### **The Transformation of Capacity in International**

**Development** Avidah K. Mayville,2019-11-30 The Transformation of Capacity in International Development exposes the transformation of capacity within the development discourse through a discursive analysis of USAID projects in Afghanistan and Pakistan between 1977 and 2017 As development agendas increasingly call for human rights approaches to development and the foreign policies of donor states sound alarms over global security threats capacity development has emerged as the solution to the complex problem of development Through this examination of USAID's attempts to build capacity in Afghanistan and Pakistan the book exposes how Western notions of progress constructed by institutions government officials scholars and private sector actors are obscured by the transformation of capacity As agendas are translated into projects they perpetuate historical relationships of global inequality that have corrupted and compete with indigenous models of governance The Transformation of Capacity in International Development has implications for those considering the future of human rights based approaches to development the international management of global security threats and the sustainability of donor investments     *Health Policy in a Globalising World* Kelley Lee,Kent Buse,Suzanne

Ordóñez Llanos,2016-11-03 At the turn of the millennium the unanimous adoption of the Millennium Development Goals MDGs by the United Nations General Assembly marked a new chapter in international development However voices from the Global South were noticeably absent in shaping the agenda Fifteen years later the global context has changed so much that it would have been inconceivable not to have taken voices from the South into account when planning the new Sustainable Development Goals SDGs Since its inception in 2012 the Southern Voice on Post MDG International Development Goals Southern Voice a network of 48 think tanks from Africa Asia and Latin America has generated a substantial body of original research to feed into various aspects of the post 2015 development agenda such as the missing dimensions of the MDGs ways to mitigate existing challenges in delivering on aspired outcomes and new issues goals targets and indicators that are crucial for the next global development framework Southern Perspectives on the Post 2015 International Development Agenda consolidates this research and stitches together development realities and policy experiences from the Global South infusing unique local perspectives to the global debate on the post 2015 agenda The compendium addresses the overarching themes underpinning the new international development framework by focusing on issues such as sustainability and growth inclusion and social policies governance and capacities and financing of the new agenda Southern Voice seeks to challenge the knowledge asymmetry afflicting the global knowledge system by channelling evidence based policy analyses produced by centres of excellence located in the Global South This is a valuable resource for academics and researchers policymakers and practitioners and concerned students in search of alternative views on sustainable development      **The Palgrave**
