**Piety and Politics** Dale Launderville, 2003  
Ancient kings who did not honor the gods overlooked an indispensable means for ruling effectively in their communities In many traditional societies royal authority was regarded as a divine gift bestowed according to the quality of the relationship of the king both to God or the gods and to the people The tension and the harmony within these human and divine relationships demanded that the king repeatedly strive to integrate the community's piety with his political strategies This fascinating study explores the relationship between religion and royal authority in three of history's most influential civilizations Homeric Greece biblical Israel and Old Babylonian Mesopotamia Dale Launderville identifies similar contrasting and analogous ways that piety functioned in these distinct cultures to legitimate the rule of particular kings and promote community well being Key to this religiopolitical dynamic was the use of royal rhetoric which necessarily took the form of political theology By examining a host of ancient texts and drawing on the insights of philosophers poets historians anthropologists social theorists and theologians Launderville shows how kings increased their status the more they demonstrated through their speech and actions that they ruled on behalf of God or the gods Launderville's work also sheds light on a number of perennial questions about ancient political life How could the people call the king to account Did the people forfeit too much of their freedom and initiative by giving obedience to a king who symbolized their unity as a community How did the religious traditions serve as a check on the king's power and keep alive the voice of the people This study in comparative political theology elucidates these engaging concerns from multiple perspectives making Piety and Politics of interest to readers in fields ranging from biblical studies and theology to ancient history and political science

The Religion of the Ancient Celts John Arnott MacCulloch, 2003-01-01 This classic study by a distinguished scholar first published in 1911 builds upon the surviving texts of the ancient Celtic religion as well as current folk customs Topics include nature worship and customs related to the culture of the dead including rites of rebirth and transmigration The Work of
