Food In Civilization How History Has Been Affected By Human Tastes:

Food in Civilization Carson I. A. Ritchie,1981-01-01 This book argues that food has influenced the world more than geography wars or culture It explores the spread of prehistoric agriculture through the growth of ancient civilizations as well as the lure of the spice trade and finally the effect of technology on the production and transportation of food National food policy continues this powerful force

Ecocide Franz Broswimmer,2002-09-20 We live in an age of ecocide Changes of enormous ecological significance are occurring on our planet the ozone layer is beginning to disintegrate Since 1970 the world s forests have almost halved A quarter of the world s fish have been depleted 70% of biologists believe the world is now in the midst of the fastest mass extinction of species in the planet s 4 5 billion year history Biodiversity loss is rated as a more serious environmental problem than the depletion of the ozone layer global warming or pollution and contamination How have we come to this and what can be done to conserve our environment for the future Ecocide examines the facts behind the figures to offer a disturbing account of the ecological impact that the human species has on the planet It shows how we are wilfully destroying our world Highlighting important countermovements who are working for ecological democracy this unique book is essential for anyone who cares about conserving our environment for the future

Big History Cynthia Stokes Brown,2012-11-06 This exciting saga crosses space and time to illustrate how humans born of stardust were shaped and how they in turn shaped the world we know today Publishers Weekly This book offers world history on a grand scale pulling back for a wider view and putting the relatively brief time span of human history in context After all our five thousand years of recorded civilization account for only about one millionth of the lifetime of our planet Kirkus Reviews Big History interweaves different disciplines of knowledge drawing on both the natural sciences and the human sciences to offer an all encompassing account of history on Earth This new edition is more relevant than ever before as we increasingly grapple with accelerating rates of change and ultimately the legacy we will bequeath to future generations Here is a path breaking portrait of our world from the birth of the universe from a single point the size of an atom to life on a twenty first century planet inhabited by seven billion people

The Viandier of Taillevent Taillevent,1988 The Viandier is the most important early recipe collection of mediaeval France Written in the fourteenth century by Guillaume Tirel alias Taillevent the chief cook of King Charles V of France it is the starting point of many culinary traditions and practices that remain at the base of modern French haute cuisine This volume is the first to present all four extant manuscripts of the Viandier arranged in parallel for easy comparison The texts of the 220 recipes are in the original French but a complete English translation is provided Of particular interest are the differences between the four manuscripts which represent more than a century of modifications in gastronomic tastes and culinary practices in French seigneurial life The commentary and notes that accompany the texts trace the significance of these modifications and indicate the influence the Viandier exercised on more recent cookery books throughout Europe This critical edition also includes a glossary and a bibliography In addition

selected recipes have been adapted with minimal modifications for modern use and arranged in a menu for six people Page 4 of cover

The World of Ancient Rome James W. Ermatinger, 2015-08-11 This study of Ancient Rome offers a fascinating glimpse of what Roman society was like from fashion to food to politics and recreation gathered from literary works art and archaeological remains While the political history and prominent figures of Ancient Rome are well known accounts of daily life in that time and place often remain untold This fascinating encyclopedia explores this period from a social and cultural perspective digging into the day to day activities of how Romans dressed what they ate how they worked and what they did for fun Drawing from recent archaeological evidence author James W Ermatinger explores the everyday lives of Roman citizens of all levels and classes This book is organized into ten sections art economics family fashion food housing politics recreation religion and science Each section contains more than two dozen entries that illuminate such topics as slavery as a social movement the menus of peasants slaves and the elite and the science and engineering solutions that became harbingers for today's technology The work contains a selection of primary documents as well as a bibliography of print and Internet resources

Animal Oppression and Human Violence David Nibert, 2013-04-30 By comparing practices of animal exploitation for food and resources in different societies over time David A Nibert finds in the domestication of animals which he renames domesecration a perversion of human ethics the development of large scale acts of violence disastrous patterns of destruction and epidemics of infectious disease

Bread, Beer and the Seeds of Change Thomas R. Sinclair, Carol Janas Sinclair, 2010 The history of humankind is intimately tied to the history of agriculture powerful societies rose persisted and waned in parallel with their food supply systems Describing what crops were grown the constraints on their production and the foods that were obtained this book traces the impact of cropping and food preparation in ten societies that were among the most powerful and influential in history detailing how technology varied and developed as it related directly to agriculture and food production The book initially considers growing and eating grains beginning with the transition from hunter gatherers to agrarian communities Five early agricultural societies are examined followed by the advancement of technology from the ancient Greeks and Romans to the present It concludes by addressing the implications for the future of agriculture and food supply as grain production moves towards biofuels A compelling text for all those interested in the

history of society and Art, Culture, and Cuisine Phyllis Pray Bober, 2001-06 How we define prepare and consume food can detail a full range of social expression Examining the subject through the dual lens of archaeology and art history this book argues that cuisine as an art form deserves a higher reputation **The Tomato in America** Andrew F. Smith, 2001 From the Americas to Australasia from northern Europe to southern Africa the tomato tickles the world's taste buds Americans along devour more than twelve million tons annually of this peculiar fruit variously considered poisonous curative and aphrodisiacal In this first concerted study of the tomato in America Andrew F Smith separates myth from historical fact beginning with the Salem New Jersey man who in 1820 allegedly attracted spectators from hundreds of miles to watch him eat a tomato on the courthouse steps the legend says they expected to see him die a painful death Later hucksters such as Dr John Cook Bennett and the Amazing Archibald Miles peddled the tomato's purported medicinal benefits The competition was so fierce that the Tomato Pill War broke out in 1838 The Tomato in America traces the early cultivation of the tomato its infiltration of American cooking practices the early manufacture of preserved tomatoes and ketchup soon hailed as the national condiment of the United States and the great tomato mania of the 1820s and 1830s The book also includes tomato recipes from the pre Civil War period covering everything from sauces soups and main dishes to desserts and sweets Now available for the first time in paperback The Tomato in America provides a piquant and entertaining look at a versatile and storied figure in culinary history **World Food Supplies** Jayne T. MacLean, 1987 *World Food Supplies, 1980-March 1987* Jayne T. MacLean, 1987 War Stuff Joan E. Cashin, 2018-05-31 In this path breaking work on the American Civil War Joan E Cashin explores the struggle between armies and civilians over the human and material resources necessary to wage war This war stuff included the skills of white Southern civilians as well as such material resources as food timber and housing At first civilians were willing to help Confederate or Union forces but the war took such a toll that all civilians regardless of politics began focusing on their own survival Both armies took whatever they needed from human beings and the material world which eventually destroyed the region's ability to wage war In this fierce contest between civilians and armies the civilian population lost Cashin draws on a wide range of documents as well as the perspectives of environmental history and material culture studies This book provides an entirely new perspective on the war era Child Obesity Goutham Rao, 2010-08-05 A nationally recognised expert on child obesity Dr Rao uses the latest and best medical evidence available to show you how to help your child avoid or overcome the prevalent and dangerous health problem of overweight In the first part he gives you the knowledge you need to understand the scope of the problem In the second part he carefully explains a rational approach to helping your child achieve or maintain a healthy weight including the science of changing people's behavior Dr Rao makes it clear that despite all the talk about low carb and other fad diets there are no magic bullets for treating childhood obesity But the good news is that armed with the right information parents can reverse this unhealthy trend and succeed in helping their children become fit trim and happy Spices Fred Czarra, 2009-05-01 The scent of

oregano immediately conjures the comforts of Italian food curry is synonymous with Indian flavor and the fire of chili peppers ignites the cuisine of Latin America Spices are often the overlooked essentials that define our greatest eating experiences In this global history of spices Fred Czarra tracks the path of these fundamental ingredients from the trade routes of the ancient world to the McCormick's brand's contemporary domination of the global spice market Focusing on the five premier spices black pepper cinnamon nutmeg cloves and chili pepper while also relating the story of many others along the way Czarra describes how spices have been used in cooking throughout history and how their spread has influenced regional cuisines around the world Chili peppers for example migrated west from the Americas with European sailors and spread rapidly in the Philippines and then to India and the rest of Asia where the spice quickly became essential to local cuisines The chili pepper also traveled west from India to Hungary where it eventually became the national spice paprika Mixing a wide range of spice fact with fascinating spice fable such as giant birds building nests of cinnamon Czarra details how the spice trade opened up the first age of globalization prompting a cross cultural exchange of culinary technique and tradition This savory spice history will enliven any dinner table conversation and give that meal an unforgettable dash of something extra *Weirding the War* Stephen Berry, 2011-10-01 It is well that war is so terrible Robert E Lee reportedly said or we would grow too fond of it The essays collected here make the case that we have grown too fond of it and therefore we must make the war terrible again Taking a freakonomics approach to Civil War studies each contributor uses a seemingly unusual story incident or phenomenon to cast new light on the nature of the war itself Collectively the essays remind us that war is always about damage even at its most heroic and even when certain people and things deserve to be damaged Here then is not only the grandness of the Civil War but its more than occasional littleness Here are those who profited by the war and those who lost by it and not just those who lost all save their honor but those who lost their honor too Here are the cowards the coxcombs the belles the deserters and the scavengers who hung back and so survived even thrived Here are dark topics like torture hunger and amputation Here in short is war **Quick Bibliography Series**, 1976 *The Barbarian's Beverage* Max Nelson, 2005-02-25 Comprehensive and detailed this is the first ever study of ancient beer and its distilling consumption and characteristics Examining evidence from Greek and Latin authors the book demonstrates the contributions the Europeans made to beer throughout the ages *The Mexican Chile Pepper Cookbook* Dave DeWitt, José C. Marmolejo, 2022-04-15 The Mexican Chile Pepper Cookbook is the first book to explore the glories of Mexican regional cooking by focusing on this single but endlessly variable ingredient Authors Dave DeWitt and Jos C Marmolejo feature more than 150 recipes that celebrate the role of chiles across appetizers soups and stews tacos enchiladas tamales moles and vegetarian dishes Comprehensive glossaries of Mexican chiles cheeses and food terminology are also included Savor the history culture and recipes of Mexican regional home cooking highlighted in this unique full color cookbook and explore the various chile peppers showcased in this spicy trek south of the border The only thing left to do is decide which recipe to try next **Flax** Alister D. Muir, Neil D.
