Frigidity In Woman In Relation To 2vol:

Women, Work, and Gender Relations in Developing Countries Claire Bélanger, Parvin Ghorayshi, 1996-10-21 The chapters in this collection are based on qualitative fieldwork studies and collectively offer the reader a perspective on women work and gender relations that is at once multidisciplinary and feminist Women's work in the household agriculture industry and in the so called informal sector is explored with a concern for the ways in which gender class and ethnicity are constructed by the larger socioeconomic structures in which women live By taking concrete analyses of women's lives as their point of departure the contributors to this volume strive to bridge the gap between socio economic structure of the society and the actual circumstances in which women find themselves In this way readers and scholars alike are better able to untangle the complex dynamics of gender relations and to develop strategies for social change The Publishers' Trade List Annual
