Theoretical Approaches to the Archaeology of Ancient Greece Lisa Nevett, 2017-03-06 In the modern world objects and buildings speak eloquently about their creators Status gender identity and cultural affiliations are just a few characteristics we can often infer about such material culture But can we make similar deductions about the inhabitants of the first millennium BCE Greek world Theoretical Approaches to the Archaeology of Ancient Greece offers a series of case studies exploring how a theoretical approach to the archaeology of this area provides insight into aspects of ancient society An introductory section exploring the emergence and growth of theoretical approaches is followed by examinations of the potential insights these approaches provide The authors probe some of the meanings attached to ancient objects townscapes and cemeteries for those who created and used or inhabited them The range of contexts stretches from the early Greek communities during the eighth and seventh centuries BCE through Athens between the eighth and fifth centuries BCE and on into present day Turkey and the Levant during the third and second centuries BCE The authors examine a range of practices from the creation of individual items such as ceramic vessels and figurines through to the construction of civic buildings monuments and cemeteries At the same time they interrogate a range of spheres from craft production through civic and religious practices to funerary ritual *Gender and Archaeology* Rita Wright, 1996-10 Gender and Archaeology challenges archaeologists to draw on wider feminist discourses in their interpretations of past societies and also challenges feminist scholars in other disciplines to consider new engendered approaches to archaeology **Quiriguá Reports, Volume II** Edward M. Schortman, Patricia A. Urban, 1983-01-29 Although Quiriguá and its magnificent carved monuments have been

recorded and studied by scholars over the past century little archaeological data were available until recently From 1973 through 1979 the University Museum sponsored investigations at this major lowland Maya site in eastern Guatemala The aims of the work were to document a basic chronology to determine the nature and pattern of structures and to test hypotheses concerning the origins location and demise of Quirigu University Museum Monograph 49

Mississippian Settlement Patterns Bruce D. Smith,2014-05-10 Studies in Archeology *Mississippian Settlement Patterns* explains the cultural organization of many of the prehistoric societies in the Eastern United States during the last 1000 years of their existence This book emphasizes the difference between the central core of Mississippian societies and those peripheral societies that preceded its development Readers are advised to begin the examination of this compilation by reading Chapter 16 first followed by Chapters 8 to 13 and 15 in order to understand the variations of patterning among societies that are commonly regarded as nascent or developed Mississippian The rest of the chapters analyze cultural groups on the West North and Northeast that are not Mississippian societies including a discussion of late prehistoric societies that are in some ways divergent but are sometimes regarded as Mississippian This publication is valuable to archeologists historians and researchers conducting work on Mississippian societies

The Terminal Classic in the Maya Lowlands Arthur Andrew Demarest,Prudence M. Rice,Don S. Rice,2005 The Terminal Classic in the Maya Lowlands revisits one of the great problems in Mayan archaeology the apparent collapse of Classic Maya civilization from roughly A D 830 to 950 During this period the Maya abandoned their power centers in the southern lowlands and rather abruptly ceased the distinctive cultural practices that marked their apogee in the Classic period Archaeological fieldwork during the past three decades however has uncovered enormous regional variability in the ways the Maya experienced the shift from Classic to Postclassic society revealing a period of cultural change more complex than acknowledged by traditional models Featuring an impressive roster of scholars The Terminal Classic presents the most recent data and interpretations pertaining to this perplexing period of cultural transformation in the Maya lowlands Although the research reveals clear interregional patterns the contributors resist a single overarching explanation Rather this volume s diverse and nuanced interpretations provide a new more properly grounded beginning for continued debate on the nature of lowland Terminal Classic Maya civilization

Understanding Early Civilizations Bruce G. Trigger,2003-05-05 This book offers the first detailed comparative study of the seven best documented early civilizations ancient Egypt and Mesopotamia Shang China the Aztecs and adjacent peoples in the Valley of Mexico the Classic Maya the Inka and the Yoruba Unlike previous studies equal attention is paid to similarities and differences in their sociopolitical organization economic systems religion and culture Many of this study s findings are surprising and provocative Agricultural systems technologies and economic behaviour turn out to have been far more diverse than was expected These findings and many others challenge not only current understandings of early civilizations but also the theoretical foundations of modern archaeology and anthropology The key to understanding early civilizations lies not in their historical connections but in what they can tell us about similarities and differences in human behaviour
