Death, Burial and the Individual in Early Modern England Clare Gittings, 2023-10-13 First published in 1984 Death Burial and the Individual in Early Modern England traces how and why the modern reaction to death has come about by examining English attitudes to death since the Middle Ages In earlier centuries

death was very much in the midst of life since it was not as now associated mainly with old age War plague and infant mortality gave it a very different aspect to its present one The author shows in detail how modern concern with the individual has gradually alienated death from our society the greater the emphasis on personal uniqueness the more intense the anguish when an individual dies Changes in attitudes to death are traced through alterations in funeral rituals covering all sections of society from paupers to princes This gracefully written book is a unique scholarly and thorough treatment of the subject providing both a sensitive insight into the feelings of people in early modern England and an explanation of the modern anxiety about death The range and assurance of this book will commend it to historians and the interested general reader alike **The Sunnyside** ,1928 **An Odd Undertaking** Bill Wood,2024-01-28 An engaging story of life and death An Odd Undertaking features Bill Wood s memories of his career as an undertaker in London during the 1990s
