Yee, 2021-07-29 This volume brings together disparate views about biblical texts in the books of Samuel Chronicles and Ezra Nehemiah and examines their influence in the life of contemporary communities demonstrating how today's environments and disorders help readers to acquire new insights into such texts The contributing scholars hail from different continents from East Asia to the United States to Europe to South Africa and Israel and count themselves as members of various Jewish and Christian traditions or secularist ways of life But in spite of their differences in location and community membership and perhaps in the spirit of the times 2020 and its global discontents they share preoccupations with questions of ethics in politics and life proper death violence and social exclusion or inclusion This volume offers readers a better understanding of how politics and faith can be melded both in ancient and contemporary contexts to serve the interests of certain classes and societies often at the expense of others      **Sensitive to Listen and Willing to Obey** Doris M. Arwine, 2014-05 God uses people daily to communicate His fragrance and message to us Too often we don't check to see what aroma or impression we are leaving for others to see hear or smell After visiting someone's home or before checking out of a motel or when moving we double check

to make sure we haven't left anything behind. Even criminals check to make sure they haven't left any clues at the crime scene to identify them. A story reminded me of this. A robber thought he had committed the perfect crime. He assumed he left no clues behind. But he didn't count on someone remembering how he smelled. The smell he left behind was what helped convict him. Yes, we leave something everywhere we go. Stuart Holden reminded a young man moving from a boarding house of this fact when the young man said he was just double checking to make sure he wasn't leaving anything behind. There's one thing you will leave behind, young man, your influence.

*Mission Rift* David E. Woolverton, 2021. There are two types of conflict in congregations: conflict that kills and conflict that cultivates growth. So argues David E. Woolverton in *Mission Rift*. Leading through Church Conflict: Conflict that kills that damages or destroys teams, ministries, missions, vibrancy occurs when we as the people of God forget who we are, why we're here, and where we're going in carrying out the divine mission. Conflict that cultivates growth often begins with the same scenarios, but leaders see conflict as a context for learning how to live together as a people called to transform their neighborhoods, schools, and workplaces. In *Mission Rift*, Woolverton reorients our view of congregational conflict. In part 1, he examines conflict from a theological and ecclesiological framework, exploring why it is essential to discipleship and mission. In part 2, he presents six principles of missional leadership, challenging pastors and other leaders to define themselves within the frameworks of spiritual formation and family systems, and then to create environments that facilitate growth in faith communities. Rather than resolve conflict too quickly, Woolverton explains, lest we inadvertently sabotage the potential it has to draw a congregation toward spiritual growth, wise leaders recognize that a lack of conflict may be a symptom of missional decline rather than congregational unity. When the church pursues its divine mission, first conflict may become essential for defining its mission priorities. Successfully leading through conflict toward a transformative end will empower a congregation's witness within its community and beyond.

**Springs of Western Civilization** James A. Arieti, 2017-07-14. *Springs of Western Civilization* is a comparative exploration of the Hebraic and classical traditions that form our heritage. In examining these traditions before they united, James Arieti locates the catalyst for their bonding in two related circumstances: adoption by the biblical world of an eclectic mélange of Platonism, Aristotelianism, and Stoicism that in the centuries on each side of the Common Era produced consensus models both of God and of a warmhearted individual, and belief that the writings of Plato were literally true, a belief that arose from failing to understand his playful metaphorical techniques of composition. Among the many effects of the mingling of biblical and philosophical values was a refocusing of literature from the heroes of epic to the compassionate characters we recognize as Menschen.
