Intimacy in Later Life Kate M. Davidson, Graham Fennell, 2017-07-12 To love and be loved is arguably one of the most powerful and fundamental driving forces sustaining self esteem and self identity throughout the life course Need for reciprocal loving does not change as we grow older despite failures of health loss of a partner late divorce and alterations of personality due to the aging process However most studies of human sexuality have ignored the problems and developing patterns of older adults entering into new partnerships To fill this gap *Intimacy in Later*

Life brings together a wide range of distinguished international scholars to address this neglected research area Key Methods in Geography Nicholas Clifford, Meghan Cope, Thomas Gillespie, Shaun French, 2016-05-21 Practical accessible careful and interesting this revised volume brings the subject up to date and explains in bite sized chunks the how s and why s of modern day geographical study It brings together physical and human approaches again in a new synthesis Danny Dorling Professor of Geography University of Oxford Key Methods in Geography is the perfect introductory companion providing an overview of qualitative and quantitative methods for human and physical geography This Third Edition Features 12 new chapters representing emerging themes including online virtual and digital geographical methods Real life case study examples Summaries and exercises for each chapter Free online access to full text of Progress in Human Geography and Progress in Physical Geography Progress Reports The teaching of research methods is integral to all geography courses Key Methods in Geography Third Edition explains all of the key methods with which geography undergraduates must be conversant **Investigations in the Economics of Aging** David A. Wise, 2012-05-25 One of the most well established relationships in the economics of aging is that between health and wealth Yet this relationship is also changing in conjunction with a rapidly aging population as well as a broad evolution in how people live later in life Building on findings from earlier editions in this National Bureau of Economic Research series Investigations in the Economics of Aging focuses on the changing financial circumstances of the elderly and the relationship of these circumstances to health and health care Among the topics addressed are the significance of out of pocket health care costs the effects of inflation on social security and the impact of the recent financial crisis on Americans well being Encompassing new data and advances in research methodology the developments presented in this volume will have important implications for economies worldwide Life-Course Implications of US Public Policy Janet Wilmoth, Andrew London, 2021-05-24 There is a complex set of public policies and associated programs that constitute the social safety net in the United States In Life Course Implications of U S Public Policies the authors encourage others to systematically consider the influence of policies and programs on lives aging and the life course and how the consequences might vary by gender race ethnicity sexual orientation ability and social class The volume aims to foster an appreciation of how policy influences connect and condition the life course Chapters examine issues relating to health housing food security crime employment and care work amongst other issues and demonstrate how the principles of the life course perspective and cumulative inequality theory can be used to inform contemporary public policy debates Life Course Implications of U S Public Policies will be a great resource for students of gerontology sociology demography social work public health and public policy as well as policy makers researchers in think tanks and advocates who are concerned with age based policy *Nautilus Magazine of New Thought* Elizabeth Jones Towne, 1926 World Development Indicators [computer File] World Bank, 2004 Annotation Chapters in this book focus on the people economy environment states and markets world view and global links for 148 countries As a whole these chapters present an

expanded view of the world economy Introductions highlight recent research on major development issues worldwide

The Global Human Right to Health Theodore Macdonald, Richard Mayon-White, 2018-04-19 This work includes forewords by Senator Noel A Kinsella and John A Gibson respectively Speaker Canadian Senate Barrister at Law and Principal International Refugee Consulting This is a book based on what the Charter of the UN states about health as a basic human right General readers will find a refreshing up to date account of why these issues are so crucial while professionals will find the cogent epidemiological analyses needed to inform research efforts The book argues that the major causes of ill health are not bacteria and viruses or even war and natural disasters but poverty If we could solve the immensely complex problems of global inequities in wealth the health inequities would largely vanish The issue is not a simple one This book sets out among other things to break down the communication barriers between the professionals doctors economists and international bankers and the ordinary person who looks with dismay at international injustice but feels totally inadequate in the face of it The book argues that neoliberal approaches to global finance and international trade which are inextricably linked to the looming environmental crisis are not the only way open to us and suggests alternatives Above all it offers hope and a useful role for all of us in solving the problems Theodore H MacDonald s previous books have won international acclaim To this new title he brings to bear the fruits of years of experience as a medical doctor teacher and researcher in some of the poorest countries in the world This book is provocative and will inspire informed action on the part of all of us The passion conviction and wealth of knowledge of this work s author are evident His ability as a communicator in conjunction with a tempered expertise held by few enables him to identify analyze and provide his reflection on the right to health and its relation to global economics The content and style of the writing reflects MacDonald s impressive experiential background Theodore Macdonald is known internationally as a leader in the promotion of the human right to health Not only does this work have great heuristic value it also serves as an example of how the efforts of one remarkable individual can address the concerns of millions Noel A Kinsella in his Foreword Optimistic clear and concise The book greatly informs a lay reader like myself Arguments are invariably backed up by hard empirical data drawn from a range of authoritative sources This book significantly adds to the understanding of health as a fundamental human right the content of that right and what must be done to ensure that it can become a reality for the millions who presently lack even an acceptable standard of primary health care The reader is left with a clear message unless we evaluate alternatives to existing structures to bring about qualitative change in health outcomes in the developing world environmental disaster fuelled by war and international chaos is our probable destiny I am honoured to have been asked to write this forward and enthusiastically recommend it to anyone with an interest in the future of mankind John A Gibson in his Foreword

Recent Advances in Digital System Diagnosis and Management of Healthcare Kamran Sartipi, Thierry Edoh, 2021-02-03 Technologically supported healthcare management is beginning to take center stage as advances occur in many aspects of healthcare involving big data artificial intelligence and

improved user interfaces This volume provides a perspective on a number of such advances ranging from homecare with remote network support and primary homecare to telemedicine application for pediatric cardiology A special section with chapters on Clinical Decision Support Systems CDSS addresses topics in improved human interfaces intelligent support for better quality home and institutional care effective big data visualization for decision makers and gathering data from multiple sources to support the battle against resistant bacteria The Dawn ,1910 **Insights in the Economics of Aging** David A. Wise,2017-03-20 The fraction of the population over age sixty five in many developed countries is projected to rise in some cases sharply in coming decades This has drawn growing interest to research on the health and economic circumstances of individuals as they age Many individuals are retiring from paid work yet they are living longer than ever Their well being is shaped by their past decisions such as their saving behavior as well as by current and future economic conditions health status medical innovations and a rapidly evolving landscape of policy incentives and supports The contributions to Insights in the Economics of Aging uncover how financial physical and emotional well being are integrally related The authors consider the interactions between financial circumstances in later life such as household savings and home ownership physical circumstances such as health and disability and emotional well being including happiness and mental health
