Folklore and Book Culture Kevin J. Hayes,1997 To many observers folklore and book culture might appear to be opposites Folklore after all involves orally circulated stories and traditions while book culture is concerned with the transmission of written texts However as Kevin J Hayes points out there are many instances where the two intersect and exploring those intersections is the purpose of this fascinating and provocative study Hayes shows that the acquisition of knowledge and the ownership of books have not displaced folklore but instead have given rise to new beliefs and superstitions Some book have generated new proverbs others have fostered their own legends Occasionally the book has served as an important motif in folklore and in one folk genre the flyleaf rhyme the book itself has become the place where folklore occurs thus indicating a lively interaction between folk print and manuscript culture Solidly researched and venturing into areas long neglected by scholars *Folklore and Book Culture* is a work that will engage not only folklorists but historians and literary scholars as well

Halloween and Other Festivals of Death and Life Jack Santino, 2025-03-14 Why do we celebrate Halloween No one gets the day off and unlike all other major holidays it has no religious or governmental affiliation A survivor of our pre Christian agrarian roots it has become one of the most popular and widely celebrated festivals on the contemporary American calendar Jack Santino has put together the first collection of essays to examine the evolution of Halloween from its Celtic origins through its adaptation into modern culture Using a wide variety of perspectives and approaches the thirteen essayists examine customs communities and material culture to reveal how Halloween has manifested itself throughout all aspects of our society to become not just a marginal survivor of a dying tradition but a thriving contemporary post industrial festival Its steadily increasing popularity despite overcommercialization and criticism is attributed to its powerful symbolism that employs both pre Christian images and concepts from popular culture to appeal to groups of all ages orientations and backgrounds However the essays in this volume also suggest that there is something ironic and unsettling about the immense popularity of a holiday whose main images are of death evil and the grotesque Halloween and other Festivals of Death and Life is a unique contribution that questions our concepts of religiosity and spirituality while contributing to our understanding of Halloween as a rich and diverse reflection of our society s past present and future identity **Folktales**

resource *American Trickster* Emily Zobel Marshall, 2019-06-18 Our fascination with the trickster figure whose presence is global stems from our desire to break free from the tightly regimented structures of our societies Condemned to conform to laws and rules imposed by governments communities social groups and family bonds we revel in the fantasy of the trickster whose energy and cunning knows no bounds and for whom nothing is sacred One such trickster is Brer Rabbit who was introduced to North America through the folktales of enslaved Africans On the plantations Brer Rabbit like Anansi in the Caribbean functioned as a resistance figure for the enslaved whose trickery was aimed at undermining and challenging the plantation regime Yet as Brer Rabbit tales moved from the oral tradition to the printed page in the late nineteenth century the trickster was emptied of his potentially powerful symbolism by white American collectors authors and folklorists in their attempt to create a nostalgic fantasy of the plantation past *American Trickster* offers readers a unique insight into the cultural significance of the Brer Rabbit trickster figure from his African roots and through to his influence on contemporary culture Exploring the changing portrayals of the trickster figure through a wealth of cultural forms including folktales advertising fiction and films the book scrutinises the profound tensions between the perpetuation of damaging racial stereotypes and the need to keep African American folk traditions alive Emily Zobel Marshall argues that Brer Rabbit was eventually reclaimed by twentieth century African American novelists whose protagonists trick their way out of limiting stereotypes break down social and cultural boundaries and offer readers practical and psychological methods for challenging the traumatic legacies of slavery and racism

Newsletter and Journal **Theorizing Folklore from the Margins** Solimar Otero, Mintzi Auanda

Martínez-Rivera, 2021-06-15 The study of folklore has historically focused on the daily life and culture of regular people such as artisans storytellers and craftspeople But what can folklore reveal about strategies of belonging survival and reinvention in moments of crisis The experience of living in hostile conditions for cultural social political or economic reasons has redefined communities in crisis The curated works in *Theorizing Folklore from the Margins* offer clear and feasible suggestions for how to ethically engage in the study of folklore with marginalized populations By focusing on issues of critical race and ethnic studies decolonial and antioppressive methodologies and gender and sexuality studies contributors employ a wide variety of disciplines and theoretical approaches In doing so they reflect the transdisciplinary possibilities of Folklore studies By bridging the gap between theory and practice *Theorizing Folklore from the Margins* confirms that engaging with oppressed communities is not only relevant but necessary *Folk Women and Indirection in Morrison, N Dhuibhne, Hurston, and Lavin* Jacqueline Fulmer, 2017-11-30

Focusing on the lineage of pivotal African American and Irish women writers the author argues that these authors often employ strategies of indirection via folkloric expression when exploring unpopular topics This strategy holds the attention of readers who would otherwise reject the subject matter The author traces the line of descent from Mary Lavin to N Dhuibhne and from Zora Neale Hurston to Toni Morrison showing how obstacles to free expression though varying from those Lavin and Hurston faced are still encountered by Morrison and N Dhuibhne The basis for comparing these authors lies in the strategies of indirection they use as influenced by folklore The folkloric characters these authors depict wild denizens of the Otherworld and wise women of various traditions help their creators insert controversy into fiction in ways that charm rather than alienate readers Forms of rhetorical indirection that appear in the context of folklore such as signifying practices masking sly civility and the grotesque or bizarre come out of the mouths and actions of these writers magical and magisterial characters Old traditions can offer new ways of discussing issues such as sexual expression religious beliefs or issues of reproduction As differences between times and cultures affect what can and cannot be said folkloric indirection may open up a vista to discourses of which we as readers may not even be aware Finally the folk women of Morrison N Dhuibhne Hurston and Lavin open up new points of entry to the discussion of fiction rhetoric censorship and folklore

The Transmission of Kapsiki-Higi Folktales over Two Generations Walter E.A. van Beek, 2016-11-03 This study on Kapsiki Higi tales compares two corpuses of stories collected over two generations In this oral setting folktales appear much more dynamic than usually assumed depending on genre performance and the memory characteristics of the tales themselves In northeastern Nigeria the author collected these tales twice with a time gap of two generations in order to assess the dynamics of this oral transmission The comparison between the two corpuses shows that folktales are a much more dynamic cultural system than is usually thought These dynamics affect some types of tales more than others reflect social change and intergroup contact but also depend on characteristics of the tales themselves Cognitive

approaches of memory shed light on these varieties of transmission as do performance aspects in tale telling in particular ideophones

Killing Tradition Simon J. Bronner, 2008-11-21 Across the country and around the world people avidly engage in the cultural practice of hunting Children are taken on rite of passage hunting trips where relationships are cemented and legacies are passed on from one generation to another Meals are prepared from hunted game often consisting of regionally specific dishes that reflect a community's heritage and character Deer antlers and bear skins are hung on living room walls decorations and relics of a hunter's most impressive kills Only 5 percent of Americans are hunters but that group has a substantial presence in the cultural consciousness Hunting has spurred controversy in recent years inciting protest from animal rights activists and lobbying from anti cruelty demonstrators who denounce the custom But hunters have responded to such criticisms and the resulting legislative censures with a significant argument in their defense the claim that their practices are inextricably connected to a cultural tradition Further they counter that they as representatives of the rural lifestyle pioneer heritage and traditional American values are the ones being victimized Simon J Bronner investigates this debate in *Killing Tradition Inside Hunting and Animal Rights Controversies* Through extensive research and fieldwork Bronner takes on the many questions raised by this problematic subject Does hunting promote violence toward humans as well as animals Is it an outdated activity unnecessary in modern times Is the heritage of hunting worth preserving *Killing Tradition* looks at three case studies that are at the heart of today's hunting debate Bronner first examines the allegedly barbaric rituals that take place at deer camps every late November in rural America He then analyzes the annual Labor Day pigeon shoot of Hegins Pennsylvania which brings animal rights protests to a fever pitch Noting that these aren't simply American concerns and that the animal rights movement in America is linked to British animal welfare protests Bronner examines the rancor surrounding the passage of Great Britain's Hunting Act of 2004 the most comprehensive and divisive anti hunting legislation ever enacted The practice of hunting is sure to remain controversial as it continues to be touted and defended by its supporters and condemned and opposed by its detractors With *Killing Tradition* Bronner reflects on the social psychological and anthropological issues of the debate reevaluating notions of violence cruelty abuse and tradition as they have been constructed and contested in the twenty first century

Folk Women and Indirection in Morrison, N

Dhuibhne, Hurston, and Lavin Jacqueline Fulmer, 2017-11-30 Focusing on the lineage of pivotal African American and Irish women writers the author argues that these authors often employ strategies of indirection via folkloric expression when exploring unpopular topics This strategy holds the attention of readers who would otherwise reject the subject matter The author traces the line of descent from Mary Lavin to N Dhuibhne and from Zora Neale Hurston to Toni Morrison showing how obstacles to free expression though varying from those Lavin and Hurston faced are still encountered by Morrison and N Dhuibhne The basis for comparing these authors lies in the strategies of indirection they use as influenced by folklore The folkloric characters these authors depict wild denizens of the Otherworld and wise women of various traditions help their

creators insert controversy into fiction in ways that charm rather than alienate readers. Forms of rhetorical indirection that appear in the context of folklore such as signifying practices masking sly civility and the grotesque or bizarre come out of the mouths and actions of these writers' magical and magisterial characters. Old traditions can offer new ways of discussing issues such as sexual expression, religious beliefs, or issues of reproduction. As differences between times and cultures affect what can and cannot be said, folkloric indirection may open up a vista to discourses of which we as readers may not even be aware. Finally, the folk women of Morrison, N. Dhuibhne, Hurston, and Lavin open up new points of entry to the discussion of fiction, rhetoric, censorship, and folklore.
