Elite Images and Foreign Policy Outcomes Philip M. Burgess, 1969 Elite Images and Foreign Policy Outcomes
Philip M. Burgess, Mershon Center for Education in National Security, 1968 **Elite Images and Foreign Policy**
Outcomes Philip M. Burgess, Mershon Center for Education in National Security, 1968 Foreign Policies Of Northern
Europe Bengt Sundelius, 2019-04-05 This cross national treatment of the foreign policies of Northern Europe Denmark
Finland Iceland Norway Sweden is organized by substantive policy areas rather than by country thus allowing most similar
case analyses of several dimensions of the countries international relations The authors make comparisons among the
countries in each area of investigation and present details of security international development and neighborhood and
foreign policy processes They also describe and explain international and domestic forces that shape the region s external
policies The combination of sound empirically based data and attention to broader international and theoretical interests
allows relevant comparisons with other advanced industrial states *Indonesian Foreign Policy and the Dilemma of*
Dependence Franklin B. Weinstein, 2007 How can an underdeveloped country like Indonesia draw on outside resources for its
national development without sacrificing its independence Approaching the problem from the vantage point of the
Indonesian elite this important work explores the complex interactions between domestic political factors and the shaping of
foreign policy To illustrate the ways in which underdevelopment has affected Indonesia s international participation
Professor Weinstein presents a graphic picture of what Indonesia s leaders see when they view the outside world and he
systematically seeks out the sources of their perceptions He shows that most of the elite see the international system as
dominated by exploitative powers that cannot be relied on to assist Indonesia s development He examines the relationship
between perceptions and politics under both Sukarno and Soeharto and offers an illuminating comparison of the bases of
foreign policy under each leader revealing dramatic changes and surprising continuities His cogent analysis helps to explain
the sharp reversal of policy in 1966 and his conclusions form a convincing hypothesis that can be tested in other Third World
countries This book now brought back to life as a member of Equinox Publishing s Classic Indonesia series will attract
specialists in Southeast Asia as well as readers with a broader interest in the politics and economics of underdeveloped
countries FRANKLIN B WEINSTEIN was Director of the Project on United States Japan Relations at Stanford University
