Headless History:

History's Peru Mark Thurner, 2011-02-13 Mark Thurner here offers a brilliant account of Peruvian historiography one that makes a pioneering contribution not only to Latin American studies but also to the history of historical thought at large He traces the contributions of key historians of Peru from the colonial period through the present and teases out the theoretical underpinnings of their approaches He demonstrates how Peruvian historical thought critiques both European history and Anglophone postcolonial theory And his deeply informed readings of Peru's most influential historians from Inca Garcilaso de la Vega to Jorge Basadre are among the most subtle and powerful available in English On the Future of History Ernst Breisach, 2007-11-01

What does postmodernism mean for the future of history Can one still write history in postmodernity To answer questions such as these Ernst Breisach provides the first comprehensive overview of postmodernism and its complex relationship to history and historiography Placing postmodern theories in their intellectual and historical contexts he shows how they are part of broad developments in Western culture Breisach sees postmodernism as neither just a fad nor a universal remedy In clear and concise language he presents and critically evaluates the major views on history held by influential postmodernists such as Derrida Foucault Lyotard and the new narrativists Along the way he introduces to the reader major debates among historians over postmodern theories of evidence objectivity meaning and order truth and the usefulness of history He also discusses new types of history that have emerged as a consequence of postmodernism including cultural history microhistory and new historicism For anyone concerned with the postmodern challenge to history both advocates and critics alike On the Future of History will be a welcome guide A New Philosophy of History Frank Ankersmit, Hans Kellner, 2013-06-01

What is history From Thucydides to Toynbee historians and nonhistorians alike have wondered how to answer this question A New Philosophy of History reflects on developments over the last two decades in historical writing not least the renewed interest in the status of narrative itself and the presence of the authorial voice Subjects include the problems of Grand Narrative multiple voices and the personal presence of the historian in his text the ambitions of the French Annales school and the so called Grand Chronicler and the relevance of non literary models museum presentations and picturings regarding historical discourse The range of approaches found in A New Philosophy of History ensures that this book will establish itself as required reading not only for historians but for everyone interested in literary theory philosophy or cultural studies This volume presents essays by Hans Kellner Nancy F Partner Richard T Vann Arthur C Danto Linda Orr Philippe Carrard Ann Rigney Allan Megill Robert Berkhofer Stephen Bann and Frank Ankersmit **Historiography between Modernism and Postmodernism**, 2021-11-15 *History of the County Longford* James P. Farrell, 1891 *Nationalizing the Past* S. Berger, C. Lorenz, 2016-01-19 Historians traditionally claim to be myth breakers but national history since the nineteenth century shows quite a record in myth making This exciting new volume compares how national historians in Europe have handled the opposing pulls of fact and fiction and shows which

narrative strategies have contributed to the success of national histories

Revolution and the Historical Novel John McWilliams, 2017-12-15 John McWilliams has written the first much needed account of the ways the promise and threat of political revolution have informed masterpieces of the historical novel The jolting sense of historical change caused by the French Revolution led to an immense readership for a new kind of fiction centered on revolution counter revolution and warfare which soon came to be called the historical novel During the turbulent wake of The Declaration of the Rights of Man promptly followed by the phenomenon of Napoleon Bonaparte the historical novel thus served as a literary hybrid in the most positive sense of that often dismissive term It enabled readers to project personal hopes and anxieties about revolutionary change back into national history While immersed in the fictive lives of genteel often privileged heroes readers could measure their own political convictions against the wavering loyalties of their counterparts in a previous but still familiar time McWilliams provides close readings of some twenty historical novels from Scott and Cooper through Tolstoy Zola and Hugo to Pasternak and Lampedusa and ultimately to Marquez and Hilary Mantel but with continuing regard to historical contexts past and present He traces the transformation of the literary conventions established by Scott's Waverley novels showing both the continuities and the changes needed to meet contemporary times and perspectives Although the progressive hopes imbedded in Scott's narrative form proved no longer adaptable to twentieth century carnage and the rise of totalitarianism the meaning of any single novel emerges through comparison to the tradition of its predecessors A foreword and epilogue explore the indebtedness of McWilliams's perspective to the Marxist scholarly tradition of Georg Lukacs and Frederic Jameson while defining his differences from them This is a scholarly work of no small ambition and achievement

Walter Pater's European Imagination Lene Østermark-Johansen, 2022 This is the first monograph that explores the work and legacy of Walter Pater from a European perspective It offers an in depth analysis of Pater's fictional imaginary portraits which trace the development of the European self over an extensive period of some two thousand years

Conjectures of Order Michael O'Brien, 2004-03-01 In this magisterial history of intellectual life Michael O'Brien analyzes the lives and works of antebellum Southern thinkers and reintegrates the South into the larger tradition of American and European intellectual history O'Brien finds that the evolution of Southern intellectual life paralleled and modified developments across the Atlantic by moving from a late Enlightenment sensibility to Romanticism and lastly to an early form of realism Volume 1 describes the social underpinnings of the Southern intellect by examining patterns of travel and migration the formation of ideas on race gender ethnicity locality and class and the structures of discourse expressed in manuscripts and print culture In Volume 2 O'Brien looks at the genres that became characteristic of Southern thought Throughout he pays careful attention to the many individuals who fashioned the Southern mind including John C Calhoun Louisa McCord James Henley Thornwell and George Fitzhugh Placing the South in the larger tradition of American and European intellectual history while recovering the contributions of numerous influential thinkers and writers O'Brien's

masterwork demonstrates the sophistication and complexity of Southern intellectual life before 1860 *Tocqueville Unveiled* Robert T. Gannett, 2003-09-15 Drawing on his unprecedented access to Tocqueville's papers Robert T. Gannett Jr reveals the ingenuity of Tocqueville's analyses of issues such as landownership administrative centralization and public opinion in pre-revolutionary France

The ^ADemocratic Sublime Jason Frank, 2021-03-15 The Democratic Sublime offers an interdisciplinary exploration of how popular assemblies crowds demonstrations gatherings of the people out of doors came to be central to the political aesthetics of democracy during the age of democratic revolutions 1776 to 1848 Engaging with a wide range of sources from canonical political theorists Rousseau Burke and Tocqueville to the novels of Hugo the visual culture of the barricades and the memoirs of popular insurgents The Democratic Sublime demonstrates how making the people's sovereign will tangible to popular judgment became a central dilemma of modern democracy and how it remains so today

The Thirty Years' War and German Memory in the Nineteenth Century Kevin Cramer, 2007-12-01 The nineteenth century witnessed the birth of German nationalism and the unification of Germany as a powerful nation state In this era the reading public's obsession with the most destructive and divisive war in its history the Thirty Years War resurrected old animosities and sparked a violent century-long debate over the origins and aftermath of the war The core of this bitter argument was a clash between Protestant and Catholic historians over the cultural criteria determining authentic German identity and the territorial and political form of the future German nation This groundbreaking study of modern Germany's morbid fascination with the war explores the ideological uses of history writing commemoration and collective remembrance to show how the passionate argument over the meaning of the Thirty Years War shaped Germans' conception of their nation The first book in the extensive literature on German history writing to examine how modern German historians reinterpreted a specific event to define national identity and legitimate political and ideological agendas *The Thirty Years War and German Memory in the Nineteenth Century* is a bold intellectual history of the confluence of history writing religion culture and politics in nineteenth-century Germany

Imperfect Histories Ann Rigney, 2018-09-05 *Imperfect Histories* puts imperfection at the heart of a theory of historical representation Ann Rigney shows how historical writing involves dealing with intractable subjects that resist our efforts to know and to shape them Those who write history she says engage in an ongoing struggle to match up what they find relevant in the past with the information and interpretive models at their disposal Chronic dissatisfaction is at the heart of historical practice This is especially evident in the various attempts made over the last two centuries to write an alternative history of everyday experience Focusing on historical writing in the last decades of the eighteenth century and the first half of the nineteenth Rigney analyzes a wide range of works by Walter Scott Jules Michelet Augustin Thierry and Thomas Carlyle She shows how the attempt to write an alternative history brought historical writing into a close yet fraught relationship with literature The result is a new account of that relationship as it took shape in the romantic period and as it continues to influence contemporary practices

The Reaper Follows Heather

Graham,2024-04-02 Death comes for everyone Deep in the Florida Everglades the body of a woman is discovered in pieces presumably ravaged by an alligator Upon closer inspection it s determined no animal could make such perfectly precise cuts Only a blade could do that Wielded by a human Soon dozens of oil drums emerge amid the river of grass Each one packed to the brim with body parts FDLE special agent Amy Larson and her partner FBI special agent Hunter Forrest share a bad feeling that extends beyond the horrifying nature of the grim discovery They ve seen this kind of sadistic killing before and when a small beige horse is discovered at the bottom of one of the barrels they know exactly what it means The fourth horseman of the apocalypse rides a pale horse and his name is Death With so many bodies to identify connecting one victim to the next is easier said than done But finding a pattern in the chaos might be the only way Amy and Hunter can zero in on the killer testing their skills as agents and their relationship like never before And when the disturbing trail of clues signals these slayings are just the beginning the agents will have to return to where it all started before it s too late The apocalypse is coming and Hunter and Amy have only one chance to stop it even if it means sacrificing each other Heroes and Legends of Fin-de-Siècle France Venita Datta,2011-04-11 In Heroes and Legends of Fin de Si cle France Venita Datta examines representations of fictional and real heroes in the boulevard theater and mass press during the fin de si cle 1880 1914 illuminating the role of gender in the construction of national identity during this formative period of French history The popularity of the heroic cult at this time was in part the result of defeat in the Franco Prussian War in 1870 as well as a reaction to changing gender roles and collective guilt about the egoism and selfishness of modern consumer culture The author analyzes representations of historical figures in the theater focusing on Cyrano de Bergerac Napoleon and Joan of Arc and examines the press coverage of heroes and anti heroes in the Bazar de la Charit fire of 1897 and the Ullmo spy case of 1907 **Myth and Modernity** Dan Edelstein,Bettina R. Lerner,2007-01-01 Editors Preface Dan Edelstein and Bettina Lerner Mythomania and Modernity Part I From Nation to Republic Bettina Lerner Michelet Mythologue Leon Sachs Teaching to the Choir The Republican Schoolteacher and the Sanctity of Secularism Tyler Stovall The Myth of the Liberatory Republic and the Political Culture of Freedom in Imperial France Part II Reading Revolution Marie Helene Huet The Face of Disaster Dan Edelstein The Modernization of Myth From Balzac to Sorel Edward Berenson Fashoda Dreyfus and the Myth of Jean Baptiste Marchand Part III Mythical Selves Goran Blix Heroic Genesis in the Memorial de Sainte Helene Natacha Allet Myth and Legend in Antonin Artaud s Theater Jean Marie Apostolides Herge and the Myth of the Superchild Lawrence Kritzman De Gaulle s Memoires Self Portraiture and the Rhetoric of the Nation French Grand Opera and the Historical Imagination Sarah Hibberd,2009-04-30 Closely examining five French operas this book reveals how and why grand opera sought to bring the past alive *Panoramas and Compilations in Nineteenth-Century Britain* Helen Kingstone,2023-01-06 This book shows how in nineteenth century Britain confronted with the newly industrialized and urbanized modern world writers artists journalists and impresarios tried to gain an overview of contemporary history They drew on two successive but competing

conceptual models of overview the panorama and the compilation Both models claimed to offer a holistic picture of the present moment but took very different approaches This book shows that panoramas 360 views previously associated with the Romantic period and compilations big data projects previously associated with the Victorian fin de siècle are intertwined relevant across the entire century and often remediated making them crucial lenses through which to view a broad range of genre and forms It brings together interdisciplinary research materials belonging to different period silos to create new understandings of how nineteenth century audiences dealt with information overload It argues for a new politics of distance one that recognizes the value of immersing oneself in a situation event or phenomenon but which also does not chastise us for trying to see the big picture This book is essential reading for students and scholars of nineteenth century literature history visual culture and information studies

French Historians and Romanticism Ceri Crossley, 2002-09-11 The French Revolution had a profound influence on perceptions of the past as well as setting the agenda for modern political culture This book examines the ways in which the past was rediscovered retrieved and represented in post revolutionary France concentrating upon the Restoration and the July Monarchy the period which witnessed the promotion of history as a grand discourse of legitimation

Terror and Its Discontents Caroline Weber, 2003-01-01 Camille Desmoulins a journalist writing under the Montagnard regime of 1793-94 remarked that France's government had replaced the language of democracy with the cold poison of fear which paralyzed thought in the bottom of people's souls and prevented it from pouring forth at the tribunal or in writing How this happened how the Reign of Terror reached even into the realms of thought and language is the subject of Caroline Weber's book a revealing look into the paradoxical embargo on free expression that underpinned the Robespierrists self proclaimed despotism of liberty during the French Revolution Weber examines Jean Jacques Rousseau's and the Robespierrists articulation of a series of initiatives designed to curtail and control the dissemination of alternative political and philosophical messages in the republic Here Weber underscores the internal contradictions and limitations of an enterprise that promised universal freedom while oppressing particularism and that railed against the very language that it was compelled to adopt as a principal political tool The book then focuses on two eloquent contemporary critics of this phenomenon Desmoulins and the Marquis de Sade the infamous libertine author Weber demonstrates how Desmoulins reconfigured the Montagnard regime's rhetoric to conjure up a political system based on tolerance not terror and how Sade deftly parodied the Robespierrists brutality and hypocrisy proposing a republic based on the ruthless elimination of dissident voices and on the unabashed celebration of despotism and bloodshed A balanced account of how the discourse of totality actually restricted particular freedoms in the wake of the French Revolution this book provides a highly original and timely exposition of the political uses of rhetoric and of the links between language and power
