Paul S. Lloyd,2015-02-26 Food and Identity in England 1540 1640 considers early modern food consumption in an important new way connecting English consumption practices between the reigns of Henry VIII and Charles I with ideas of self and otherness in wider contexts of society and the class system Examining the diets of various social groups ranging from manual labourers to the aristocracy special foods and their preparation as well as festive events and gift foods this all encompassing study reveals the extent to which individuals and communities identified themselves and others by what and how they ate between the Reformation of the church and the English Civil Wars This text provides remarkable insights for anyone interested in knowing more about the society and culture of early modern England **Medieval Conduct** Kathleen M. Ashley,Robert L. A. Clark,2001 Focusing on a broad range of texts from England France Germany and Italy conduct and courtesy books advice poems devotional literature trial records the contributors to Medieval Conduct draw attention to the diverse ways in which readers of this literature could interpret such behavioral guides appropriating them to their own ends Medieval Conduct expands the concept of conduct to include historicized practices and theorizes the connection between texts and their concrete social uses what emerges is a nuanced interpretation of the role of gender and class inscribed in such texts By bringing to light these subtleties and complexities the authors also reveal the ways in which the assumptions of literary history have shaped our reception of such texts in the past two centuries Food and Philosophy Fritz Allhoff,Dave Monroe,2009-02-09 Food it joins Wine Philosophy and Beer Philosophy in in the Epicurean Trilogy Essays are organized thematically and written by philosophers food writers and professional chefs Provides a critical reflection on what and how we eat can contribute to a robust enjoyment of gastronomic pleasures A thoughtful yet playful collection which emphasizes the importance of food as a proper object of philosophical reflection in its own right **Honey in Traditional and Modern Medicine** Laid Boukraâ,2013-10-29 The use of honey can be traced back to the Stone Age Evidence can be found for its nutritional and medicinal use beginning with prehistoric and ancient civilizations Currently there is a resurgence of scientific interest in natural medicinal products such as honey by researchers the medical community and even the general public Honey in Tra **Production and Consumption in English Households 1600-1750** Darron Dean,Andrew Hann,Mark Overton,Jane Whittle,2004-08-02 This economic social and cultural analysis of the nature and variety of production and consumption activities in households in Kent and Cornwall yields important new insights on the transition to capitalism in England **The Changing Body** Roderick Floud,Robert W. Fogel,Bernard Harris,Sok Chul Hong,2011-03-31 Humans have become much taller and heavier and experience healthier and longer lives than ever before in human history However it is

only recently that historians economists human biologists and demographers have linked the changing size shape and capability of the human body to economic and demographic change This fascinating and groundbreaking book presents an accessible introduction to the field of anthropometric history surveying the causes and consequences of changes in health and mortality diet and the disease environment in Europe and the United States since 1700 It examines how we define and measure health and nutrition as well as key issues such as whether increased longevity contributes to greater productivity or instead imposes burdens on society through the higher costs of healthcare and pensions The result is a major contribution to economic and social history with important implications for today s developing world and the health trends of the future

Spuds, Spam and Eating For Victory Katherine Knight,2011-10-21 The battle to keep the nation fed during the Second World War was waged by an army of workers on the land and the resourcefulness of the housewives on the Kitchen Front The rationing of food clothing and other substances played a big part in making sure that everyone had a fair share of whatever was available In this fascinating book Katherine Knight looks at how experiences of rationing varied between rich and poor town and country and how ingenious cooks often made a meal from poor ingredients Charting the developments of the rationing programme throughout the war and afterwards Spuds Spam and Eating for Victory documents the use of substitutions for luxury ingredients not available resulting in delicacies such as carrot jam and oatmeal sausages The introduction of Spam in America in the forties led to this canned spiced pork and ham becoming an iconic symbol of the worse period of shortage in the twentieth century Seventy years after the outbreak of the Second World War this book listens to some of the people who were young during the conflict share their memories both sad and funny of what it was like to eat for Victory

Recipes and Everyday Knowledge Elaine Leong,2018-11-28 Across early modern Europe men and women from all ranks gathered medical culinary and food preservation recipes from family and friends experts and practitioners and a wide array of printed materials Recipes were tested assessed and modified by teams of householders including masters and servants husbands and wives mothers and daughters and fathers and sons This much sought know how was written into notebooks of various shapes and sizes forming treasuries for health each personalized to suit the whims and needs of individual communities In Recipes and Everyday Knowledge Elaine Leong situates recipe knowledge and practices among larger questions of gender and cultural history the history of the printed word and the history of science medicine and technology The production of recipes and recipe books she argues were at the heart of quotidian investigations of the natural world or household science She shows how English homes acted as vibrant spaces for knowledge making and transmission and explores how recipe trials allowed householders to gain deeper understandings of sickness and health of the human body and of natural and human built processes By recovering this story Leong extends the parameters of natural inquiry and productively widens the cast of historical characters participating in and contributing to early modern science

Beer in the Middle Ages and the Renaissance Richard W. Unger,2013-05-22 The beer of today brewed from malted grain and

hops manufactured by large and often multinational corporations frequently associated with young adults sports and drunkenness is largely the result of scientific and industrial developments of the nineteenth century Modern beer however has little in common with the drink that carried that name through the Middle Ages and Renaissance Looking at a time when beer was often a nutritional necessity was sometimes used as medicine could be flavored with everything from the bark of fir trees to thyme and fresh eggs and was consumed by men women and children alike Beer in the Middle Ages and the Renaissance presents an extraordinarily detailed history of the business art and governance of brewing During the medieval and early modern periods beer was as much a daily necessity as a source of inebriation and amusement It was the beverage of choice of urban populations that lacked access to secure sources of potable water a commodity of economic as well as social importance a safe drink for daily consumption that was less expensive than wine and a major source of tax revenue for the state In Beer in the Middle Ages and the Renaissance Richard W Unger has written an encompassing study of beer as both a product and an economic force in Europe Drawing from archives in the Low Countries and England to assemble an impressively complete history Unger describes the transformation of the industry from small scale production that was a basic part of housewifery to a highly regulated commercial enterprise dominated by the wealthy and overseen by government authorities Looking at the intersecting technological economic cultural and political changes that influenced the transformation of brewing over centuries he traces how improvements in technology and in the distribution of information combined to standardize quality showing how the process of urbanization created the concentrated markets essential for commercial production Weaving together the stories of prosperous businessmen skilled brewmasters and small producers this impressively researched overview of the social and cultural practices that surrounded the beer industry is rich in implication for the history of the period as a whole

The Viandier of Taillevent Taillevent,1988 The Viandier is the most important early recipe collection of mediaeval France Written in the fourteenth century by Guillaume Tirel alias Taillevent the chief cook of King Charles V of France it is the starting point of many culinary traditions and practices that remain at the base of modern French haute cuisine This volume is the first to present all four extant manuscripts of the Viandier arranged in parallel for easy comparison The texts of the 220 recipes are in the original French but a complete English translation is provided Of particular interest are the differences between the four manuscripts which represent more than a century of modifications in gastronomic tastes and culinary practices in French seigneurial life The commentary and notes that accompany the texts trace the significance of these modifications and indicate the influence the Viandier exercised on more recent cookery books throughout Europe This critical edition also includes a glossary and a bibliography In addition selected recipes have been adapted with minimal modifications for modern use and arranged in a menu for six people Page 4 of cover
