Elusive Subject A Biographers Life:

The Memoirs of John Addington Symonds Amber K. Regis, 2017-02-09 This edition is the first to reproduce John Addington Symonds's Memoirs in its entirety. It offers a panoramic view of middle class Victorian life shedding light upon sexual cultures and life histories too often hidden from history. Symonds 1840-93 began writing his Memoirs in 1889. It was he confessed a foolish thing to do. Symonds was a respected man of letters, an historian, translator, essayist, and poet; he was also married with children. But rather than unfold a simple tale of public and private achievement, the Memoirs record his struggle to reconcile his homosexuality with these professional and familial identities. His autobiography offers a confessional account of relationships beyond the accepted bounds of nineteenth century social mores, presenting an alternative case study that contests the legal and medical authorities that would label his desires a crime or disease. Yet being so eloquent on matters of heterodox sexuality, the Memoirs were suppressed. The manuscript survives because Symonds recognised its import; however foolish, he instructed his literary executor to preserve the text, a duty ultimately discharged by placing the manuscript under embargo in the care of the London Library.

Biofictions Martin Middeke, Werner Huber, 1999 Biofictions sets out to explore this renewed interest in Romantic artist figures in the context of the current renaissance of life writing.

In Collaboration with British Literary Biography Jane McVeigh, 2017-10-13 This book is about one person's reading and what has been learnt about how the lives of other people, particularly authors, have been written in British literary biographies over the last fifty years. It is less interested in what happened in the lives of the people described in these biographies and more concerned with how these stories have been told. It aims to have a conversation with British biographers, particularly Michael Holroyd, Richard Holmes, Hermione Lee, and Claire Tomalin, to make their voices heard, to set them talking. It understands biography as an ongoing collaboration, not only between biographers and their subjects but between biographers and their readers. This is also a study of haunting in which we haunt the lives of others to help us come to a better understanding of our own.
