Food in Russian History and Culture Musya Glants, Joyce Toomre, 1997-08-22 This Collection of Original Essays gives surprising insights into what foodways reveal about Russia's history and culture from Kievan times to the present. A wide array of sources including chronicles, diaries, letters, police records, poems, novels, folklore, paintings, and cookbooks help to interpret the moral and spiritual role of food in Russian culture. Stavelore in Russian folk life, fasting in Russian peasant culture, food as power in Dostoevsky's fiction, Tolstoy and vegetarianism, restaurants in early Soviet Russia, Soviet cookery and cookbooks, and food as art in Soviet paintings are among the topics discussed in this appealing volume.

Food Cultures of the World Encyclopedia Ken Albala, 2011-05-25 This comprehensive reference work introduces food culture from more than 150 countries and cultures around the world, including some from remote and unexpected peoples and places. From babka to baklava to the groundnut stew of Ghana, food culture can tell us where we've been and maybe even where we're going. Filled with succinct yet highly informative entries, the four-volume *Food Cultures of the World Encyclopedia* covers all of the planet's nation states as well as various tribes and marginalized peoples. Thus, in addition to coverage on countries as disparate as France, Ethiopia, and Tibet, there are also entries on Roma Gypsies, the Maori of New Zealand, and the Saami of northern Europe. There is even a section on food in outer space, detailing how and what astronauts eat and how they prepare for space travel. As far as diet and nutrition are concerned, each entry offers information about foodstuffs, meals, cooking methods, recipes, eating out, holidays, and celebrations, and health and diet. Vignettes help readers better understand other cultures, while the inclusion of selected recipes lets them recreate dishes from other lands.

The Kingdom of Rye Darra Goldstein, 2022-05-24 Introduction The land and its flavors Hardship and hunger Hospitality and excess Coda post-Soviet Russia , **Cuisine and Empire** Rachel Laudan, 2015-04-03 Rachel Laudan tells the remarkable story of the rise and fall of the world's great cuisines from the mastery of grain cooking some twenty thousand years ago to the present. In this superbly researched book, probing beneath the apparent confusion of dozens of cuisines to reveal the underlying simplicity of the culinary family tree, she shows how periodic seismic shifts in culinary philosophy, beliefs about health, the economy, politics, society, and the gods prompted the construction of new cuisines, a handful of which

chosen as the cuisines of empires came to dominate the globe Cuisine and Empire shows how merchants missionaries and the military took cuisines over mountains oceans deserts and across political frontiers Laudan s innovative narrative treats cuisine like language clothing or architecture as something constructed by humans By emphasizing how cooking turns farm products into food and by taking the globe rather than the nation as the stage she challenges the agrarian romantic and nationalistic myths that underlie the contemporary food movement Food & Everyday Life in the Postsocialist World

Cultures of the Abdomen C. Forth, A. Carden-Coyne, 2005-01-14 We live in a world obsessed with abdomens Whether we call it the belly tummy or stomach we take this area of the body for granted as an object of our gaze the subject of our obsessions and the location of deeply felt desires Diet nutrition and exercise all play critical roles in the development of our body images and thus our sense of self not least because how we are made to feel about bodies both our own and those of others is often grounded in dietary and lifestyle choices *Cultures of the Abdomen* traces the history of social cultural and medical ideas about the stomach and related organs since the seventeenth century and demonstrates that a focused study of the abdomen is necessary for understanding the deep historical meanings that underscore our contemporary obsessions with hunger diet fat indigestion and excretion It locates that history from dietary ideals in early modern Europe to the vexing issue of American fat in the twenty first century surveying along the way developments in Britain France Germany Italy and Russia Russia's Carnival Christoph Neidhart, 2003 This colorfully drawn and acutely observed book explores Russia by engaging all our senses Today s Russia smells different from the Soviet Union The country looks and sounds different its touch is different and its food tastes different Thus Christoph Neidhart argues Russia is truly a changed country from the Soviet Union it was little more than a decade ago Russian society is rapidly urbanizing and modernizing as can be perceived by all senses including the awareness of space and the conception of time After almost a century space can be privately owned and freely traded time too has become commodified New role models and new ways to express social status are emerging Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete Russia thus readies itself gradually to grow into a Western style middle class society with a free market and democratic polity The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of the Communist structure of society He explores the transition s traps and shortcomings such as the privatization of politics and the looting of the state s assets and compares this process to the modernization Western society underwent a century earlier **The Life Cycle of Russian Things** Matthew P. Romaniello, Alison K. Smith, Tricia Starks, 2021-09-09 *The Life Cycle of Russian Things* re orients commodity studies using interdisciplinary and comparative methods to foreground unique

Russian and Soviet materials as varied as apothecary wares isinglass limestone and tanks It also transforms modernist and Western interpretations of the material by emphasizing the commonalities of the Russian experience Expert contributors from across the United States Canada Britain and Germany come together to situate Russian material culture studies at an interdisciplinary crossroads Drawing upon theory from anthropology history and literary and museum studies the volume presents a complex narrative not only in terms of material consumption but also in terms of production and the secondary life of inheritance preservation or even destruction In doing so the book reconceptualises material culture as a lived experience of sensory interaction The Life Cycle of Russian Things sheds new light on economic history and consumption studies by reflecting the diversity of Russia s experiences over the last 400 years **Classic Russian Cooking** Elena
