*From Berlin to Hollywood - and beyond* Marianne Farrin, 2022-11-03 A half Danish half German woman grows up in the midst of World War II before leaving Europe for America in this debut memoir Born to a Danish mother and a German father in 1938 Berlin Farrin s earliest memories include her mother s severe warning Don t say anything to anyone at any time Later she remembers their apartment being destroyed by a bomb in 1943 After the author s father went missing in the war her mother took her her little sister Irene and a baby brother affected by Down syndrome Jurgen to Denmark There they slowly adjusted to living the subtle stigma of their German connections until their mother found a new community in the Mormon Church The fifteen year old author s mother soon secured visas and passage to America and the teen s life was drastically changed yet again after they arrived in Salt Lake City They eventually settled in California living in a small cottage just off Hollywood Boulevard Farrin s reluctance about America later gave way to ambition she attended Stanford University and met her future husband Jim Together they raised five children in nine different foreign cities Although the daily trials of life as a foreigner and immigrant weighed on the author throughout her life she continued to derive strength from her faith and her fiercely determined mother She ably relates the complex character of her mother and her account of her strange symbiosis with Mutti is equally engaging Anyone with an interest in history or immigrant experiences will still find Farrin s tale to be thrilling Kirkus Review

**Four Girls From Berlin** Marianne Meyerhoff, 2007-08-01 A pair of silver Regency candlesticks Pieces of well worn family jewelry More than a thousand documents letters and photographs Lotte Meyerhoff s best friends risked their lives in Nazi Germany to safeguard these and other treasured heirlooms and mementos from her family and return them to her after the war The Holocaust had left Lotte the lone survivor of her family and these precious objects gave her back a crucial piece of her past Four Girls from Berlin vividly recreates that past and tells the story of Lotte and her courageous non Jewish friends Ilonka Erica and Ursula as they lived under the shadow of Hitler in Berlin Written by Lotte s daughter Marianne this powerful memoir celebrates the unseverable bonds of friendship and a rich family legacy the Holocaust could not destroy What a delightful book and important too It gives us the courage and inspiration to utterly reject the fatalistic idea that fratricide polemic and enmity between Christians and Jews is inevitable and unchangeable Finally it reminds us never to forget or fail to appreciate those forces of light that bear witness to and instill hope for mankind and our world Rabbi Yechiel Eckstein President International Fellowship of Christians and Jews Four Girls From Berlin is an evocative story of friendship challenged in the most sinister environment For Christians it echoes the words of Jesus greater love hath no man than to lay

down his life for his friends The friendship of these four women three Christians and a Jew speaks of a greater humanity that in the face of the Nazi horror could not be broken I strongly recommend men and women of all faiths to learn from it The Venerable Lyle Dennen Archdeacon London England     *The Regions of Germany* Robert E. Bowling for Communism Andrew Demshuk,2020-10-15 *Bowling for Communism* illuminates how civic life functioned in Leipzig East Germany s second largest city on the eve of the 1989 revolution by exploring acts of urban ingenuity amid catastrophic urban decay Andrew Demshuk profiles the creative activism of local communist officials who with the help of scores of volunteers constructed a palatial bowling alley without Berlin s knowledge or approval In a city mired in disrepair civic pride overcame resentment against a regime loathed for corruption Stasi spies and the Berlin Wall Reconstructing such episodes through interviews and obscure archival materials Demshuk shows how the public sphere functioned in Leipzig before the fall of communism Hardly detached or inept local officials worked around centralized failings to build a more humane city And hardly disengaged residents turned to black market construction to patch up their surroundings Because such urban ingenuity was premised on weakness in the centralized regime the dystopian cityscape evolved from being merely a quotidian grievance to the backdrop for revolution If by their actions officials were demonstrating that the regime was irrelevant and if in their own experiences locals only attained basic repairs outside official channels why should anyone have mourned the system when it was overthrown     *Foreign Relations of the United States* United States.
