Embodied Visions Bridget Riley Op Art And The Sixties:

Embodied Visions Frances Follin, 2004 Bridget Riley's Op art paintings are icons of the 1960s and fascinate art lovers as much now as they did then Their central position in the art history of the period has not been generally explored however until now *The Architecture of Patterns* Paul Andersen, David Salomon, 2010-10-18 Through a precise and expansive definition of what a pattern is this book offers ways to understand and use patterns in contemporary design From the structure of the universe to the print on your grandmother's couch patterns are found in a variety of concrete and conceptual phenomena For architecture something that so easily traffics between science and taste demands attention which partially explains patterns recent revival across diverse stylistic and intellectual camps Yet despite their ubiquity their resurgence remains untheorized and their capabilities underutilized To date no account has been given for their recent proliferation nor have their various formal and functional capacities been examined In fact the relationship between patterns and architecture hasn't been addressed in almost 30 years This book fills that gap by tracking the definitions and applications of patterns in a number of fields and by suggesting how contemporary patterns might be used in design Drawing on historical material and recent case studies it gives shape to patterns emerging potential *The Architecture of Patterns* provides an updated definition of patterns that is at once precise and expansive one that allows their sensory ephemeral and iterative traits to be taken as seriously as their functional everlasting and essential ones Book design by David Carson Foreword by Sanford Kwinter Projects by Atelier Manferdini Bjarke Ingels Group Ciro Nájle EMERGENT Thomas Wiscombe Foreign Office Architects Jason Payne and Heather Roberge Herzog and de Meuron J Mayer H Architects Reiser Umemoto Responsive Systems Group and indie architecture **Encyclopedia of the Sixties** Abbe A.
