the apple of parents eyes A very common saying that we have heard from our childhood days and experience it the time we  
have become parents Each and every parent has a huge responsibility of raising children with good habits behaviors attitude  
moral ethics and values Among all these important aspects instilling good eating habits and providing wholesome  
nourishment to children is a prime most responsibility of parents As they say a healthy outside begins from a healthy inside  
Childhood is a critical period for growth and development hence it is essential that food supplies the energy protein vitamins  
and minerals that a child needs Children must also drink plenty of water for a good bowel movement and to stay hydrated in  
their schedule Kids are known to be picky eaters irrespective of the age group they belong to Making them eat healthy food  
and help them stay active is quite a struggle these days They often develop a natural preference for the food they enjoy  
eating the most So the challenge is to make healthy choices appealing One simple solution will be to cover up the healthy  
meals under the wrap of their favorite food Without making healthy food dull a good make over with staples like multigrain  
ragi and wheat accompanied by goodness of vegetables and fruits will be an instant hit We must devise ways and means to  
cook smart and serve innovatively Recipes like Ragi noodles tumbler idly beetroot roti spinach dosa assorted mini adai and
