## **Health As Liberation Medicine Theology And Th Quest For Justice:**

**Health as Liberation** Alastair V. Campbell, 2005-07-22 Deftly quilting themes of Latin American and feminist liberation theologies with those of philosophers such as Immanuel Kant and John Rawls Alastair V Campbell displays our rich interconnectedness and our moral responsibilities to one another Suggesting that many American citizens are oppressed by our current health care system he contends that prior to questions of health care allocation are questions of what we mean as a society by the term health and how that term is inextricably linked to personal and social freedom and liberation In the forceful final chapter of the book Campbell articulates ethical standards for just health care delivery in the United States standards that above all take account of deep religious faith and concern for one s neighbor Health as Liberation is a critical analysis of justice and modern health care and of a society s moral obligations to its citizens **The Journey into God**

Kenneth L. Bakken, 2015-06-10 The Journey into God challenges the adequacy of the biomedical model alone in addressing the symptoms and causes of physical and mental illness While allowing that the biomedical has its place in the treatment of disease Dr Kenneth Bakken argues persuasively that there are untapped resources for health and wholeness in Christian faith and practice He invites the reader into the way of theosis the transformation of the person in union with the divine Opening the mystic heart of Christianity The Journey into God gives individual Christians and the Christian communities of faith a trusty map for traversing the shifting spiritual terrain of health and wholeness issues in the twenty first century

**Mental Health Systems Compared** R. Paul Olson, 2006 The primary objective of this book is to provide comprehensive descriptions and make comparative evaluations of each of the mental health systems of four Western industrialized countries The countries selected illustrate a continuum from a highly centralized and publicly financed national health service in Great Britain to a predominantly decentralized and more privately financed market of mental health services in the United States In between these two contrasting types are examples of national health services and insurance programs in Norway and Canada Contributing experts from each country begin their chapters with an overview of the geographic demographic political economic and cultural contexts in which their mental health systems are situated Thereafter they a present national data to estimate the need for mental health services b describe national mental health policies and programs designed to meet their population s need c indicate how mental health services are organized and delivered and d discuss how their system is financed and provided resources A common chapter outline facilitates comparisons among all four systems on relevant evaluation criteria a access and equity b quality and efficacy c cost and efficiency d financing and fairness e protection and participation and f population relevance In the final section of each chapter the authors provide recommendations for improved performance of their mental health system In the initial chapter the editor provides an overview introduces the four countries selected and defines the evaluation criteria applied by all contributing authors The final two chapters address convergence and divergence among the four systems and provide recommendations for improvement and for future

comparative studies The intended audience includes mental health policymakers program administrators and managers teachers of graduate level courses relat **Minding the Spirit** Elizabeth A. *Spirits of Protestantism* Pamela E. Klassen, 2011-06-25 Klassen s book is much more than a first rate study of how two churches in Canada positioned themselves within the ostensibly parallel worlds of biomedicine and spiritual healing It is at its core an insightful meditation on the relationship between liberal Protestantism and the project of modernity A must read not only for students of Christianity but all those interested in the legacies of secularism and enchantment Matthew Engelke London School of Economics Globalization and Health Belinda Bennett, George F. Tomossy, 2006-06-21 Within contemporary society globalization has emerged as a key concern at the centre of ethical legal and policy debates relating to health care Conflicts between public interests and individual rights the challenge of regulating health professionals and access to health services and the effects of a global market all feature prominently in these discussions As a result of globalization these issues can no longer be understood solely within the political boundaries that define traditional notions of individuals and communities Rather solutions demand a global conception of rights and obligations which in turn requires new approaches to health policy formulation and a reevaluation of existing ethical and legal frameworks In essence the impact of globalization on human health is testing the robustness of modern regulatory systems legal doctrines and ethical

paradigms PUBLIC HEALTH DEVELOPING GLOBAL CONCERNS The interconnectedness of the global economy presents new challenges in public health While globalization has facilitated improvements in health care it has also created new hazards and avenues for the exploitation of vulnerable persons It is becoming increasingly apparent that both national and international responses are required Indeed as the chapters in this section convey public health is rightly a global concern Globalization has led to a sharing of both risks and responsibilities in public health Belinda Bennett reminds us of the ease with which infectious diseases can spread within the global community given the speed of modern travel and trade

Coercion as Cure Frank Villafana, 2017-07-12 Understanding the history of psychiatry requires an accurate view of its function and purpose In this provocative new study Szasz challenges conventional beliefs about psychiatry He asserts that in fact psychiatrists are not concerned with the diagnosis and treatment of bona fide illnesses Psychiatric tradition social expectation and the law make it clear that coercion is the profession's determining characteristic Psychiatrists may diagnose or treat people without their consent or even against their clearly expressed wishes and these involuntary psychiatric interventions are as different as are sexual relations between consenting adults and the sexual violence we call rape But the point is not merely the difference between coerced and consensual psychiatry but to contrast them The term psychiatry ought to be applied to one or the other but not both As long as psychiatrists and society refuse to recognize this there can be no real psychiatric historiography The coercive character of psychiatry was more apparent in the past than it is now Then insanity was synonymous with unfitness for liberty Toward the end of the nineteenth century a new type of psychiatric relationship developed when people experiencing so called nervous symptoms sought help This led to a distinction between two kinds of mental diseases neuroses and psychoses Persons who complained about their own behavior were classified as neurotic whereas persons about whose behavior others complained were classified as psychotic The legal medical psychiatric and social denial of this simple distinction and its far reaching implications undergirds the house of cards that is modern psychiatry *Coercion as Cure* is the most important book by Szasz since his landmark *The Myth of Mental Illness*

*Ethics and Economics of Assisted Reproduction* Maura A. Ryan,2003-06-11 For those who undergo it infertility treatment is costly time consuming invasive and emotionally and physically arduous yet technology remains the

focus of most public discussion of the topic Drawing on concepts from medical ethics feminist theory and Roman Catholic social teaching Maura A Ryan analyzes the economic ethical theological and political dimensions of assisted reproduction Taking seriously the experience of infertility as a crisis of the self the spirit and the body Ryan argues for the place of reproductive technologies within a temperate affordable sustainable and just health care system She contends that only by ceasing to treat assisted reproduction as a consumer product can meaningful questions about medical appropriateness and social responsibility be raised She places infertility treatments within broader commitments to the common good thereby understanding reproductive rights as an inherently social rather than individual issue Arguing for some limits on access to reproductive technology Ryan considers ways to assess the importance of assisted reproduction against other social and medical prerogatives and where to draw the line in promoting fertility Finally Ryan articulates the need for a compassionate spirituality within faith communities that will nurture those who are infertile *Christian Justice and Public Policy* Duncan B. Forrester, 1997-08-28 Disagreements about justice are not simply academic matters They create problems for practice and for policy making In a morally fragmented society in which nobody knows what justice is issues such as wages policy punishment and poverty become particularly difficult to handle People striving to act justly are often uncertain how this might be done Secular theories such as those of Rawls Hayek Habermas and modern feminist theorists examined here give some guidance for problems of justice that arise on the ground but have serious limitations This book argues that Christian theology although it can no longer claim to provide a comprehensive theory of justice can provide insights into justice theological fragments which give illumination challenge some aspects of the conventional wisdom and contribute to the building of just communities in which people may flourish in mutuality and hope
