

EARLY CHILDHOOD DEVELOPMENT MILESTONES

The first four years of a child's life are the most important period of development physically, emotionally, cognitively, socially and morally. This is a guide to what you might expect in their first four years – often called developmental 'milestones'.

NOTE

EVERY CHILD DEVELOPS DIFFERENTLY

3 Months

- Turns head toward direction of sound
- Recognizes familiar faces and smiles back
- Follows moving objects
- Watches faces with interest
- Raises head and chest while lying on stomach
- Brings hand to mouth
- Takes swipes at dangling object with hands
- Begins to babble and imitate some sounds

6 Months

- Responds to other people's emotions
- Enjoys social plays/games (especially peek-a-boo)
- Struggles for out of reach objects (uses voice to express pleasure and displeasure)
- Interested in mirror images
- Responds to their own name
- Babbles chain of sounds (rolls both ways (front to back, back to front))
- Sits with, and then without support on hands

1 Year

- Pulls up to stand, Walks holding onto furniture
- Tries to imitate during play (like winking when you wink or clapping when you clap)
- Explores objects; finds hidden objects and begins to use objects correctly (drinking from cup, brushing hair, dialing phone, listening to receiver)
- Uses simple gestures like shaking head to say 'NO' or waving to say 'BYE BYE'
- May speak single words like 'Mama' and 'Dada'
- Cries when Mother or Father leaves
- Babbles with inflection (changes in tone)
- Uses exclamations, such as 'oh - oh'
- Pokes index finger

2 Years

- Excited about the company of other children
- Begins to sort by shape and color; starts simple make-believe play
- Follows simple instructions; recognizes names of familiar people
- Walks without help; plays pretend (like talking on a toy phone)
- Points out at the objects, when you name it (like toy or photo)
- Imitates behavior of others, especially adults and older children
- Uses 2-4 word sentences
- Repeats word overheard in conversation
- Pulls toys behind him/her while walking

3 Years

- Imitates adults and playmates
- Shows affection for playmates/friends
- Sorts objects by shape and color; and matches objects to pictures
- Plays make-believe with dolls, animals and people (like feeding a doll)
- Uses pronouns (I, you, me) and sometimes plurals (too many, dogs)
- Uses simple phrases or mini sentences to communicate with others
- Understands concept of 'mine' and 'his/hers'
- Expresses wide range of emotions
- Walks up and down stairs, alternating feet (one foot per stair step)
- Runs easily and pedals tricycle
- Starts to make friends

4 Years

- Follows three-step commands (like wash your hands, comb your hair)
- Draws circles and squares
- Speaks in sentences of 3-4 words; Speaks clear enough for outsiders to understand
- Names some colors; understands counting
- Shares and take turns with other children
- Knows the difference between boys and girls
- Enjoys humor (like laugh at silly faces or voices)
- Brushes his/her teeth by self
- Dresses and undresses without help except for shoelaces
- Pretends by role playing
- Knows opposite (hot/cold, big/small)

Geographies of Health and Development Assoc Prof Isaac Luginaah, Assoc Prof Rachel Bezner Kerr, 2015-03-28 This book begins by exploring some of the circumstances surrounding the distinctive health inequities currently facing many developing countries including malaria maternal mortality and HIV AIDS This is followed by a discussion of how matters of physical access and human resource issues and perhaps most importantly the challenges of financing together shape the access and utilization of health care Examining how the environment interacts to influence the health of the people that live there the next section includes discussion around challenges of food in security and the importance of clean and uncontaminated water for health Finally the book explores the influence of globalization on health specifically within the urban environment against the backdrop of global health policy

Christianity's Role in United States Global Health and Development Policy John Blevins, 2018-07-06 In recent years the role of religion in influencing international health policy and health services provision has been seen as increasingly important This book provides a social history of the relationship between religion and America's international

health policy and practice from the latter 19th century to the present The book demonstrates that the fields of religion and public health have distinct moral frameworks each with their own rationales assumptions and motivations While these two frameworks share significant synergies substantial tensions also exist which are negotiated in political contexts The book traces the origins of religion s influence on public health to the Progressive Era in the latter half of the 19th century examines tensions that arose in the first half of the 20th century describes the divorce between religion and international health from the 1940s through the 1980s identifies the sources of the renewed interest in the relationship between religion and international health and anticipates the future contours of religion and international health in light of contemporary political and economic forces While the influence of religion on international health practice and policy in the United States serves as the focus of the book the effects of US policies on international health policies in general are also explored in depth especially in the book s later chapters This ambitious study of religion s social history in the United States over the last 150 years will be of interest to researchers in global health politics religion and development studies

Religion in Global Health and Development Benjamin Bronnert Walker,2022-04-20 The COVID 19 pandemic has made evident that the field of global health its practices norms and failures has the power to shape the lives of billions Global health perspectives on the role of religion however are strikingly limited Uncovering the points where religion and global health have connected across the twentieth century focusing on Ghana provides an opportunity to challenge narrow approaches In Religion in Global Health and Development Benjamin Walker shows that the religious features of colonial state architecture were still operating by the turn of the twenty first century Walker surveys the establishment of colonial development projects in the twentieth century with a focus on the period between 1940 and 1990 Crossing the colonial postcolonial divide analyzing local contexts in conjunction with the many layers of international organizations and identifying surprisingly neglected streams of personnel and funding particularly from Dutch and West German Catholics this in depth history offers new ways of conceptualizing global health Patchworks of international humanitarian intervention fragmented government services local communities and the actions of many foreign powers combined to create health services and the state in Ghana Religion in Global Health and Development shows that religion and religious actors were critical to this process socially culturally and politically
