## Healing Of Holly Jean:

**Healing of Holly-Jean** I. Chandler,1995      The Healing of Holly-Jean Irene Lin-Chandler,1995      **Mystery Women, Volume Three (Revised)** Colleen Barnett,2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of Mystery Women as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008      **Detective Agency** Priscilla L. **Subsurface** Karen Pinkus, 2023-04-18 A bold new consideration of climate change between narratives of the Earth's layers and policy of the present Long seen as a realm of mystery and possibility the subsurface beneath our feet has taken on all too real import in the era of climate change Can reading narratives of the past that take imaginative leaps under the surface better attune us to our present knowledge of a warming planet In *Subsurface* Karen Pinkus looks below the surface of texts by Edgar Allan Poe Arthur Conan Doyle George Sand E T A Hoffmann and Jules Verne to find the buried origins of capitalist fantasies in which humans take what they want from the earth Putting such texts into conversation with narrative theory critical theory geology and climate policy she shows that the subsurface has been in our past a place of myth and stories of male voyages down to gain knowledge but it is also now the realm of fossil fuels How do these two modes intertwine A highly original take on evocative terms such as extraction burial fossils deep time and speculative futurity *Subsurface* questions the certainty of comfortable narrative arcs It asks us to read literature with and against the figure of the geological column with and against fossil fuels and the emissions warming our planet As we see our former selves move into the distance what new modes of imagination might we summon
