Jewish Veganism and Vegetarianism Jacob Ari Labendz, Shmuly Yanklowitz, 2019-03-25 A multidisciplinary approach to the study of veganism vegetarianism and meat avoidance among Jews both historical and contemporary In recent decades as more Jews have adopted plant based lifestyles Jewish vegan and vegetarian movements have become increasingly prominent This book explores the intellectual religious and historical roots of veganism and vegetarianism among Jews and presents compelling new directions in Jewish thought ethics and foodways The contributors including scholars rabbis and activists explore how Judaism has inspired Jews to eschew animal products and how such choices even when not directly inspired by Judaism have enriched and helped define Jewishness Individually and as a collection the chapters in this book provide an opportunity to meditate on what may make veganism and vegetarianism particularly Jewish as well as the potential distinctiveness of Jewish veganism and vegetarianism The authors also examine the connections between Jewish veganism and vegetarianism and other movements while calling attention to divisions among Jewish vegans and vegetarians to the specific challenges of fusing Jewishness and a plant based lifestyle and to the resistance Jewish vegans and vegetarians can face from parts of the Jewish community The book's various perspectives represent the cultural theological and ideological diversity among Jews invested in such conversations and introduce prominent debates within their movements Whether looking at the pages of the Talmud vegetarian poems written in Yiddish lyrics written by Jewish punk rockers or into a pot of vegan matzo ball soup this book explores the many ways in which Jews have questioned the ethics of eating animals Labendz and Yanklowitz achieve their stated goal of exploring what distinguishes Jewish veganism and vegetarianism as Jewish You do not have to be a vegetarian or a vegan or Jewish in order to learn from and indeed grapple with the many questions dilemmas and readings that the contributors raise Jordan D Rosenblum author of *The Jewish Dietary Laws in the Ancient World* Jewish Veganism and Vegetarianism offers theological pragmatic ethical environmental and other ways to view non meat eating as a viable healthy and holy Judaic strategy to consume the world Anyone who eats or thinks about eating should take this volume seriously Rabbi Jonathan K Crane author of *Eating Ethically* Religion and Science for a Better Diet From the Talmud's ambivalence about human and animal suffering to the challenges of

making a vegan matzo ball Jewish Veganism and Vegetarianism offers surprising views of the many ways Jewish practice Jewish culture and individual Jews acted and reacted in their encounters with a vegetable diet This important and overdue book does much to introduce a long neglected chapter of Jewish culinary practice and to inspire and instruct future research Eve Jochnowitz cotranslator of Fania Lewando s *The Vilna Vegetarian Cookbook Garden Fresh Recipes Rediscovered and Adapted for Today s Kitchen*

Animal Grace Mary Lou Randour,2011-02-08 *Animal Grace* explores the human animal relationship as a path to enlightenment Randour calls for readers to examine how their lives intersect with members of other species and ensure that those interactions are based on compassion and respect

Hartshorne and the Metaphysics of Animal Rights Daniel A. Dombrowski,1988-01-01 Charles Hartshorne is one of the premier metaphysicians and philosophers of religion in the twentieth century He has written extensively on animals both as a philosopher of nature and as an expert on bird song Since the publication of *Creative Synthesis and Philosophic Method* in 1970 he has devoted a great deal of attention to animals Among the main issues he advances is that the relationship between human beings and animals helps us to better understand our relationship with God

Deep Vegetarianism , Challenging the basic assumptions of a meat eating society *Deep Vegetarianism* is a spirited and compelling defense of a vegetarian lifestyle Considering all of the major arguments both for and against vegetarianism and the habits of meat eaters vegetarians and vegans alike Michael Allen Fox addresses vegetarianism s cultural historical and philosophical background details vegetarianism s impact on one s living and thinking and relates vegetarianism to classical and recent defenses of the moral status of animals Demonstrating how a vegetarian diet is related to our awareness of the world and our ethical outlook on life Fox looks at the different kinds of vegetarian commitments people make and their reasons for making them In chapters that address such issues as the experiences emotions and grounds that are part of choosing vegetarianism Fox discusses not only good health animal suffering and the environmental impacts of meat production but such issues as the meaning of food world hunger religion and spirituality and significantly the links share between vegetarianism and other human rights movements and ideologies particularly feminism In an extensive chapter that addresses arguments made by advocates of meat eating Fox speaks to claims of humans as

natural carnivores animals as replaceable and vegetarians as anti feminist He also addresses arguments surrounding the eating habits of indigenous peoples eating free range animals and carnivorous behavior among animals The most complete examination of the vegetarian outlook to date Deep Vegetarianism reveals the broad range of philosophical views that contribute to such a choice It recognizes and calls for a conscious awareness of and an individual responsibility to the issues that exist in the moral political and social spheres of our existence With its lively and controversial discussion Deep Vegetarianism promises to appeal to anyone looking to explore the relationship between dietary choice lifestyle the treatment of animals and the environment and personal ethical responsibility It will also be particularly useful for students and teachers of moral philosophy ethics religion comparative cultures ecology and feminism **Vegetarian Times** ,1994-08 To do what no other magazine does Deliver simple delicious food plus expert health and lifestyle information that s exclusively vegetarian but wrapped in a fresh stylish mainstream package that s inviting to all Because while vegetarians are a great vital passionate niche their healthy way of eating and the earth friendly values it inspires appeals to an increasingly large group of Americans VT s goal To embrace both **Judaism and Vegetarianism** Richard H. Schwartz,2001 From God s first injunction Behold I have given you every herb yielding seed which is upon the face of all the earth and every tree in which is the fruit of a tree yielding seed to you it shall be for food Gen 1 29 The Hebrew Bible offers countless examples of how God intends a compassionate and caring attitude toward animals our health and the health of the planet This attitude as Richard Schwartz shows in his pioneering work now fully revised has been a constant theme throughout Judaism to the present day Indeed Judaism s particular concern for tikkun olam a healing of the world has never been more urgent today given the current state of world hunger environmental degradation and the horror of factory farms Dr Schwartz shows not only how Judaism is particularly well suited to solving these problems but how doing so can revitalize one s Jewish faith

Communication and Society in Jewish American Short Stories: Isaac Bashevis Singer, Bernard Malamud, Grace Paley and Philip Roth Kristina Maul,2007 Examination Thesis from the year 2005 in the subject American Studies Literature grade 2 0 Friedrich Alexander University Erlangen Nuremberg Institut f r Anglistik und Amerikanistik language English abstract EXPOS It is change continuing change inevitable change that is the dominant factor in society today No sensible decision can be made any longer without taking into account not only the world as it is but the world as it will be <http://www.memorablequotations.com> This quotation by science fiction writer Isaac Asimov deals with two fundamental issues of this paper change and society All of our protagonists will as is one of the characteristics of the short story be shown at a turning point effecting change in their lives Also I am going to concentrate on the relationship between the tales central characters and society Do they need society as a point of reference or are they leading their lives independently from and with no relationship to the culture surrounding them Do they come from another for example Eastern European background If yes can they adapt easily do they have difficulties adapting or do they not intend to adapt at all Pointing out that Isaac Asimov is

Jewish and therefore potentially relevant for this paper is superfluous Yet not every author who happens to be Jewish can automatically be significant for this paper For me a certain amount of Jewishness that is Jewish characters a piece of Jewish tradition religion or the presence of a Jewish neighborhood was required for a tale to be considered This restriction would still leave thousands of authors and millions of narratives Therefore I chose to treat only New York authors and selected their stories among other criteria according to setting that is their main location had to be New York City Hence I included Grace Paley and left out perhaps better known writers for example Saul Bellow who is generally associated

Sandinó's Communism Donald C. Hodges, 2014-02-01 Drawing on previously unknown or unassimilated sources Donald C Hodges here presents an entirely new interpretation of the politics and philosophy of Augusto C Sandino the intellectual progenitor of Nicaragua's Sandinista revolution The first part of the book investigates the political sources of Sandino's thought in the works of Babeuf Buonarroti Blanqui Proudhon Bakunin Most Malatesta Kropotkin Ricardo Flores Magón and Lenin a mixed legacy of pre-Marxist and non-Marxist authoritarian and libertarian communists The second half of the study scrutinizes the philosophy of nature and history that Sandino made his own Hodges delves deeply into this philosophy as the supreme and final expression of Sandino's communism and traces its sources in the Gnostic and millenarian occult undergrounds This results in a rich study of the ways in which Sandino's revolutionary communism and communist spirituality intersect a spiritual politics that Hodges presents as more realistic than the communism of Karl Marx While accepting the current wisdom that Sandino was a Nicaraguan liberal and social reformer Hodges also makes a persuasive case that Sandino was first and foremost a communist although neither of the Marxist nor anarchist variety He argues that Sandino's eclectic communist spirituality was more of an asset than a liability for understanding the human condition and that his spiritual politics promises to be more relevant than Marxism Leninism for the twenty-first century Indeed Hodges believes that Sandino's holistic communism embraces both deep ecology and feminist spirituality a finding that is sure to generate lively and productive debate

Vegetarianism and Veganism in Literature from the Ancients to the Twenty-First Century Theophilus Savvas, 2024-05-29 Vegetarianism and Veganism in Literature from the Ancients to the Twenty First Century re assesses both canonical and less well known literary texts to illuminate how vegetarianism and veganism can be understood as literary phenomena as well as dietary and cultural practices It offers a broad historical span ranging from ancient thinkers and writers such as Pythagoras and Ovid to contemporary novelists including Ruth L Ozeki and Jonathan Franzen The expansive historical scope is complemented by a cross cultural focus which emphasises that the philosophy behind these diets has developed through a dialogic relationship between east and west The book demonstrates also the way in which carnivorousism has functioned as an ideology one which has underpinned actions harmful to both human and non human animals
