## **Food And Poverty The Political Economy Of Confrontation:**

Food and Poverty Radha Sinha, 2013-11-19 First published in 1976 this book deals with contemporary tensions between the West and the Third World caused by hunger malnutrition and poverty perpetuated by an imbalance in the distribution of world resources The book deals with the issue of malnutrition in the Third World which owes much more to poverty and unemployment than to agricultural failure The author also believes that population control can do little in the absence of a more equitable distribution of world resources and political power within and between countries involving a fundamental change in ideology and education This is a challenging and critical book whose arguments cannot be ignored by anyone concerned with the creation of a just and stable world order *The Political Economy of Hunger* George Kent, 1984 Economic analysis of the economic policy of hunger describes extent of malnutrition and calorie deficiencies examines food wastage and food trade comparative advantages of developed countries versus developing countries and the role of population growth poverty etc As causes of hunger discusses strategies to end hunger incl Food policies development policies self reliance and food aid advocates popular participation in development planning Bibliography diagrams graphs statistical tables **The Political Economy of Conflict and Violence against Women** Kumudini Samuel, Claire Slatter, Vagisha Gunasekara, 2019-08-15 The Political Economy of Conflict and Violence against Women shows how political economic social and ideological processes intersect to shape conflict related gender based violence against women Through feminist interrogations of the politics of economies struggles for political power and the gender order this collection reveals how sexual orders and regimes are linked to spaces of production Crucially it argues that these spaces are themselves firmly anchored in overlapping patriarchies which are sustained and reproduced during and after war through violence that is physical as well as structural Through an analysis of legal regimes and structures of social arrangements this book frames militarization as a political economic dynamic developing a radical critique of liberal peace building and peace making that does not challenge patriarchy or modes of production and accumulation The Political Economy of Development and Underdevelopment Charles K. Wilber, 1984 **Bibliography On World Conflict And Peace** Elise Boulding, 2019-04-24 This book presents more than 1 000 entries organized in twenty six major categories in the fields of conflict and peace studies It focuses on global systems and covers the structures and processes of conflict and peacemaking as they apply at every level from interpersonal to international The Political Economy of Ethnic Conflict in Sri Lanka Nikolaos Biziouras, 2014-03-26 At the point of independence in 1948 Sri Lanka was projected to be a success story in the developing world However in July 1983 a violent ethnic conflict which pitted the Sinhalese against the Tamils began and did not come to an end until 2009 This conflict led to nearly 50 000 combatant deaths and approximately 40 000 civilian deaths as well as almost 1 million internally displaced refugees and to the permanent migration abroad of nearly 130 000 civilians With a focus on Sri Lanka this book explores the political economy of ethnic conflict and examines how rival political leaders are able to

convince their ethnic group members to follow them into violent conflict Specifically it looks at how political leaders can influence and utilize changes in the level of economic liberalization in order to mobilize members of a certain ethnic group and in the case of Sri Lanka shows how ethnic mobilization drives can turn violent when minority ethnic groups are economically marginalized by the decisions that the majority ethnic group leaders make in order to stay in power Taking a political economy approach to the conflict in Sri Lanka this book is unique in its historical analysis and provides a longitudinal view of the evolution of both Tamil and Sinhalese ethnic drives As such this interdisciplinary study will be of interest to policy makers as well as academics in the field of South Asian studies political science sociology development studies political economy and security studies **The Political Economy of Rural-Urban Conflict** Topher L. McDougal, 2017-07-07

In some cases of insurgency the combat frontier is contested and erratic as rebels target cities as their economic prey In other cases it is tidy and stable seemingly representing an equilibrium in which cities are effectively protected from violent non state actors What factors account for these differences in the interface between urban based states and rural based challengers To explore this question this volume examines two regions representing two dramatically different outcomes In West Africa Liberia and Sierra Leone capital cities became economic targets for rebels who posed dire threats to the survival of the state In Maoist India despite an insurgent ideology aiming to overthrow the state via a strategy of progressive city capture the combat frontier effectively firewalls cities from Maoist violence This book argues that trade networks underpinning the economic relationship between rural and urban areas termed interstitial economies may differ dramatically in their impact on and response to the combat frontier It explains rebel predatory tendencies towards cities as a function of transport networks allowing monopoly profits to be made by urban based traders It explains combat frontier delineation as a function of the social structure of the trade networks hierarchical networks permit elite elite bargains that cohere the frontier These factors represent what might be termed respectively the hardware and software of the rural urban economic relationship Of interest to any student of political economy and violence this book presents new arguments and insights about the relationships between violence and the economy predation and production core and periphery **African**

**Political Economy in the Twenty-First Century** Ernest T. Aniche, Stephen N. Azom, Emeka C. Iloh, 2023-09-12 African Political Economy in the Twenty First Century Theories Perspectives and Issues edited by Emeka C Iloh Ernest T Aniche and Stephen N Azom fills the gap in the discourses on African political economy from an African perspective Since the end of colonialism in the second half of the twenty first century a wide ranging debate has opened on the future of African development and the nature and character of its political economy especially as it concerns its web of relationships in the international political and economic system Two decades into the twenty first 21st century the debate still rages on and is likely to continue for a long time This book contributes to the debate by addressing the important question of how African countries can strategically and tactically approach global political economy at multilateral continental and regional levels in

view of North South versus South South configurations African Political Economy in the Twenty First Century further suggests how African countries can effectively utilize global forces to Africa s advantage in advancing domestic regional and continental development objectives *Gender and the Political Economy of Conflict in Africa* Meredith Turshen,2016-01-29 Violence affects the economy of production and the ecology of reproduction the production of economic goods and services and the generational reproduction of workers the regeneration of the capacity to work and maintenance of workers on a daily basis and the renewal of culture and society through community relations and the education of children *Gender and the Political Economy of Conflict in Africa* explores the persistence of violence in conflict zones in Africa using a political economy framework This framework employs an analysis of violence on both edges of the spectrum a macro economic analysis of violence against workers and a micro political analysis of the violence in women s reproductive lives These analyses come together to create a new explanation of why violence persists a new political economy of violence against women and a new theoretical understanding of the relation between production and reproduction Three case studies are discussed the Democratic Republic of the Congo violence in an era of conflict Sierra Leone violence post conflict and Tanzania which has not seen armed conflict on the mainland This book fills a significant gap on the political economy of war and women gender for advanced undergraduate and postgraduate students as well as researchers in African Studies Gender Studies and Peace and Conflict Studies GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY - Volume IV P.Bilgin, P.D. Williams, M. Sekiguchi, J. K. Galbraith, S. T. Inayatullah, J. Wiener, R. A. Schrire, I.L. Murphy,2010-09-19 Global Security and International Political Economy is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This 6 volume set contains several chapters each of size 5000 30000 words with perspectives issues of great relevance to our world such as Global Security Global Security and the International System The Regional Dimension of Global Security The National Dimension Of Global Security The Societal Dimension Of Global Security The Human Security Agenda In World Politics History Of Empires And Conflicts The Myth Of The Clash Of Civilizations In Dialogical Historical Context Causes And Prevention Of Armed Conflict International Development Policies And Global Security Environment And Global Security Political Economy Of International Security Political Issues In Human Resource Development Globalization And The Consumer Society These volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs Protecting Human Security in Africa Ademola Abass,2010-09-23 This text explores the gravest threats to human security in Africa Written by leading experts on its various themes it combines legal and policy perspectives on the issues making it an indispensable book for those seeking to learn more about the real challenges facing Africans and African organizations *The Political Economy of Aid in Palestine Sahar* Taghdisi-Rad,2010-10-04 Despite for many years receiving the highest

per capita aid worldwide the economies of the West Bank and Gaza Strip have failed to achieve any lasting developmental outcomes and suffer from major weaknesses which undermine their very survival This book argues that the dominant mainstream approach to the study of aid and aid effectiveness is theoretically and empirically inadequate for a comprehensive understanding and analysis of the workings of aid in developing countries particularly those undergoing conflict This book examines the nature of donor operations in Palestine highlighting the political and ideological determinants of aid allocation and effectiveness and focussing on the role of trade related donor assistance in Palestine more commonly known as Aid for Trade It discusses how such trade related assistance is only another instance of donors working around the conflict as opposed to taking it into account and how aid to Palestine cannot bring about significant improvement as long as the Palestinian economy is fundamentally affected by Israeli occupation settlements and blockade It argues that unless restructured and more carefully targeted aid can only act as a temporary relief mechanism Furthermore the book sheds light on critical areas within Palestinian territories that are in need of development and require significant and immediate attention at both national and international level

#### **Post-Conflict Development in East Asia**

Brendan M. Howe, 2016-04-08 East Asia is a region deeply affected by conflict Colonial ideological and national wars have left their scars and legacies on regional international and national governance Yet East Asian post conflict development experiences have been viewed as remarkably successful The three largest economies of East Asia Japan China and South Korea have all experienced dramatic growth but immediately prior to their periods of expansion all experienced the devastating impacts of international conflicts and or civil upheaval These post conflict development success stories do not however tell the whole tale Other states in East Asia and in particular certain regions within some of these states while apparently emerging from similar conflictual backgrounds have experienced far less positive transitions This volume critically assesses measurements of success in East Asian post conflict development from a human centered perspective This involves a major re evaluation of accepted accounts of domestic governance and international relations in East Asia from both a comparative and interdisciplinary viewpoint Case study rich this volume provides policy prescriptions for East Asian donors and actors in an effort to provide Asian solutions for Asian problems

#### **The Political Economy of Dissent**

Peter Blunt, Cecilia Escobar, Vlassis Missos, 2025-10-22 In 2020 Noam Chomsky asserted that the time to panic about the existential threats posed by nuclear war global warming and the stifling of informed debate in supposedly open and democratic societies was upon us and that it was the duty of concerned citizens to act accordingly Hastened by the lingering aftermath of the 2008 financial crisis the COVID 19 pandemic the proxy war in Ukraine the decline of US economic hegemony and increasing hostility between the US and China he concluded in early 2023 that unless the US could be persuaded to cooperate with its declared adversaries and capitalism could be overthrown or defanged there was little hope for survival The authors of this book argue that achieving these ends will depend greatly on effective individual and collective worldwide dissent The book analyses and exemplifies

dissent in the main domains of institutionalised capitalist control and the manufacture of uninformed consent namely political economy education the media and IT work and trade unions the commons and communities and culture And thereby gives voice and hope to the downtrodden and marginalised including indigenous peoples and those of the global south It provides an uplifting counter to the otherwise seemingly overwhelming expression of uninformed consent one that will inspire by example and be an antidote to the fear and defeatism instilled by capitalist intransigence indoctrination and control The book is addressed to students scholars and researchers primarily but its breadth of coverage authenticity and plain writing style will appeal to activists community organisers and concerned citizens both in industrialised countries and the global south

**Social Conflict, Economic Development and Extractive Industry** Anthony Bebbington, 2011-09-27 The extraction of minerals oil and gas has a long and ambiguous history in development processes in North America Europe Latin America and Australasia Extraction has yielded wealth regional identities and in some cases capital for industrialization In other cases its main heritages have been social conflict environmental damage and underperforming national economies As the extractive economy has entered another boom period over the last decade not least in Latin America the countries in which this boom is occurring are challenged to interpret this ambiguity Will the extractive industry yield for them economic development or will its main gifts be ones of conflict degradation and unequal forms of growth This book speaks directly to this question and to the different ways in which Latin American countries are responding to the challenge of extractive industry The contributors are a mixture of geographers economists political scientists development experts and anthropologists who all draw on sustained field work in the region By digging deep into both national and local experiences with extractive industry they demonstrate the ways in which it transforms economies societies politics and environments They pay particular attention to the social conflict that extraction consistently produces and they ask how far this conflict might usher in political and institutional changes that could lead to a more productive relationship between extraction and development They also ask whether the existence of left of centre governments in the region changes the relationships between extractive industry and development The book makes clear the immense difficulties that countries and regional societies face in harnessing extractive industry for the collective good For the most part the findings question the wisdom of the development model that many countries in the region have taken up and which emphasises the productive roles of mining and hydrocarbon industries The book should be of interest to students and researchers of Development Studies Geography Politics and Political Economy as well as Anthropology

**Aligning Geopolitics, Humanitarian Action and Geography in Times of Conflict** Gerry O'Reilly, 2019-01-25 This textbook offers valuable insights into the nexus between geography geopolitics and humanitarian action It elucidates concepts regarding conflict and power as well as the role of the state and the international community in mitigating and preventing violence and war Here the material and non material existential or imagined reasons for conflict are deconstructed ranging from land and resource grabs to Utopian ideals that can degenerate into dystopias as with Daesh's caliphate in Syria and Iraq In turn the issues discussed range from the local to wider national and global levels as do their resolution mechanisms Due to insecurities the impacts of globalization divisive nationalistic and isolationist reactions emerging in some democracies including the USA the UK's Brexit stress and the ominous rise of populist parties across continental Europe from France and the Netherlands to the Visegrád Group the Balkans and Greece citizen fatigue has become increasingly evident reflected in ever growing socio political malaise and violence As the impact of any humanitarian

disaster is proportional to the level of development of the area affected concepts and categories of humanitarian action are explored along with development issues at their core especially in the Global South Broadly speaking humanitarian disasters fall into the categories of natural human made technological or complex here however the focus is on human made crises Attempts at greater regulation national and international organization and multilateralism to prevent violent conflicts as well as enhanced responses to humanitarian emergencies need to be supported now more than ever before This textbook will appeal to graduate and upper undergraduate students and practitioners in the fields of geography geopolitics humanitarian action and geographies of conflict and war In addition to the main content it includes exercises questions and sections for autonomous student learning

Environmental Conflict Paul Diehl,Nils Petter Gleditsch,2018-03-05 As environmental security gains increasing attention there is a pressing need for rigorous examinations of environmental causes of conflict and the potential for conflict resolution Environmental Conflict explores the role of environmental degradation or scarcity in intrastate or interstate violent conflict and how cooperative efforts might forestall such undesirable consequences By presenting cutting edge conceptual and empirical research examining how environmental factors may influence group and state decisions to employ violence this book enhances understanding of the possibilities for future conflict and how to prevent it

*Conflict and Development* Roger Mac Ginty,Andrew Williams,2009-03-24 Over the past decade a new awareness of the relationship between conflicts and development has grown Developmental factors can act as a trigger for violence as well as for ending violence and for triggering post conflict reconstruction This book explores the complexity of the links between violent conflict usually civil wars and development under development and uneven development It emphasizes the connections between stable developed economies and civil wars in other parts of the world and examines how structural factors such as the organization of the global economy virtually condemn some regions to conflict and under development This valuable introductory text explains reviews and critically evaluates this complex relationship It focuses on intra state conflicts and complex political emergencies that combine transnational and internal characteristics Attention is also given to inter state conflicts Chapters emphasize how the relationship between conflict and development traverses many scales macro meso and micro and dimensions economic political and cultural Furthermore it explains how different developmental challenges and opportunities emerge along the full life cycle of conflict Specifically the role of poverty state market civil society globalization humanitarian aid refugees gender and health within conflict dynamics are examined The book also investigates specific developmental issues emerging during conflict management and post conflict reconstruction Both authors have a background in conducting research in deeply divided societies and argue that many of the processes connected with war and peace making deliberately write people out of the equation This book attempts to write people in By drawing on contemporary theoretical debates and examining current policies and events the text unpacks the difficult and complex aspects of the relationships between armed conflict and development and makes them accessible interesting and

policy relevant It considers how peace making peace building and post war reconstruction are usually more sustainable and successful if politicians policy makers entrepreneurs and those working for international NGOs take on board local opinion and capacity Written in an accessible style the book considers the main contemporary theories and arguments on conflict development and the interactions between the two The text is illuminated throughout with case studies drawn from Africa the Balkans Asia and the Middle East
