THERE was once a King who had one only son and him he loved better than anything in the whole world better even than his own life The King s greatest desire was to see his son married but though the Prince had travelled in many lands and had seen many noble and beautiful ladies there was not one among them all whom he wished to have for a wife One day the King called his son to him and said My son for a long time now I have hoped to see you choose a bride but you have desired no one Take now this silver key Go to the top of the castle and there you will see a steel door This key will unlock it Open the door and enter Look carefully at everything in the room and then return and tell me what you have seen But whatever you do do not touch nor draw aside the curtain that hangs at the right of the door If you should disobey me and do this thing you will suffer the greatest dangers and may even pay for it with your life The Prince wondered greatly at his father s words but he took the key and went to the top of the castle and there he found the steel door his father had described He unlocked it with the silver key stepped inside and looked about him When he had done so he was filled with amazement at what he saw The room had twelve sides and on eleven of these sides were pictures of eleven princesses more beautiful than any the Prince had ever seen in all his life before Moreover these pictures were as though they were alive When the Prince looked at them they moved and smiled and blushed and beckoned to him He went from one to the other and they were so beautiful that each one he looked upon seemed lovelier than the last But lovely though they were there was not one of them whom the Prince wished to have for a wife *My Godmother's Stories from Many Lands* Mrs. T. This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province The intention was to collect as broad a spectrum of traditional material as possible and Folktales of Newfoundland is notable not only for the number and quality of its narratives but also for the format in which they are presented A special

transcription system conveys to the reader the accents and rhythms of each performance and the endnote to each tale features an analysis of the narrator's language. In addition, Newfoundland has preserved many aspects of English and Irish folk tradition, some of which are no longer active in the countries of their origin. Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland, the researchers set out to discover if this was in fact the case.
