Food As A Human Right

Das Menschenrecht auf soziale Sicherheit Ingo Stamm, 2015-06-17 Welchen Einfluss haben die sozialen Menschenrechte auf den heutigen Sozialstaat Dieser Frage geht Ingo Stamm in seiner rechtssoziologischen Studie nach Obwohl die Menschenrechte seit der Verabschiedung der Allgemeinen Erklärung der Menschenrechte in zahlreichen internationalen und supranationalen Verträgen verankert wurden finden sie de facto kaum Beachtung So auch das Recht auf soziale Sicherheit wie es unter Artikel 9 des UN Sozialpaktes festgeschrieben ist Im Rahmen dieses Rechts legt der Autor seinen Fokus auf das Risiko Arbeitslosigkeit und analysiert das sozialpolitische Handeln in Deutschland und Finnland Am Beispiel der gegenwärtigen Arbeitslosensicherungssysteme Setzt er das dort vorgefundene Menschenbild in Kontrast zum Menschenbild der Menschenrechte Hierfür untersucht er unter Anwendung der Objektiven Hermeneutik Dokumente aus beiden Ländern Das Ergebnis zeigt dass beide Länder wenngleich auch in unterschiedlicher Intensität arbeitslosen Personen weite Teile ihrer Autonomie entziehen indem sie sie zu Erziehungsobjekten machen Beide Staaten laufen dabei Gefahr das Autonomieversprechen der sozialen Menschenrechte zu missachten Mit der Fokussierung auf das Recht auf Einkommen in der Arbeitslosigkeit gewinnt die Studie an zusätzlicher Brisanz wird doch in vielen europäischen Ländern im Zuge der aktivierenden Arbeitsmarktpolitik immer strenger eine Gegenleistung von den Leistungsempfängern der Sozialen Sicherheit gefordert bzw werden Sanktionen gegen Bürger eingeleitet die zu wenige arbeitsmarktrelevante Aktivitäten vorweisen können

Bellows, Flavio L.S. Valente, Stefanie Lemke, María Daniela Núñez Burbano de Lara, 2015-12-07 This book introduces the human right to adequate food and nutrition as evolving concept and identifies two structural disconnects fueling food insecurity for a billion people and disproportionately affecting women children and rural food producers the separation of women's rights from their right to adequate food and nutrition and the fragmented attention to food as commodity and the medicalization of nutritional health Three conditions arising from these disconnects are discussed structural violence and discrimination frustrating the realization of women's human rights as well as their private and public contributions to food and nutrition security for all many women's experience of their and their children's simultaneously independent and intertwined subjectivities during pregnancy and breastfeeding being poorly understood in human rights law and abused by poorly regulated food and nutrition industry marketing practices and the neoliberal economic system's interference both with the autonomy and self determination of women and their communities and with the strengthening of sustainable diets based on democratically governed local food systems The book calls for a social movement

The right to adequate food is firmly established in international human rights law. It is among those most cited in solemn declarations and most violated in practice. In a landmark decision the 1996 World Food Summit decided to break with the all too familiar right to food rhetoric and requested a clarification of the content of the right to food and the fundamental right of everyone to be free from hunger and the means for its implementation. Since then much efforts have gone into further conceptualisation of social and cultural rights in general and the right to adequate food in particular. UN agencies, scholars, interested governments and civil society have joined forces in attempting to provide a foundation for national and international follow up of the recommendations of the World Food Summit reinforced by the Millennium Development Goals. This first of two volumes provides evidence of some of this work and gives direction for future activities to promote and protect the right to adequate food for all. It has contributions from some 15 authors who have all been directly involved from different angles in the advancement of the right to food and related human rights over the past years. Besides introducing the concept of the right to food and elaborating on its theoretical basis and meaning in development it provides several recent examples from work both at the national and international level to apply it in practical situations and with a special view to how to go about identifying the corresponding obligations of states and complementary duties and responsibilities of non state actors and international organisations. Finally several chapters address the right to food under special circumstances and for special groups needing particular attention. The book is the first of its kind on the right to food as a human right. It is not a textbook but is intended to inform and stimulate further debate among scholars, policy makers and practitioners and activists alike on some of the major issues of concern in applying a right based approach to alleviating food insecurity, hunger and malnutrition and in promoting access to and consumption of nutritionally adequate, safe and culturally acceptable food on a sustainable basis for all. It is now evident that with the current pace of events the goal set by the WFS and the MDG of halving poverty and hunger by 2015 will not be achieved. There is a growing need to watch some of the possible effects of rapid economic globalisation and market liberalisation on food and nutrition security conditions and to promote countervailing measures to offset their most negative consequences particularly for vulnerable groups. The right to food is a first test case of the extent to which the application of economic, social and cultural rights can effectively exert such counterforce in an increasingly economics and market driven international climate and enhance progress towards established goals.
