaging discussion of a discrete mental health phenomenon as well as a clear interventional takeaway in each chapter Contributors make use of critical discourse analyses ethnographic inquiries autoethnographic inquiries case studies and textual analyses to engage such mental health research topics as postpartum depression among Chinese mothers insanity pleas anosognosia issues of intimacy access and embodiment in research projects community support groups Black mental health women in Alcoholics Anonymous and mental health in faculty workshops and university online health tools The authors and editors create scholarship on mental health that explicitly builds productive methodological theoretical and practical bridges among scholars and teachers in the various specialties of writing and communication This collection will interest scholars students and practitioners in health and medical humanities rhetoric of health and medicine health communication medical anthropology scientific and technical communication disability studies and rhetorical studies generally *Natural* Alan Levinovitz, 2020-04-07 Illuminates the far reaching harms of believing that natural means good from misinformation about health choices to justifications for sexism racism and flawed economic policies People love what s natural it s the best way to eat the best way to parent even the best way to act naturally just as nature intended Appeals to the wisdom of nature are among the most powerful arguments in the history of human thought Yet Nature with a capital N and natural goodness are not objective or scientific In this groundbreaking book scholar of religion Alan Levinovitz demonstrates that these beliefs are actually religious and highlights the many dangers of substituting simple myths for complicated realities It may not seem like a problem when it comes to paying a premium for organic food But what about condemnations of unnatural sexual activity The guilt that attends not having a natural birth Economic deregulation justified by the inherent goodness of natural markets In *Natural* readers embark on an epic journey from Peruvian rainforests to the backcountry in Yellowstone Park from a natural bodybuilding competition to a natural cancer curing clinic The result is an essential new perspective that shatters faith in Nature s goodness and points to a better alternative We can love nature without worshipping it and we can work toward a better world with humility and dialogue rather than taboos and zealotry *The Oxford Handbook of Health Care Management* Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016 The Oxford Handbook of Healthcare Management offers a variety of current scholarly perspectives which explore important policy developments in health care management on an

international basis      **The Palgrave Handbook of Social Theory in Health, Illness and Medicine** F. Collyer, 2015-02-12 This wide reaching handbook offers a new perspective on the sociology of health illness and medicine by stressing the importance of social theory Examining a range of classic and contemporary female and male theorists from across the globe it explores various issues including chronic illness counselling and the rising problems of obesity      **Food Marketing and Selling Healthy Lifestyles with Science** Lauren Alex O'Hagan, Göran Eriksson, 2024-09-17 This book sets out to historicise our understanding of contemporary trends by studying the long relationship between science food and drink marketing and the promotion of healthy lifestyles It aims to bring together contemporary and historical research from a multimodal perspective considering how scientific discourse and ideas about health and nutrition are channelled through visual and material culture Using examples of advertisements commercials and posters the 16 chapters in this book will foster a cross disciplinary and cross temporal dialogue uncovering links between past and present ways that manufacturers have capitalised upon scientific innovations to create new products or rebrand existing products and employed science to make claims about health and nutrition They will thus demonstrate the continuity of science in food and drink marketing even if fundamental ideas of nutrition have evolved over time The book provides crucial new insights into the significance of the late nineteenth and early twentieth centuries as a period of innovation in food and drink marketing and showcasing how many of the marketing strategies employed today in fact have a far broader historical trajectory It will be of great interest to students and scholars of Critical Food Studies Media and Communication Studies History of Science and Medicine and Cultural Studies as well as nutritionists dieticians sportspeople in addition to policymakers and practitioners working in the area of food and drink marketing      *Blood Cultures: Medicine, Media, and Militarisms* Cathy Hannabach, 2016-01-12 Offering a cultural history of blood as it was mobilized across twentieth century U S medicine militarisms and popular culture Hannabach examines the ways that blood has saturated the cultural imaginary      **Patients Making Meaning** Bryna Siegel Finer, Cathryn Molloy, Jamie White-Farnham, 2023-09-20 This book explores how women make meaning at various health flashpoints in their lives overcoming fear anxiety and anger to draw upon self advocacy research and crucial decision making Combining focus group research content analysis autoethnography and textual inquiry the book argues that the making and remaking of what we call patient epistemologies is a continual process wherein a health flashpoint sometimes a new diagnosis sometimes a reoccurrence or worsening of an existing condition or the progression of a natural process can cause an individual to be thrust into a discourse community that was not of their own choosing This study will interest students and scholars of health communication rhetoric of health and medicine women s studies public health healthcare policy philosophy of medicine medical sociology and medical humanities      *Advances in Health Psychology* Christine Horrocks, Sally Johnson, 2017-09-16 Why did critical health psychology emerge How have categories of social class and gender impacted on social identities Where can health policy go from here and how will health psychology inform its development With

contributions from leading experts in the field this book deepens our understanding of health psychology at a time where traditional approaches are being rethought Covering contemporary issues and with a focus on both mainstream and non traditional areas including material on social identities and social class gender and leadership in the NHS the book provides cutting edge coverage of theory and research Crucially the book considers how theory impacts on practice and how health psychology can ignite change in health policy Covering important issues with clear and fresh insight this is indispensable reading for students researchers and practitioners of health psychology health studies and public health     *Amplifying Voices in UX* Amber Lancaster,Carie S. T. King,2024-03-01 The field of technical and professional communication is young and research related to it and specifically usability is constantly growing Usability and user experience researchers are broadening research into studies involving social issues accessibility reconciliation and user advocacy *Amplifying Voices in UX* explores the theme of balance in design and UX in three main areas curriculum design that includes empathy service learning and design justice design and balance for effective medical and health communication and design to create balance in labor social civic and political movements
