*From Wounded Knee to Checkpoint Charlie* György Ferenc Tóth, 2016-04-21 *From Wounded Knee to Checkpoint Charlie* examines the history of the transatlantic alliance between American Indian sovereignty activists and Central European solidarity groups and their entry into the United Nations in the 1970s and 1980s In the late Cold War Native American activists engaged in transnational diplomacy for nation building by putting outside pressure on the US government for a more progressive Indian policy that reached for the full decolonization of Native American communities into independence By using extensive multinational archival research complemented by interviews György Ferenc Tóth investigates how older transatlantic images of American Indians influenced the alliance between Native activists and Central European groups how this coalition developed and functioned and how the US government and the regimes of the Eastern Bloc responded to this transatlantic alliance This book not only places the American Indian radical sovereignty movement in an international context but also recasts it as a transnational struggle thus connecting domestic US social and political history to the history of Cold War transatlantic relations and global movements Spirit and Resistance George E. Tinker, 2004-09-15 Writing from a Native American perspective theologian Tinker probes American Indian culture its vast religious and cultural legacy and its ambiguous relationship to the tradition historic Christianity that colonized and converted it He offers novel proposals about cultural survival and identity sustainability and the endangered health of Native Americans **Finding Our Way Home**

Myke Johnson,2016-11-25 In this time of ecological crisis all that is holy calls us into a more intimate partnership with the diverse and beautiful beings of this earth In *Finding Our Way Home* Myke Johnson reflects on her personal journey into such a partnership and offers a guide for others to begin this path Lyrically expressed it weaves together lessons from a chamomile flower a small bird a copper beech tree a garden slug and a forest fern along with insights from Indigenous philosophy environmental science fractal geometry childhood Catholic mysticism the prophet Elijah fairy tales and permaculture design This eco spiritual journey also wrestles with the history of our society's destruction of the natural world and its roots in the original theft of the land from Indigenous peoples Exploring the spiritual dimensions of our brokenness it offers tools to create healing *Finding Our Way Home* is a ceremony to remember our essential unity with all of life [Back from the Far Field](#) Bernard W. Quetchenbach,2000 Many poets writing after World War II have found the individual focus of contemporary poetics poorly suited to making statements directed at public issues and public ethics The desire to invest such individualized poetry with greater cultural authority presented difficulties for Vietnam protest poets for example and it has been a particular challenge for nature writers in the Thoreau tradition who have attempted to serve as advocates for the natural world Examining the implications of this dilemma Bernard W Quetchenbach locates the poets Robert Bly Gary Snyder and Wendell Berry within two traditions the American nature writing tradition and the newer tradition of contemporary poetics He compares the work of two other twentieth century poets Robinson Jeffers and Theodore Roethke to illustrate how the contemporary shift toward a poetics focused on the poet's life has affected portrayals of nature and the public voice in poetry Turning back to the work of Bly Snyder and Berry Quetchenbach assesses their attempts to reinvent the public voice in the context of contemporary poetics and what effect these attempts have had on their work He argues that these poets have learned from their postwar generation techniques for adapting a personalized poetics to environmental advocacy In addition to modifying what critics have called the poetics of immediacy these poets have augmented their poetic output with prose and identified themselves with long standing traditions of poetic ethical and spiritual authority In doing so Bly Snyder and Berry have attempted to solve not only a problem inherent in contemporary poetics but also the larger problem of the role of the poet in a society that does not recognize poetry While it would be an overstatement to suggest that these three figures have found a place for the poet in American life they have reached audiences that extend beyond traditional readers of poetry At the end of the twentieth century Quetchenbach concludes poets have begun to identify and direct their writing to specific audiences defined less by aesthetic preferences and more by a shared interest in and dedication to the work's subject matter Whether revealing a disturbing trend for poetry or an encouraging one for environmentalism and other political causes it is one of many provocative conclusions Quetchenbach draws from his examination of postwar nature poetry

**Borderlines in a Globalized World** G. Preyer,Mathias Bös,2013-11-11 Scholars of different schools have extensively analyzed world systems as networks of communication under the fashionable heading globalization Our collected new

research pushes the argument one step further Globalization is not a homogenization of all social life on earth It is a heterogeneous process that connects the global and the local on different levels To understand these contemporary developments this book employs innovative concepts strategies of research and explanations Globalization is a metaphor for different borderstructures new borderlines and conditions of membership which emerge in a global world system As a world system expands it incorporates new territories and new peoples The process of incorporation creates frontiers or boundaries of the world system These frontiers or boundary zones are the locus of resistance to incorporation ethnogenesis ethnic transformation and ethnocide

On Ritual Bruce Lincoln, 2025-03-27 Close microhistorical examination of the way rituals are actually performed goes well beyond the standard ideal description of such ceremonies to reveal participants who modify the proceedings in shrewd subtle strategic ways that advance their own interests sometimes going so far as to challenge even subvert the protocols traditions and values favored by presiding officials The wide ranging set of examples includes a Roman funeral a Mesoamerican healing ceremony a Jewish American Thanksgiving dinner and others each of which receives meticulously detailed consideration Each one has its own engaging characters intricate maneuvers analytically revealing developments and moments of high drama
