Environment, Revisited Phaedra. C Pezzullo, 2013-10-31 The environment is perhaps most misunderstood as a static place somewhere out there separated from the practices of our everyday lives Given this assumption environmental movements and concerns have remained mostly marginalized or denigrated in cultural studies publications conferences and presentations Recent global developments have made changing this oversight and at times direct resistance to engaging environmental concerns a new priority This edited collection illustrates an appreciation of the dynamic palpable and significant ways the environment permeates culture and vice versa as well as a collective commitment to the ways that cultural studies has more to offer and to learn from taking environmental matters to heart Like foundational categories of identity economics and historical context this collection reminds us why the environment is and should be considered relevant to any work done in the name of cultural studies Including research from four continents and across media the authors offer insights on timely topics such as food tourism human animal relations forests queer theory indigenous rights and water This book was published as a special issue of Cultural Studies Routledge International Handbook of Food Studies Ken Albala, 2013-05-07 Over the past decade there has been a remarkable flowering of interest in food and nutrition both within the popular media and in academia Scholars are increasingly using foodways food systems and eating habits as a

new unit of analysis within their own disciplines and students are rushing into classes and formal degree programs focused on food. Introduced by the editor and including original articles by over thirty leading food scholars from around the world, the Routledge International Handbook of Food Studies offers students, scholars, and all those interested in food-related research a one-stop, easy-to-use reference guide. Each article includes a brief history of food research within a discipline or on a particular topic, a discussion of research methodologies and ideological or theoretical positions, resources for research including archives, grants, and fellowship opportunities, as well as suggestions for further study. Each entry also explains the logistics of succeeding as a student and professional in food studies. This clear, direct Handbook will appeal to those hoping to start a career in academic food studies as well as those hoping to shift their research to a food-related project. Strongly interdisciplinary, this work will be of interest to students and scholars throughout the social sciences and humanities.

The Senses in Performance Sally Banes, Andre Lepecki, 2012-08-21 This ground-breaking anthology is the first to be dedicated to assessing critically the role of the human sensorium in performance. *Senses in Performance* presents a multifaceted approach to the methodological, theoretical, practical, and historical challenges facing the scholar and the artist. This volume examines the subtle actions of the human senses including taste, touch, smell, and vision in all sorts of performances in Western and non-Western traditions, from ritual to theatre, from dance to interactive architecture, from performance art to historical opera. With eighteen original essays brought together by an international ensemble of leading scholars and artists including Richard Schechner and Philip Zarrilli, this covers a variety of disciplinary fields from critical studies to performance studies, from food studies to ethnography, from drama to architecture. Written in an accessible way, this volume will appeal to scholars and non-scholars interested in Performance, Theatre Studies, and Cultural Studies.

Food in American Culture and Literature Carl Boon, Nuray Önder, Evrim Ersöz Koç, 2020-03-18 Carving a unique space within the burgeoning field of food studies, the essays gathered in this volume position themselves at a variety of flashpoints along the spectrum of cultural and literary analysis. While some remain firmly entrenched in traditional genre analysis, some extend toward history and sociology, giving this collection a multifaceted perspective. The finest of these essays stand as cultural critiques, forcing the reader to consider what food means and will mean in the United States.

Narrative, Political Unconscious and Racial Violence in Wilmington, North Carolina Leslie H. Hossfeld, 2005 First Published in 2005, Routledge is an imprint of Taylor & Francis, an informal company.

America's Fight Over Water Kevin Wehr, 2005-01-01 This book inquires into the relations between society and its natural environment by examining the historical discourse around several cases of state building in the American West: the construction of three high dams from 1928 to 1963.

Daughters of Eve Else L. Hambleton, 2004-04-01 This study examines cases of fornication, bastardy, and paternity cases brought before the courts in Essex County, Massachusetts, between 1640 and 1692. Prosecution and conviction rates, sentencing patterns, and socio-economic data, as well as attitudes, were analyzed to determine that women who bore illegitimate children were punished more severely than their

male partners and regarded with contempt by the majority of women **Popular Culture and the Enduring Myth of Chicago, 1871-1968** Lisa Krissoff Boehm, 2004-09-28 This book is an examination of the image of Chicago in American popular culture between the Great Chicago Fire of 1871 and Chicago's 1968 Democratic National Convention

Rethinking the Red Scare Todd J. Pfannestiel, 2004-06-01 Using New York as a lens this book examines the Red Scare that gripped America between 1919-1923 and the pattern it established for future episodes of political repression. It also presents the first in-depth study of the Soviet Bureau, the unofficial Bolshevik embassy that attempted to establish commercial ties with American businessmen as well as the development of the Rand School as one of the nation's first working class oriented schools *In and Out* Sophie Aymes-Stokes, Laurent Mellet, 2012-04-25 The aim of the book is

twofold: first to provide an overview of the critical history of eccentricity and secondly to conceptualise a notion that is often presented as a defining feature of the English character. It addresses the key issues raised by eccentricity and brings out interdisciplinary links between science, politics, literature and the arts, the sources and dissemination of the concept of eccentricity, its relationship with the English national character as historical and ideological constructs, the structural need for variation and divergence within accepted social norms, the paradoxical status of the eccentric as outsider when eccentricity is transgressive and alienating and as insider eccentricity as socially acceptable deviation. Fundamentally, eccentricity is a normative notion being ex-centred enables eccentrics to delineate and negotiate boundaries between the margins and the centre, the canon and the norm. The contributors question the links between eccentricity, diversity and originality, the value of individual experience and character and as a corollary the struggle to retain individuality against increasing standardization, commoditisation and channelling within the normative discourse of normality. Eccentricity as display and performance is also tackled in several chapters which focus on reception, image and self-representation, exhibition and voyeurism **Approaches to Media Literacy: A Handbook** Art Silverblatt, Jane Ferry, Barbara Finan, 2015-01-28

Completely updated with current examples and new coverage of digital media, this popular handbook provides a range of qualitative approaches that enable students to effectively decipher information conveyed through the channels of mass communication: photography, film, radio, television and interactive media. Its aim is to help students develop critical thinking skills and strategies with regard to what media to use and how to interpret the information that they receive. The techniques include ideological, autobiographical, nonverbal and mythic approaches. An Instructor's Manual is available to professors who adopt this new edition **Deconstructing Post-WWII New York City** Robert Bennett, 2013-12-02 Situating post-WWII

New York literature within the material context of American urban history, this work analyzes how literary movements such as the Beat Generation, the New York poets and Black Arts Movement criticized the spatial restructuring of post-WWII New York City **The Literature of Immigration and Racial Formation** Linda Joyce Brown, 2004-09-22 This work examines

early twentieth century literature about women immigrants in order to reveal the differing ways that American racial

categories and identities particularly that of whiteness were textually and socially constructed at the beginning of the twentieth century **Books and Libraries in American Society during World War II** Patti Clayton Becker, 2013-09-13

World War II presented America's public libraries with the daunting challenge of meeting new demands for war related library services and materials with Depression weakened collections inadequate budgets and demoralized staff in addition to continuing to serve the library's traditional clientele of women and children seeking recreational reading This work examines how libraries could respond to their communities need through the use of numerous primary and secondary sources
