Folsom Tools and Technology at the Hanson Site, Wyoming George C. Frison, Bruce A. Bradley, 1980 Folsom Tools and Technology at the Hanson Site, Wyoming George C. Frison, Bruce A. Bradley, 1980 **Understanding Stone Tools and Archaeological Sites** Brian P. Kooyman, 2000 Covers manufacturing techniques lithic types and materials reduction strategies and techniques worldwide lithic technology production variables meaning of form and usewear and residue analysis *Unit Issues in Archaeology* Ann Felice Ramenofsky, Anastasia Steffen, 1998 This volume emphasizes one aspect of scientific method units of measure and their construction as applied to archaeology Attributes artifact classes locational designations temporal periods sampling universes culture stages and geographic regions are all examples of constructed units Landscapes of Ritual Performance in Eastern North America Cheryl Claassen, 2023-02-23 In the long history of documenting the material culture of the archaeological record meaning and actions of makers and users of these items is often overlooked The authors in this book focus on rituals exploring the natural and made landscape stages the ritual directors including their progression from shaman to priesthood and meaning of the rites They also provide comments on the end or failure of rites and cults from Paleoindian into post DeSoto years Chapters examine the archaeological records of Cahokia the lower Ohio Valley Aztalan Wisconsin Vermont Florida and Georgia and others scan the Eastern US investigating tobacco datura color symbolism deer symbolism mound stratigraphy flintknapping stone caching cults and their organization and red ochre These authors collectively query the beliefs that can be gleaned from mortuary practices and their variation from mound construction from imagery from the choice of landscape setting While some rituals were short lived others can be shown to span millennia as the ritual specialists modified their interpretations and introduced innovations **The Archaeology of Ancient North America** Timothy R. Pauketat, Kenneth E. Sassaman, 2020-02-27 Unlike extant texts this textbook treats pre Columbian Native Americans as history makers who yet matter in our contemporary world *History of the Native People of Canada* James Vallière Wright, 1996-01-01 Covering the history of First Peoples in Canada from 10 000 to 1000 BC this volume explores a period which includes the original settlement of the Americas cultural diversification technological advances expanding trade networks and the development of complex belief systems A useful reference work for scholars and laypersons alike Published in English *Bones for Barnum Brown* Roland T. Bird, 2013-05-31 Roland Thaxter Bird universally and affectionately known to friends and associates as R T achieved a kind of Horatio Alger success in the scientific world of dinosaur studies Forced to drop out of school at a young age by ill health he was a cowboy who traveled from job to job by motorcycle until he met Barnum Brown Curator of Vertebrae Paleontology at the American Museum of Natural History in New York and a leader in the study of dinosaurs Beginning in 1934 Bird spent many years as an employee of the museum and as Brown s right hand man in the field His chart of the Howe Quarry in Wyoming a massive sauropod boneyard is one of the most complex paleontological charts ever produced and a work of art in its own right His crowning

achievement was the discovery collection and interpretation of gigantic Cretaceous dinosaur trackways along the Paluxy River near Glen Rose and at Bandera Texas A trackway from Glen Rose is on exhibit at the American Museum and at the Texas Memorial Museum in Austin His interpretation of these trackways demonstrated that a large carnosaur had pursued and attacked a sauropod that sauropods migrated in herds and that contrary to then current belief sauropods were able to support their own weight out of deep water These behavioral interpretations anticipated later dinosaur studies by at least two decades From his first meeting with Barnum Brown to his discoveries at Glen Rose and Bandera this very human account tells the story of Bird s remarkable work on dinosaurs In a vibrantly descriptive style Bird recorded both the intensity and excitement of field work and the careful and painstaking detail of laboratory reconstruction His memoir presents a vivid picture of camp life with Brown and the inner workings of the famous American Museum of Natural History and it offers a new and humanizing account of Brown himself one of the giants of his field Bird s memoir has been supplemented with a clear and concise introduction to the field of dinosaur study and with generous illustrations which delineate the various types of dinosaurs

Clovis Ashley M. Smallwood,Thomas A. Jennings,2014-12-01 New research and the discovery of multiple archaeological sites predating the established age of Clovis 13 000 years ago provide evidence that the Americas were first colonized at least one thousand to two thousand years before Clovis These revelations indicate to researchers that the peopling of the Americas was perhaps a more complex process than previously thought The Clovis culture remains the benchmark for chronological technological and adaptive comparisons in research on peopling of the Americas In Clovis On the Edge of a New Understanding volume editors Ashley Smallwood and Thomas Jennings bring together the work of many researchers actively studying the Clovis complex The contributing authors presented earlier versions of these chapters at the Clovis Current Perspectives on Chronology Technology and Adaptations symposium held at the 2011 Society for American Archaeology meetings in Sacramento California In seventeen chapters the researchers provide their current perspectives of the Clovis archaeological record as they address the question What is and what is not Clovis

Contemporary Lithic Analysis in the Southeast Philip J. Carr, Andrew P. Bradbury, Sarah E. Price, 2012-07-13 Representing work by a mixture of veterans and a new generation of lithic analysts *Contemporary Lithic Analysis in the Southeast* explores fresh ideas while reworking and pushing the limits of traditional methods and hypotheses The variability in the southeastern lithic landscape over space and through time makes it a dynamic and challenging region for archaeologists Demonstrating a holistic approach and using a variety of methods this volume aims to derive information regarding prehistoric lifeways from lithic assemblages The contributors use data from a wide temporal span and a variety of sites across the Southeast ranging from Texas to South Carolina and from Florida to Kentucky Not merely cautionary tales these case studies demonstrate the necessity of looking beyond the bag of lithic material sitting in the laboratory to address the key questions in the organization of prehistoric lithic technologies How do field collection strategies bias our interpretations What is the relationship between technological strategies and tool design How can inferences regarding social and economic strategies be made from lithic assemblages Contributors William Andrefsky Jr Andrew P Bradbury Philip J Carr Carolyn Conklin D Randall Cooper Jason L Edmonds Jay D Franklin Albert C Goodyear III Joel Hardison Lucinda M Langston D Shane Miller George H Odell Charlotte D Pevny Tara L Potts Sarah E Price Douglas Sain Sarah C Sherwood Ashley M Smallwood Paul Thacker **Stone Tools** George H. Odell, 2013-11-11 Lithic analysts have been criticized for being atheoretical in their approach or at least for not contributing to building archaeological theory This volume redresses that balance In *Stone Tools* renowned lithic analysts employ explicitly theoretical constructs to explore the archaeological record and use the lithic database to establish its points Chapters discuss curation design theory replacement of stone with metal piece refitting and projectile point style *The Organization of North American Prehistoric Chipped Stone Tool Technologies* Philip J. Carr, 1994 The eleven papers in this volume explore current methods and theories concerned with the organization of stone tool technology through a variety of case studies *The Horner Site* George C. Frison, Lawrence C. Todd, 2014-06-28 The Horner Site [Prehistoric Life on the Mississippi Floodplain](#) Richard W. Yerkes, 1987 At the confluence of the Illinois the Missouri and the Mississippi Rivers lies the American Bottom a broad floodplain that prehistoric peoples inhabited for millennia Precisely how did they live What were their ties to the natural world around them In this study based upon some six years of intensive archeological and geological research at Labras Lake in St Clair County Illinois Richard W Yerkes interprets a wealth of important new data in a stimulating and original fashion With a fine tuned control of the data Yerkes challenges prevailing theories based on simple classifications of stone tools according to shape or on simple models of diffuse and focal economies He views environment as a dynamic factor in economic and cultural life rather than as merely a backdrop to it Using incident light microscopy he examines wear patterns on stone tools to determine what activities were performed during each period the site was inhabited the Late Archaic the Late Woodland and the Mississippian As he documents environmental change at Labras Lake he analyzes plant and animal remains in context to explore diet and seasonal patterns of subsistence and settlement The result

is a more accurate and detailed picture than ever before what prehistoric life on the Mississippi floodplain was like Yerkes shows how to assess the duration and size of occupations and how to determine where and when true permanent settlements arose What others call sedentary encampments he reveals as sequences of small residential occupations for a narrow range of activities during shorter seasonal periods His contribution to the study of the development of sedentism is potentially far reaching and will interest many North American anthropologists and archeologists The Oxford Handbook of the Archaeology and Anthropology of Hunter-gatherers Vicki Cummings, Peter Jordan, Marek Zvelebil, 2014 This book provides a comprehensive review of hunter gatherer studies undertaking detailed regional and thematic case studies that span the archaeology history and anthropology of hunter gatherers concluding with an in depth review of the main opportunities research questions and moral obligations that lie ahead Aurignacian Lithic Economy Brooke S. Blades, 2005-12-08 Drawing data from a classic region for Paleolithic research in Europe this book explores how early modern humans obtained lithic raw materials and analyzes the different utilization patterns for locally available materials compared with those from a greater distance The author locates these patterns within an ecological context and argues that early modern humans selected specific mobility strategies to accommodate changes in subsistence environments **North American Projectile Points** Wm Jack Hranicky, 2014-06-28 Jack Hranicky is a retired U S Government contractor but he has been involved with archaeology as a full time passion for over 40 years His main interest is the Paleo Indian period however he has worked in all facets of American archaeology He has published over 250 papers and over 35 books in archaeology with his most recent being a two volume 800 page 10 000 artifact book on the material culture of Virginia In Virginia he is considered an expert on prehistoric stone tools and rock art The prehistoric Spout Run Observatory site was investigated by him which dated 10 470 YBP He has served as president of the Archeological Society of Virginia ASV and Eastern States Archeological Federation ESAF and been past chairman of the Alexandria Archaeology Commission in Virginia He is a charter member of the Registry of Professional Archaeologists RPA And since he joined the Archeological Society of Virginia ASV in 1966 he is its senior member And finally his major publication is *Points Before Clovis*
