*Ellen Swallow* Robert Clarke, 1973 Biographical study of the life and achievements of Ellen H Swallow pioneering professional environmentalist at MIT and major figure in the American feminist movement [The Remarkable Life and Career of Ellen Swallow Richards](#) Pamela C. Swallow, 2014-07-10 This biography highlights the achievements of America's first professional degreed female scientist Ellen Swallow Richards 1842-1911 The book takes the reader from Richards's childhood on a Massachusetts farm where she was schooled at home to her internationally renowned successes in multiple branches of science Schools colleges and libraries are searching for more books about remarkable successful women Richards paved the way for women to enter numerous fields of science previously believed to be the domain of men Currently there is much emphasis on nutrition Richards pioneered in this field teaching the American public about fats carbohydrates proteins and calories at a time when scarcely anyone knew of their importance Ellen Swallow Richards pioneered multiple fields of science and technology opening doors for women to become chemists biologists geologists ecologists nutritionists dietitians science teachers professors and home economists Richards began the ecology movement particularly relevant in today's world as more and more attention is being paid to the health of our planet **American Environmental History** Carolyn Merchant, 2007-10-31 By studying the many ways diverse peoples have changed shaped and conserved the natural world over time environmental historians provide insight into humanity's unique relationship with nature and more importantly are better able to understand the origins of our current environmental crisis Beginning with the precolonial land use practice of Native Americans and concluding with our twenty-first century concerns over our global ecological crisis *American Environmental History* addresses contentious issues such as the preservation of the wilderness the expulsion of native peoples from national parks and population growth and considers the formative forces of gender race and class Entries address a range of topics from the impact of rice cultivation slavery and the growth of the automobile suburb to the effects of the Russian sea otter trade Columbia River salmon fisheries the environmental justice movement and globalization This illustrated reference is an essential companion for students interested in the ongoing transformation of the American landscape and the conflicts over its resources and conservation It makes rich use of the tools and resources climatic and geological data court records archaeological digs and the writings of naturalists that environmental historians rely on to conduct their research The volume also includes a compendium of significant people concepts events agencies and legislation and an extensive bibliography of critical films books and Web sites [The Background of Ecology](#) Robert P. McIntosh, 1986-09-26 *The Background of Ecology* is a critical and up-to-date review of the origins and development of ecology with emphasis on the major concepts and theories shared in the ecological traditions of plant and animal ecology limnology and oceanography The work traces developments in each of these somewhat isolated areas and identifies where possible parallels or convergences among them Dr McIntosh describes how ecology emerged as a science in the context of nineteenth

century natural history      **Rachel Carson and Her Sisters** Robert K Musil,2014-04-01 In *Rachel Carson and Her Sisters* Robert K Musil redefines the achievements and legacy of environmental pioneer and scientist Rachel Carson linking her work to a wide network of American women activists and writers and introducing her to a new contemporary audience Rachel Carson was the first American to combine two longstanding but separate strands of American environmentalism the love of nature and a concern for human health Widely known for her 1962 best seller *Silent Spring* Carson is today often perceived as a solitary great woman whose work single handedly launched a modern environmental movement But as Musil demonstrates Carson's life's work drew upon and was supported by already existing movements many led by women in conservation and public health On the fiftieth anniversary of her death this book helps underscore Carson's enduring environmental legacy and brings to life the achievements of women writers and advocates such as Ellen Swallow Richards Dr Alice Hamilton Terry Tempest Williams Sandra Steingraber Devra Davis and Theo Colborn all of whom overcame obstacles to build and lead the modern American environmental movement      **Understanding Human Ecology** Robert Dyball,Barry Newell,2023-06-30 *Understanding Human Ecology* offers a coherent conceptual framework for human ecology a clear approach for understanding the many systems we are part of and for how we frame and understand the problems we face Blending natural social and cognitive sciences with dynamical systems theory this key text offers systems approaches that are accessible to all from the undergraduate student to policymakers and practitioners across government business and community In the first edition road tested and refined over a decade of teaching and workshops the authors built a clear inspiring and important framework for anyone approaching the management of complex problems and the transition to sustainability Fully updated for the second edition the book now goes further in using systems thinking principles to explain fundamental processes of change in social ecological systems Revised case examples provide a working application of these principles whilst a new discussion of the hierarchical structure of complex systems is included to guide practical policymaking This new edition is essential reading for students and scholars of human ecology environmental ethics and sustainability studies      *So Glorious a Landscape* Chris J. Magoc,2001-10-01 *So Glorious a Landscape* Nature and the Environment in American History and Culture surveys the vast and interdisciplinary subject of American natural and environmental studies It examines the literary landscape that has inspired a local regional and national sense of place explores the dynamic meaning and significance of nature across time place culture and gender and looks at the essence and history of environmental change The first all encompassing introductory survey of environmental history and cultural studies this volume provides students and scholars with carefully chosen selections from major essayists naturalists preachers geographers novelists scientists and historians whose works have shaped the fields of literary ecology and environmental history The essays trace the changing American landscape and ideas about nature from the seventeenth century to the present By analyzing a range of material *So Glorious a Landscape* provides a fresh perspective on what nature is in American

life what forces have shaped its profound place and changing definition and what the work of environmental historians tells about the relationship of nature culture and power in America So Glorious a Landscape is an excellent resource for courses in American studies environmental history and American culture      *Anthropological Perspectives on Environmental Communication* Annelie Sjölander-Lindqvist,Ivan Murin,Michael E. Dove,2022-02-14 In the continuous search for sustainability the exchange of diverse perspectives assumptions and values is indispensable to environmental protection Through anthropological and ethnographic analyses this collection addresses how interests values and ideologies affect dialogue and sustainability work Drawing on studies from three continents Europe North America and South America the paradoxes and the plurality of meanings associated with the creation of sustainable futures are explored The book focuses on how communication practices collide with organizational frameworks customary practices livelihoods and landscape In so doing the authors explore the meanings of environmental communication pushing beyond environmental advocacy rhetoric to emphasize stronger anthropological engagement within communities to achieve more impactful environmental communication practice Empirically the book s chapters explore a diverse set of issues ranging from coastal management in the European north to Native American place naming in Alaska They further share findings from studies of contaminated land remediation in Sweden conflicts over water resources in Chile management of heritage and national parks in Northern Arizona and cultural transmission in Slovakia This is an open access book      **Creation, God, and Humanity** Catherine Wright,2017 Examines the history and development of ecological theological anthropology and how it engages human suffering so that people of faith can better understand the suffering inherent to earth s creative processes and that inflicted by human sin      A Companion to the Regional Literatures of America Charles L. Crow,2008-04-15 The Blackwell Companion to American Regional Literature is the most comprehensive resource yet published for study of this popular field The most inclusive survey yet published of American regional literature Represents a wide variety of theoretical and historical approaches Surveys the literature of specific regions from California to New England and from Alaska to Hawaii Discusses authors and groups who have been important in defining regional American literature      Science and Nature Carolyn Merchant,2017-11-07 Science and Nature brings together the work and insights of historian Carolyn Merchant on the history of science environmental history and ethics The book explores her ideas about the interconnections among science women nature and history as they have emerged over her academic lifetime Focusing on topics such as The Death of Nature the Scientific Revolution women in the history of science and environment and partnership ethics it synthesizes her writings and sets out a vision for the twenty first century Anyone interested in the interactions between science and nature in the past present and future will want to read this book It is an ideal text for courses on the environment environmental history history of science and the philosophy of science      Ladies in the Laboratory? American and British Women in Science, 1800-1900 Mary R.S. Creese,2000-01-01 A systematic survey and comparison of the work of 19th century American and British women

in scientific research this book covers the two countries in which women of the period were most active in scientific work and examines all the fields in which they were engaged The field by field examination brings out patterns and concentrations in women s research in both countries and allows a systematic comparison of the two national groups Through this comparison new insights are provided into how the national patterns developed and what they meant in terms of both the process of women s entry into research and the contributions they made there Ladies in the Laboratory features a specialized bibliography of nineteenth century research journal publications by women created from the London Royal Society s Catalogue of Scientific Papers 1800 1900 In addition 23 illustrations present in condensed form information about American and British women s scientific publications throughout the nineteenth century This well organized blend of individual life stories and quantitative information presents a great deal of new data and field by field analysis its broad and methodical coverage will make it a basic work for everyone interested in the story of women s participation in nineteenth century science

*Bibliography of the History of Medicine* , *The Female Frontier* Glenda Riley,1988 Examines in rich detail the daily lives of pioneer women Journal of American History Anyone interested in women s history and western history will want to read this Pacific Historical Review Copyright Libri GmbH All rights reserved **Bioart Kitchen** Lindsay Kelley,2016-03-07 What do new technologies taste like A growing number of contemporary artists are working with food live materials and scientific processes in order to explore and challenge the ways in which manipulation of biological materials informs our cooking and eating Bioart or biological art uses biotech methods to manipulate living systems from tissues to ecologies While most critiques of bioart emphasise the influences of new media digital media and genetics this book takes a bold alternative approach Bioart Kitchen explores a wide spectrum of seemingly unconnected subjects which when brought together offer a more inclusive expansive history of bioart namely home economics the feminist art of the 1970s tissue culture methodologies domestic computing and contemporary artistic engagements with biotechnology

*Women and Science* Marilyn B. Ogilvie,Kerry L. Meek,2018-12-07 First Published in 1996 Following the author s previous work *Women in Science Antiquity through the Nineteenth Century* in 1986 an increased interest in feminism science and gender issues resulted in this subsequent title This book will be valuable to scholars working in a variety of academic areas and will be useful at different educational levels from secondary through graduate school This annotated bibliography of approximately 2700 entries also includes fields nationality periods persons institutions reference and theme indexes

*Women and Nature* Glenda Riley,1999-01-01 Long before Rachel Carson s fight against pesticides placed female environmental activists in the national spotlight women were involved in American environmentalism In *Women and Nature Saving the Wild West* Glenda Riley calls for a reappraisal of the roots of the American conservation movement This thoroughly researched study of women conservationists provides a needed corrective to the male dominated historiography of environmental studies The early conservation movement gained much from women s widespread involvement Florence Merriam Bailey classified the birds of

New Mexico and encouraged appreciation of nature and concern for environmental problems Ornithologist Margaret Morse Nice published widely on Oklahoma birds In 1902 Mary Knight Britton established the Wild Flower Preservation Society of America Women also stimulated economic endeavors related to environmental concerns including nature writing and photography health spas and resorts and outdoor clothing and equipment From botanists birders and nature writers to club women and travelers untold numbers of women have contributed to the groundswell of support for environmentalism

**Women's International Thought: Towards a New Canon** Patricia Owens, Katharina Rietzler, Kimberly Hutchings, Sarah C. Dunstan, 2022-05-05 All scholarship is a collective endeavour but this book and the context in which it was completed has taught us more about the necessities of collective intellectual work and its material and emotional conditions than we would have liked The COVID 19 pandemic and lockdown came to our cities just as we completed the first draft of the book but with a lot more work to do Even before the coronavirus we were conscious of the extent to which intellectual labour depends on other forms of labour often unacknowledged and provided by others *From Alchemy to Chemistry in Picture and Story* Arthur Greenberg, 2007-03-15 Praise for *From Alchemy to Chemistry in Picture and Story* The timeline from alchemy to chemistry contains some of the most mystifying ideas and images that humans have ever devised Arthur Greenberg shows us this wonderful world in a unique and highly readable book Dr John Emsley author of *The Elements of Murder A History of Poison Art* Greenberg takes us through text and lovingly selected images on a magical mystery tour of the chemical universe No matter what page you open there is a chemical story worth telling Dr Roald Hoffmann Nobel Laureate and coauthor of *Chemistry Imagined* Chemistry has perhaps the most intricate most fascinating and certainly most romantic history of all the sciences Arthur Greenberg's essays delightful learned quirky highly personal and richly illustrated with contemporary drawings many of great rarity and beauty provide a kaleidoscope of intellectual landscapes bringing the experiments the ideas and the human figures of chemistry's past intensely alive Dr Oliver Sacks author of *Awakenings* *From Alchemy to Chemistry in Picture and Story* takes you on an illustrated tour of chemistry's fascinating history from its early focus on the spiritual relationship between man and nature to some of today's most cutting edge applications Drawing from rare publications and artwork that span over five centuries the book contains nearly 200 essays and over 350 illustrations including 24 in full color that tell the engaging story of the development of this fundamental science and its connection with human history Join Arthur Greenberg as he combines the best of the best from his previous works as well as several new essays to paint a colorful picture of chemistry's remarkable origins **Family...** Betty Fox Cooper PhD, 2020-10-27 The author Betty Cooper for almost sixty years facilitated professional and community classes and programs peace personal and family development social justice etc This way of life abruptly stopped on March 13 2018 with the death of her husband of sixty two years Bewildered by the depth of pain she recalled her teen years a period when she overcame physical and emotional challenges through interactions with caring people education and service activities This

prompted her to volunteer at a day care center and participate in five travel bus tours Although her ritual of journaling reading praying meditating and reflecting had continued her life turn around came as a result of an intensive extensive contemplation of the past While contemplating life experiences she saw how families had not only been vital to her but were also our society's change agents Feelings of gratitude became overwhelming as she saw the love compassion and encouragement given to her through the years yet previously overlooked This process created natural highs restoring her to wholeness and wellness The book covers her journey of moving from grief to joy from sadness to happiness from malfunctioning to functioning and finding life is enriching and invigorating She invites you to embark on your journey to experiencing joy as you awaken to the gifts you received while living and experiencing each day's events Her wish is for your journey to be one providing fulfillment and enrichment
