Footsoldiers Of The Universal Negro Improvement Association Their Own Words Their Own Words:

Footsoldiers of the Universal Negro Improvement Association Jeannette Smith-Irvin, 1989 Interviews with Thomas W Harvey John Charles Zampty John Vincent Arnold L Crawford Ruth Smith Charles Lionel James Amy Jacques Garvey

Manliness and Its Discontents Martin Summers, 2005-12-15 In a pathbreaking new assessment of the shaping of black male identity in the early twentieth century Martin Summers explores how middle class African American and African Caribbean immigrant men constructed a gendered sense of self through organizational life work leisure and cultural production Examining both the public and private aspects of gender formation Summers challenges the current trajectory of masculinity studies by treating black men as historical agents in their own identity formation rather than as screens on which white men projected their own racial and gender anxieties and desires *Manliness and Its Discontents* focuses on four distinct yet overlapping social milieus the fraternal order of Prince Hall Freemasonry the black nationalist Universal Negro Improvement Association or the Garvey movement the modernist circles of the Harlem Renaissance and the campuses of historically black Howard and Fisk Universities Between 1900 and 1930 Summers argues dominant notions of what it meant to be a man within the black middle class changed from a Victorian ideal of manliness characterized by the importance of producer values respectability and patriarchy to a modern ethos of masculinity which was shaped more by consumption physicality and sexuality Summers evaluates the relationships between black men and black women as well as relationships among black men themselves broadening our understanding of the way that gender works along with class sexuality and age to shape identities and produce relationships of power *The Age of Charisma* Jeremy C. Young, 2017 This book

demonstrates how the modern relationship between leaders and followers in America grew out of late nineteenth and early twentieth century charismatic social movements **Renewing Black Intellectual History** Adolph Reed, Kenneth W. Warren, 2015-11-17 Reflecting critically on the discipline of African American studies is a complicated undertaking Making sense of the black American experience requires situating it within the larger cultural political economic and ideological dynamics that shape American life This volume moves away from privileging racial commonality as the fulcrum of inquiry and moves toward observing the quality of the accounts scholars have rendered of black American life This book maps the changing conditions of black political practice and experience from Emancipation to Obama with excursions into the Jim Crow era Black Power radicalism and the Reagan revolt Here are essays classic and new that define historically and conceptually discrete problems affecting black Americans as these problems have been shaped by both politics and scholarly fashion A key goal of the book is to come to terms with the changing terrain of American life in view of major Civil Rights court decisions and legislation *A History of Conversion to Islam in the United States, Volume 2* Patrick D.

Bowen, 2017-09-11 In *A History of Conversion to Islam in the United States Volume 2* The African American Islamic Renaissance 1920 1975 Patrick D Bowen offers an in depth account of African American Islam as it developed in the United

States during the fifty five years that followed World War I Having been shaped by a wide variety of intellectual and social influences the African American Islamic Renaissance appears here as a movement that was characterized by both great complexity and diversity Drawing from a wide variety of sources including dozens of FBI files rare books and periodicals little known archives and interviews and even folktale collections Patrick D Bowen disentangles the myriad social and religious factors that produced this unprecedented period of religious transformation 50 Events That Shaped African American History Jamie J. Wilson,2019-09-19 This two volume work celebrates 50 notable achievements of African Americans highlighting black contributions to U S history and examining the ways black accomplishments shaped American culture This two volume encyclopedia offers a unique look at the African American experience from the arrival of the first 20 Africans at Jamestown through the launch of the Black Lives Matter movement and the Ferguson Protests It illustrates subjects such as the Jim Crow period the Brown v Board of Education case that overturned segregation Jackie Robinson s landmark integration of major league baseball and the election of Barack Obama as president of the United States Drawing from almost 400 years of U S history the work documents the experiences and impact of black people on every aspect of American life Presented chronologically the selected events each include at least one primary source to provide the reader with a first person perspective These range from excerpts of speeches given by famous African American figures to programs from the March on Washington The remarkable stories collected here bear witness to the strength of a group of people who chose to survive and found ways to work collectively to force America to live up to the promise of its founding *An Efficient Womanhood* Natanya Duncan,2025-01-07 **New Perspectives on the Nation of Islam** Dawn-Marie Gibson,Herbert Berg,2017-02-17 New Perspectives on the Nation of Islam contributes to the ongoing dialogue about the nature and influence of the Nation of Islam NOI bringing fresh insights to areas that have previously been overlooked in the scholarship of Elijah Muhammad s NOI the Imam W D Mohammed community and Louis Farrakhan s Resurrected NOI Bringing together contributions that explore the formation practices and influence of the NOI this volume problematizes the history of the movement its theology and relationships with other religious movements Contributors offer a range of diverse perspectives making connections between the ideology of the NOI and gender dietary restrictions and foodways the internationalization of the movement and the civil rights movement This book provides a state of the art overview of current scholarship on the Nation of Islam and will be relevant to scholars of American religion and history Islamic studies and African American Studies *Global Garveyism* Ronald J. Stephens,Adam Ewing,2024-10-15 Illuminating the global impact of Marcus Garvey s Black nationalist philosophy Arguing that the accomplishments of Jamaican activist Marcus Garvey and his followers have been marginalized in narratives of the Black freedom struggle this volume builds on decades of overlooked research to reveal the profound impact of Garvey s post World War I Black nationalist philosophy around the globe and across the twentieth century These essays point to the breadth of Garveyism s spread and its reception in communities across the African diaspora

examining the influence of Garvey's Universal Negro Improvement Association (UNIA) in Africa, Australia, North America, and the Caribbean. They highlight the underrecognized work of many Garveyite women and show how the UNIA played a key role in shaping labor unions, political organizations, churches, and schools. In addition, contributors describe the importance of grassroots efforts for expanding the global movement; the UNIA trained leaders to organize local centers of power whose political activism outside the movement helped Garvey's message escape its organizational bounds during the 1920s. They trace the imprint of the movement on long-term developments such as decolonization in Africa and the Caribbean, the pan-Aboriginal fight for land rights in Australia, the civil rights and Black Power movements in the United States, and the radical pan-African movement. Rejecting the idea that Garveyism was a brief and misguided phenomenon, this volume exposes its scope, significance, and endurance. Together, contributors assert that Garvey initiated the most important mass movement in the history of the African diaspora and they urge readers to rethink the emergence of modern Black politics with Garveyism at the center. Contributors: Ronald J. Stephens, Adam Ewing, Keisha N. Blain, Nicole Bourbonnais, Jos Andr s Fern ndez Montes de Oca, John Maynard, Erik S. McDuffie, Frances Peace Sullivan, Robert Trent Vinson, Michael O. West. **African Americans and Political Participation** Minion K.C. Morrison, 2003-07-28. This handbook provides a thorough treatment of the various mechanisms African Americans have used to participate in U.S. political affairs from the colonial era to the present. With contributions by several of the field's experts, this concise, provocative volume explores the evolution and current status of African American political action. Focusing on distinct types of activity—protest politics, grassroots movements, electoral politics, political office holding—it charts the unique development of African Americans as they progressed from enslavement by whites to empowerment as citizens to an ever-growing influence on elections. As the book vividly demonstrates, African Americans' efforts to act on their own political behalf didn't begin in the 1960s. Even while enslaved, black people courageously launched petitions, instigated strikes on plantations, and staged full-blown revolts, creating a legacy of activism that expanded through the abolition movement, Reconstruction, the Jim Crow era, the post-World War II civil rights movement, and into the present. **Torchbearers of Democracy** Chad Louis Williams, 2010. In this important, sophisticated, and original study, Chad Williams establishes the centrality of black soldiers and veterans to the struggles against racial inequality during World War I, as no other book does. *Torchbearers of Democracy* sensitively examines the fraught connections between citizenship, obligation, and race while highlighting the diversity of black soldiers' experiences in fighting on behalf of a democracy that denied them rights and dignity. This is a major contribution to political, military, and civil rights history. Eric Arnesen, George Washington University. *Encyclopedia of African American History* Leslie M. Alexander, Walter C. Rucker, 2010-02-09. A fresh compilation of essays and entries based on the latest research, this work documents African American culture and political activism from the slavery era through the 20th century. *Encyclopedia of African American History* introduces readers to the significant people, events, sociopolitical movements, and ideas that have shaped African

American life from earliest contact between African peoples and Europeans through the late 20th century This encyclopedia places the African American experience in the context of the entire African diaspora with entries organized in sections on African European contact and enslavement culture resistance and identity during enslavement political activism from the Revolutionary War to Southern emancipation political activism from Reconstruction to the modern Civil Rights movement black nationalism and urbanization and Pan Africanism and contemporary black America Based on the latest scholarship and engagingly written there is no better go to reference for exploring the history of African Americans and their distinctive impact on American society politics business literature art food clothing music language and technology *Dancing in the Street* Suzanne E. Smith, 2001-05-02 Detroit in the 1960s was a city with a pulse people were marching in step with Martin Luther King Jr dancing in the street with Martha and the Vandellas and facing off with city police Through it all Motown provided the beat This book tells the story of Motown as both musical style and entrepreneurial phenomenon and of its intrinsic relationship to the politics and culture of Motor Town USA As Suzanne Smith traces the evolution of Motown from a small record company firmly rooted in Detroit's black community to an international music industry giant she gives us a clear look at cultural politics at the grassroots level Here we see Motown's music not as the mere soundtrack for its historical moment but as an active agent in the politics of the time In this story Motown Records had a distinct role to play in the city's black community as that community articulated and promoted its own social cultural and political agendas Smith shows how these local agendas which reflected the unique concerns of African Americans living in the urban North both responded to and reconfigured the national civil rights campaign Against a background of events on the national scene featuring Martin Luther King Jr Langston Hughes Nat King Cole and Malcolm X *Dancing in the Street* presents a vivid picture of the civil rights movement in Detroit with Motown at its heart This is a lively and vital history It's peopled with a host of major and minor figures in black politics culture and the arts and full of the passions of a momentous era It offers a critical new perspective on the role of popular culture in the process of political change *Freedom Enterprise* Kendra D.

Righteous Propagation Michele Mitchell, 2005-10-12 Between 1877 and 1930 years rife with tensions over citizenship suffrage immigration and the Negro problem African American activists promoted an array of strategies for progress and power built around racial destiny the idea that black Americans formed a collective whose future existence would be determined by the actions of its members In *Righteous Propagation* Michele Mitchell examines the reproductive implications of racial destiny demonstrating how it forcefully linked particular visions of gender conduct and sexuality to collective well being Mitchell argues that while African Americans did not agree on specific ways to bolster their collective prospects ideas about racial destiny and progress generally shifted from outward looking remedies such as emigration to inward focused debates about intraracial relationships thereby politicizing the most private aspects of black life and spurring race activists to calcify gender roles monitor intraracial sexual practices and promote moral purity Examining the ideas of well known elite reformers such as Mary Church Terrell and W E B DuBois as well as unknown members of the working and aspiring classes such as James Dubose and Josie Briggs Hall Mitchell reinterprets black protest and politics and recasts the way we think about black sexuality and progress after Reconstruction
