Hawker Tempest II Pilots Notes:

Hawker Typhoon And Tempest Philip Birtles, 2018-11-10 With the technology of the Hurricane being at the end of the biplane combat aircraft era there was an urgent requirement for a modern fighter with a capability ahead of the anticipated German fighter development for the Luftwaffe The Hawker design team lead by Sydney Camm created the all metal stressed skin structure Typhoon powered by the revolutionary Napier Sabre engine Whereas the Hurricane had been developed in peacetime the Typhoon was designed in wartime when the urgency of the programme caused the development of both the airframe and engine to be accelerated resulting in teething troubles not being fully solved when the aircraft entered service with the RAF The much improved Tempest used the same engine and basic fuselage with thinner lamina flow wings giving improved performance at altitude and allowing the destruction of the V1s at low altitude Both aircraft made a significant impact on the victory by the Allies in WW2 although their low level ground attack missions were extremely hazardous and resulted in high pilot losses

Hawker Typhoon, Tempest and Sea Fury Kev Darling, 2003 This well researched and readable book tells the full story of these important aircraft *Tempest Squadrons of the RAF* Chris Thomas, 2016-11-17 Hawker's charismatic Tempest V entered RAF service just in time to be the most successful counter to the V1 flying bomb assault on southern England in the summer of 1944 With more than 800 of the robot missiles to its credit Tempest V units then crossed the Channel to lock horns with the best the Luftwaffe had to offer Fw 190D 9s Ta 152s Me 262s and Bf 109G Ks achieving an impressive kill loss ratio in aerial combat With incredibly detailed aircraft profiles and exciting combat reports this title covers the full history of Tempest squadrons from their initial design and combat experience in World War 2 through to their post war role and the eventual decline of this iconic British fighter

From the Spitfire Cockpit to the Cabinet Office J. F. Langer, 2016-08-31 Air Commodore John Langer's career has been eventful to say the least During the Second World War he flew gliders in India in preparation for airborne assaults in Burma one of the most perilous landscapes to pass across during this time Post war he served on a fighter squadron in Germany and in Malaya where he was recommended for an AFC Later on he commanded No 43 F Squadron the famous Fighting Cocks and was awarded the AFC As a Group Captain he commanded RAF Valley and was awarded the CBE He ended his RAF career as director of Flying Training where he set up the first team of the Red Arrows By career's end he had flown fifty six different types of aircraft On leaving the RAF he became the Civil Aviation Security Adviser to the UK Government serving for eight years as a Crown Servant and a further seven years as a consultant He was a frequent advisor to the Cabinet Office Briefing Room A Cobra consulting with members of the cabinet on national and international aviation matters in the wake of a series of security and terrorist emergencies In 1993 he was appointed Duty Lieutenant for Greater London with responsibilities for the borough of Hillingdon location of both Heathrow and Northolt airport He looked after members of the Royal Family in their departures from these airports and became a good friend of Princess Diana chaperoning her on a number of solo outings Interesting details relating to some of

their exchanges are included here This is a unique autobiography taking in a vast spectrum of events and experiences It is also an important record of political aviation and social history and should appeal to enthusiasts of all these areas of interest

capability during World War II The long nosed Dora 9 designed by Kurt Tank first appeared in the skies over the Western and Eastern Fronts in the late summer of 1944 Fast and with an exceptional rate of climb it quickly bettered almost every fighter that the RAF USAAF and Soviet Red Air Force could field The Hawker Tempest V entered service in early 1944 initially proving itself a stalwart performer when it was deployed to intercept V1 flying bombs over southern England From the autumn of 1944 the Tempest V also equipped squadrons of the 2nd Tactical Air Force operating in support of the Allied armies advancing across north west Europe It became a potent ground attack aircraft armed with underwing rockets but also a first class interceptor when pitted against the Luftwaffe s advanced Fw 190D 9 and Me 262 Featuring full colour artwork this book describes in fascinating detail combats between the Tempest Vs of No 274 Sqn and the Fw 190D 9s of I and III JG 26 between February and April 1945
