Renshon,2005-11-01 The United States is the only nation in the world that allows its citizens to hold one or more foreign citizenships vote in another nation's elections run for or be appointed to office in another country and join the armed forces even of a nation with interests hostile to those of the U S while retaining their citizenship These policies reinforce the often already strong emotional political and economic ties today's immigrants retain to their home countries Yet few studies

have addressed what dual citizenship means for the United States as a nation and the integration of immigrants into the American national community Is it possible to reconcile two different nationalities cultures and psychologies How can we honor immigrants sense of identity without threatening American national identity What do Americans have a right to expect of immigrants and what do they have a right to expect of Americans In The 50% American political psychologist Stanley Renshon offers unique insight into the political and national ramifications of personal loyalties Arguing that the glue that binds this country together is a psychological force patriotism he explains why powerful emotional attachments are critical to American civic process and how they make possible united action in times of crisis In an age of terrorism the idea that we are all Americans regardless of our differences is more than a credo it is essential to our national security Comprehensive in scope this book examines recent immigration trends tracing the assimilation process that immigrants to the United States undergo and describing how federal state and local governments have dealt with volatile issues such as language requirements voting rights and schooling Renshon turns a critical eye to the challenges posed over the past four decades by multiculturalism cultural conflict and global citizenship and puts forth a comprehensive proposal for reforming dual citizenship and helping immigrants and citizens alike become more integrated into the American national community

Cosmopolitan Vistas Tom Lutz, 2004 In a major statement on the relation of art and politics in America Tom Lutz identifies a consistent ethos at the heart of American literary culture for the past 150 years Through readings of Sherwood Anderson Willa Cather Hamlin Garland Ellen Glasgow Sarah Orne Jewett Sinclair Lewis Edgar Lee Masters Claude McKay Edith Wharton Anzia Yezierska and others Lutz identifies what he calls literary cosmopolitanism an ethos of representational inclusiveness of the widest possible affiliation and at the same time one of aesthetic discrimination and therefore exclusivity At the same time that it embraces the entire world in Lutz's view literary cosmopolitanism necessitates an evaluative stance and it is this doubleness this combination of egalitarianism and elitism that animates American literature since the Civil War The nineteenth century's realists and sentimentalists the writers of the Harlem Renaissance and of the Southern Renaissance the firebrands who brought in the new canon and the traditionalists who struggled to save the old all ascribe Lutz argues to the same cosmopolitan values however much they disagree on what these values demand of those who hold them

Contemporary Cosmopolitanism Angela Taraborrelli, 2015-02-26 Contemporary Cosmopolitanism is the first much needed introduction to contemporary political cosmopolitanism Although it has its roots in classical philosophy and politics Cosmopolitanism has undergone a major revival in the last forty years stirring far reaching and intense international debates Cosmopolitanism is a way of thought and life which entails an identification of the individual with the whole humankind and implies a moral obligation to promote social and political justice at the global level Contemporary cosmopolitanism reflects a global state that is already in itself highly cosmopolitan and represents an attempt to solve the new problems raised by this situation to reappraise a number of traditional conceptual categories in the light of changes having already occurred or that

are still taking place to develop new ones as well as to encourage and guide political institutional reform projects Taraborrelli provides clear descriptions of the three main forms of contemporary cosmopolitanism moral political legal and cultural described through the thought of various figures representative of the more significant approaches Appiah Archibugi Beitz Benhabib Bhabha Held Kaldor Nussbaum Pogge Sousa Santos This book provides a sound and comprehensive basis for the study of cosmopolitanism ideal as a starting point for the discussion of issues of widespread interest such as human rights global justice migration multiculturalism

Cosmopolitanism and Place Jessica Wahman, José M. Medina, John J. Stuhr, 2017-08-28 Addressing perspectives about who we are the importance of place and home and the many differences that still separate individuals this volume reimagines cosmopolitanism in light of our differences including the different places we all inhabit and the many places where we do not feel at home Beginning with the two part recognition that the world is a smaller place and that it is indeed many worlds Cosmopolitanism and Place critically explores what it means to assert that all people are citizens of the world everywhere in the world as well as persons bounded by a universal and shared morality

Our Civilizing Mission Nicholas Harrison, 2019 Our Civilizing Mission is both an exploration of colonial education and a response to current anxieties about the foundations of the humanities Focusing on the example of Algeria it asks what can be learned by treating colonial education not just as an example of colonialism but as a provocative uncomfortable example of education

American Covenant Philip Gorski, 2019-06-25 The long battle between exclusionary and inclusive versions of the American story Was America founded as a Christian nation or a secular democracy Neither argues Philip Gorski in American Covenant What the founders envisioned was a prophetic republic that would weave together the ethical vision of the Hebrew prophets and the Western political heritage of civic republicanism In this eye opening book Gorski shows why this civil religious tradition is now in peril and with it the American experiment American Covenant traces the history of prophetic republicanism from the Puritan era to today providing insightful portraits of figures ranging from John Winthrop and W E B Du Bois to Jerry Falwell Ronald Reagan and Barack Obama Featuring a new preface by the author this incisive book demonstrates how half a century of culture war has drowned out the quieter voices of the vital center and demonstrates that if we are to rebuild that center we must recover the civil religious tradition on which the republic was founded

Radical Cosmopolitics James D. Ingram, 2013-10-15 While supporting the cosmopolitan pursuit of a world that respects all rights and interests James D Ingram believes political theorists have in their approach to this project compromised its egalitarian and emancipatory principles Focusing on recent debates without losing sight of cosmopolitanism s ancient and Enlightenment roots Ingram confronts the philosophical difficulties of defending universal ideals and the implications for ethics and political theory In morality as in politics theorists have generally focused first on discovering universal values and second on their implementation Ingram argues that only by prioritizing the development and articulation of universal values through political action in the fight for freedom and equality can theorists do justice to these efforts and cosmopolitanism s universal vocation Only by proceeding from the local to the global from the bottom up rather than from the top down on the basis of political practice rather than moral ideals can we salvage moral and political universalism In this book Ingram provides the clearest most systematic account yet of this schematic reversal and its radical possibilities

Human Rights and Global Diversity Simon Caney, Peter Jones, 2014-06-17 This examination of global society focuses on its conflict with local societies and questions whether the human race should be treated as belonging to a single global community It considers the universality of human rights and its conflict with group claims to self determination

Global Childhoods and Cosmopolitan Identities in Literature Elizabeth Jackson, 2022-10-17 This book investigates literary representations and self representations of people with cosmopolitan identities arising from mobile global childhoods which transcend categories of migrancy and diaspora Part I focuses on the ways in which cosmopolitan characters are represented in selected novels from the debauched Anthony Blanche in Evelyn Waugh s classic *Brideshead Revisited* to the victimized Ila in Amitav Ghosh s *The Shadow Lines* to John le Carr s undefinable spies Part II focuses on self representations of people with a cosmopolitan upbringing in the form of

autobiographical narratives by well known authors such as Barack Obama and Edward Said along with lesser known writers all of whom write back to the ways in which they have at times been stereotyped and othered in literary fiction and public discourse The African Philosophy Reader P.H. Coetzee,A.P.J. Roux,2004-03-01 Divided into eight sections each with introductory essays the selections offer rich and detailed insights into a diverse multinational philosophical landscape Revealed in this pathbreaking work is the way in which traditional philosophical issues related to ethics metaphysics and epistemology for instance take on specific forms in Africa s postcolonial struggles Much of its moral political and social philosophy is concerned with the turbulent processes of embracing modern identities while protecting ancient cultures

Educating for Human Rights and Global Citizenship Ali A. Abdi,Lynette Shultz,2009-01-01 Nearly sixty years after the Universal Declaration of Human Rights in spite of progress on some fronts we are in many cases as far away as ever from achieving an inclusive citizenship and human rights for all While human rights violations continue to affect millions across the world there are also ongoing contestations regarding citizenship In response to these and related issues the contributors to this book critique both historical and current practices and suggest several pragmatic options highlighting the role of education in attaining these noble yet unachieved objectives This book represents a welcome addition to the human rights and global citizenship literature and provides ideas for new platforms that are human rights friendly and expansively attuned toward global citizenship
