## **From Comrades To Citizens The South African Civics Movement And The Transition To Democracy:**

**From Comrades to Citizens** G. Adler, J. Steinberg, 2015-12-22 In the 1980s South Africa's urban townships exploded into insurrection led by youth and residents' organisations that collectively became known as the civics movement. Ironically, the movement has been unable to adapt to the role of a voluntary association in the liberal polity it helped create and has great difficulty defining any alternative role. This volume charts the rise and fall of the movement in the transition to and consolidation of democracy in South Africa. *From Comrades to Citizens* Glenn Adler, 2000

**The Road to Democracy in South Africa** South African Democracy Education Trust, 2024-12-02 In South Africa the decade of 1980-1990 not only saw the mobilisation of the popular masses but also the marked escalation of the armed struggle inside the country initiated and waged by the African National Congress (ANC). The liberation movement headed by the ANC-led Congress Alliance took major strides which finally broke the backbone of white supremacist rule. This book examines and analyses the events leading to the settlement of democracy in South Africa during this period. Amongst other topics, the subject matter of this book also includes a discussion of the apartheid regime, ANC underground armed actions and popular resistance. Liberation struggle in the 1980s in the Eastern Cape, Bophuthatswana and the role of the UDF in the Western Transvaal. Trade Unionism. Print editions not for sale in Sub-Saharan Africa. This book is part of Routledge's co-published series 30 Years of Democracy in South Africa in collaboration with UNISA Press which reflects on the past years of a democratic South Africa and assesses the future opportunities and challenges. *The African National Congress and Participatory Democracy* Heidi Brooks, 2019-08-15 This book examines the development of democratic thought in the African National Congress (ANC) of South Africa with a focus on the movement's ideas about participatory democracy. It makes particular reference to two key periods: the 1980s people's power movement and the subsequent years of policy formulation from 1990 when the ANC began to design and implement a system of participatory democracy alongside a representative government. Through the examination of historic documents and in-depth interviews with former ANC activists, government officials and those involved in policy development, the author explores the inspiration for the party's commitment to establishing participatory democracy. The book combines democratic theory and political and intellectual history to look at the role of popular participation as part of a broader trajectory of the ANC's democratic thought. It critically engages with concepts used in the party's participatory discourse with a view to deepening our understanding of how ideas have shaped the construction of South Africa's democracy. The Politics of the Near Jérôme Tournadre, 2022-05-17 The Politics of the Near offers a novel approach to social unrest in post-apartheid South Africa. Keeping the noise of demonstrations, barricades and clashes with the police at a distance, this ethnography of a poor people's movement traces individual commitments and the mainsprings of mobilization in the ordinary social and intimate life of activists, their relatives and other township residents. Tournadre's approach picks up on aspects of activists' lives that are often neglected in the study of social movements that help us better understand the dynamics of protest and the attachment

of activists to their organization and its cause What Tournadre calls a politics of the near takes shape through sometimes innocuous actions and beyond the separation between public and domestic spheres By mapping the daily life of Black and low income neighborhoods and the intimate domain where expectations and disappointments surface The Politics of the Near offers a different perspective on the rainbow nation a perspective more sensitive to the fact that three decades after the end of apartheid poverty and race are still as tightly interwoven as ever

**South Africa-- the Present as History** John S. Saul, Patrick Bond, 2014 A new history of South Africa that examines today's post apartheid society through the lens of its earlier history

*Historical Dictionary of South Africa* Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of Historical Dictionary of South Africa contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa

**Democratization in the Global South** K. Stokke, O. Törnquist, 2013-01-29 Given the weaknesses of mainstream democratisation since the 1980s the authors present a cutting edge examination of dynamics of political change in the direction of more substantive democracy While focusing on the Global South they also draw comparisons from historical and contemporary experiences from Scandinavia

*Democracy's Infrastructure* Antina von Schnitzler, 2016-10-25 In the past decade South Africa's miracle transition has been interrupted by waves of protests in relation to basic services such as water and electricity Less visibly the post apartheid period has witnessed widespread illicit acts involving infrastructure including the nonpayment of service charges the bypassing of metering devices and illegal connections to services Democracy's Infrastructure shows how such administrative links to the state became a central political terrain during the antiapartheid struggle and how this terrain persists in the post apartheid present Focusing on conflicts surrounding prepaid water meters Antina von Schnitzler examines the techno political forms through which democracy takes shape Von Schnitzler explores a controversial project to install prepaid water meters in Soweto one of many efforts to curb the nonpayment of service charges that began during the antiapartheid struggle and she traces how infrastructure payment and technical procedures become sites where citizenship is mediated and contested She follows engineers utility officials and local bureaucrats as they consider ways to prompt Sowetans to pay for water and she shows how local residents and activists wrestle with the constraints imposed by meters This investigation of democracy from the

perspective of infrastructure reframes the conventional story of South Africa's transition foregrounding the less visible remainders of apartheid and challenging readers to think in more material terms about citizenship and activism in the postcolonial world Democracy's Infrastructure examines how seemingly mundane technological domains become charged territory for struggles over South Africa's political transformation

**Fractured Militancy** Marcel Paret, 2022-02-15 Drawing on extensive ethnographic fieldwork and interviews with activists Fractured Militancy tells the story of postapartheid South Africa from the perspective of Johannesburg's impoverished urban Black neighborhoods Nearly three decades after South Africa's transition from apartheid to democracy widespread protests and xenophobic attacks suggest that not all is well in the once celebrated rainbow nation Marcel Paret traces rising protests back to the process of democratization and racial inclusion This process dangled the possibility of change but preserved racial inequality and economic insecurity prompting residents to use militant protests to express their deep sense of betrayal and to demand recognition and community development Underscoring remarkable parallels to movements such as Black Lives Matter in the United States this account attests to an ongoing struggle for Black liberation in the wake of formal racial inclusion Rather than unified resistance however class struggles within the process of racial inclusion produced a fractured militancy Revealing the complicated truth behind the celebrated success of South African democratization Paret uncovers a society divided by wealth urban geography nationality employment and political views Fractured Militancy warns of the threat that capitalism and elite class struggles present to social movements and racial justice everywhere

**Democratising Local Government**, 2002 Local government is at the forefront of development In South Africa the ambitious policy objectives of post apartheid reconstruction and development hinge on the successful creation of a democratic tier of government close to the people An entirely new system of developmental local government has thus been introduced As is the case in many developing countries the responsibilities of municipalities in South Africa have been extended dramatically often without adequate resources Managing municipalities for development therefore requires political will and strategic intervention The book provides a comprehensive introduction to developmental local government It includes the design of the new local government system and the issues posed by decentralisation an overview of specific challenges of urban and rural municipalities a discussion of special issues facing local government including poverty gender and environment new tools for local government including budgeting indicators municipal partnerships and capacity building

**Theatres of Struggle and the End of Apartheid** Belinda Bozzoli, 2019-06-01 This is a compelling study of the origins and trajectory of a legendary black uprising against apartheid the Alexandra Rebellion of 1986 Using insights from the literature on collective action and social movements it delves deep into the rebellion's inner workings It examines how the residents of Alexandra a poverty stricken segregated township in Johannesburg manipulated and overturned the meanings of space time and power in their sequestered world how they used political theatre to convey stage and dramatise their struggle and how young and old residents generated differing ideologies

and tactics giving rise to a distinct form of generational politics Theatres of Struggle asks the reader to enter into the world of the rebels and to confront the moral complexity and social duress they experienced as they invented new social forms and violently attacked old ones      **Bootstrapping Democracy** Gianpaolo Baiocchi,Patrick Heller,Marcelo Silva,2011-06-01

Despite increasing interest in how involvement in local government can improve governance and lead to civic renewal questions remain about participation s real impact This book investigates participatory budgeting a mainstay now of World Bank UNDP and USAID development programs to ask whether its reforms truly make a difference in deepening democracy and empowering civil society Looking closely at eight cities in Brazil comparing those that carried out participatory budgeting reforms between 1997 and 2000 with those that did not the authors examine whether and how institutional reforms take effect Bootstrapping Democracy highlights the importance of local level innovations and democratic advances charting a middle path between those who theorize that globalization hollows out democracy and those who celebrate globalization as a means of fostering democratic values Uncovering the state s role in creating an associational environment it reveals the contradictory ways institutional reforms shape the democratic capabilities of civil society and how outcomes are conditioned by relations between the state and civil society      Negotiated Revolutions George Lawson,2017-03-02

Straightforward histories of post revolution States have all too often failed to provide sufficient context to rescue revolution both as concept and practice from the misplaced triumphalism of the contemporary world In Negotiated Revolutions George Lawson marks a definitive departure in the study of radical political and socio economic change presenting a unique comparative analysis of three transformations from authoritarian rule to market democracy Through the lens of international sociology the book critically considers the large scale processes of social and political revolution bringing three apparently distinct transformations from seemingly disparate authoritarian regimes and geographies under a common rubric With unique and novel conceptual analysis the book accurately locates both the potential and actuality of radical change in contemporary world affairs processes usually mistakenly subsumed under the general framework of transitology      Civil Society Howard J. Wiarda,2018-02-19

Civil Society focuses on the processes and politics of dismantling corporate state directed economies and political systems in the Third World Howard Wiarda explores how this separation would create a move toward civil societies of free associability and democracy as well as the limits to and pitfalls of this approach The book examines case studies from sub Saharan Africa East Asia Latin America and the Middle East and includes such critical countries as South Africa South Korea Taiwan Indonesia Brazil Mexico and Egypt      **A Force More Powerful** Peter Ackerman,Jack DuVall,2015-12-01 This nationally acclaimed book shows how popular movements used nonviolent action to overthrow dictators obstruct military invaders and secure human rights in country after country over the past century Peter Ackerman and Jack DuVall depict how nonviolent sanctions such as protests strikes and boycotts separate brutal regimes from their means of control They tell inside stories how Danes outmaneuvered the Nazis Solidarity defeated Polish

communism and mass action removed a Chilean dictator and also how nonviolent power is changing the world today from Burma to Serbia

*A Turbulent South Africa* Jérôme Tournadre, 2018-03-01 Frequently praised for its democratic transition South Africa has experienced an almost uninterrupted cycle of social protest since the late 1990s There have been increasing numbers of demonstrations against the often appalling living conditions of millions of South Africans pointing to the fact that they have yet to achieve full citizenship A Turbulent South Africa offers a new look at this historic period in the existence of the young South African democracy far removed from the idealistic portrait of the Rainbow Nation Jérôme Tournadre draws on interviews and observations to take the reader from the backstreets of the squatters camps to international militant circles and from the immediate infra political level to the worldwide anti capitalist protest movement He investigates the mechanisms and the meaning of social discontent in light of several different phenomena These include the struggle of the poor to gain recognition the persistent memory of the fight against apartheid the developments in the political world since the Mandela Years the coexistence of liberal democracy with a popular politics found in poor and working class districts and many other factors that have played a crucial part in the social and political tensions at the heart of post apartheid South Africa

**Witchcraft, Violence, and Democracy in South Africa** Adam Ashforth, 2005-01-15 Large numbers of people in Soweto other parts of South Africa live in fear of witchcraft presenting complex unique problems for the government Adam Ashforth explores the challenge of occult violence the spiritual insecurity that it engenders to democratic rule in South Africa

*The Politics of Everyday Crime in Africa* Danielle C. Kushner, 2018-12-12 This book offers distinct insights into the sources of state legitimacy in Africa by incorporating an analysis of non state actors role in service delivery The author examines how citizens reliance on non governmental security actors such as street committees neighborhood watches and community police forums shape their attitudes toward the state and their political participation Broadly this project contributes to our understanding of citizens everyday experiences of crime and violence at the local level and why they matter politically

Media, Communication and the Struggle for Democratic Change Katrin Voltmer, Christian Christensen, Irene Neverla, Nicole Stremlau, Barbara Thomass, Nebojša Vladislavljević, Herman Wasserman, 2019-08-28 This book investigates the role of media and communication in processes of democratization in different political and cultural contexts Struggles for democratic change are periods of intense contest over the transformation of citizenship and the reconfiguration of political power These democratization conflicts are played out within an increasingly complex media ecology where traditional modes of communication merge with new digital networks thus bringing about multiple platforms for journalists and political actors to promote and contest competing definitions of reality The volume draws on extensive case study research in South Africa Kenya Egypt and Serbia to highlight the ambivalent role of the media as force for democratic change citizen empowerment and accountability as well as driver of polarization radicalization and manipulation
