The United Nations Convention on the Rights of the Child: An Analysis of Treaty Provisions and Implications of U.S. Ratification Jonathan Todres, Mark E. Wojcik, Cris Revaz, 2006-05-01 This in depth text goes beyond the rhetoric of the debate on children s rights and the Convention on the Rights of the Child in particular to provide a detailed examination of the impact that U S ratification of the Convention would have on U S law The chapters have been written by leading children s advocates and scholars with a general audience in mind as the authors believe that it is important for all Americans to become informed about the Convention and about children s rights in general With a greater understanding of the substance of the Convention and children s rights readers will be better positioned to determine what the real issues are what is simply rhetoric without any basis in fact or law and how they can address the real issues in an effective manner in order to provide a better world for all children

Children's Literature Aligned with SDGs to Promote Global Competencies Angela K. Salmon, Aixa Pérez-Prado, Karin Morrison, Flavia Iuspa, 2024-05-23 This book presents children s literature as a platform for learning and helping young readers develop the knowledge skills and attitudes needed to thrive in an interconnected and diverse global society It draws from various theoretical frameworks and research findings to implement critical literacy and culturally responsive teaching in the meaning making process The book focuses on global competencies and Sustainable Development Goals SDGs as intertwined concepts that work together to foster a more sustainable inclusive and equitable world Developing global competencies empowers children and communities to actively participate in achieving the SDGs and addressing the pressing challenges of our time The authors set high expectations on children as actors in transforming society To facilitate this the book offers an overview of child development theories as a foundation for designing developmentally appropriate practices to extend children s books toward deep thinking and understanding The book includes sample lessons that use cutting edge research based pedagogies and tools such as visible thinking routines and other

approaches Those lessons also help readers identify the Habits of Mind HOM children can develop by listening to and discussing stories The HOM are attributes of good problem finders and problem solvers needed when confronting complex issues The book provides resources and sample lessons that implement different thinking strategies to engage children in questioning and analyzing what they read making them more critical This is how children deeply understand the world and their role in creating positive change The book aims to cultivate change makers and global citizens through stories It offers innovative approaches including online learning options in accessible and engaging ways to help children think globally and act locally Through the power of children s literature this book serves a larger agenda To build a more thoughtful world for future generations By caring for and learning from one another through suggested activities in this book they will share the riches and resources from across the world As children learn about the promise of actions toward the UN Sustainable Goals they can imagine living in an interdependent learning community where all people continually searching for ways to trust each other learn together and grow toward greater intelligence Arthur Costa and Bena Kallick Co Founders and Directors of The Institute for Habits of Mind
