A decorative graphic element consisting of a light blue horizontal bar with a rounded right end, and a red circular shape partially visible behind it.

Food Safety Law In The European Union An Introduction:

Food Safety Law in the European Union B. M. J. van der Meulen, Menno van der Velde, 2004 The introduction of the General Food Law GFL marks a major step in the European Union's reform of food law It provides the center of gravity for further modernization of the large body of EU and national food law

Food Safety Law in the European Union Bernd M. J. van der Meulen, Menno van der Velde, 2006 *EU Food Law* Hanna Schebesta, Kai Purnhagen, 2024-07-19 In recent years food law has taken on an increasingly prominent role in political discourse with calls for a more sustainable food system challenging the legal status quo A thorough legal perspective is thus indispensable for grasping the complexities of the EU food system and political quests for change In the first monograph of its kind Hanna Schebesta and Kai Purnhagen offer an authoritative and comprehensive overview of EU food legislation Drawing on the authors' experience researching and teaching in the field *EU Food Law* explores how political paradigms have shaped the development of laws in a variety of domains including food technology food safety food information food quality nutrition and sustainability The book begins with insightful analyses of the historical foundations of EU food law and two existing umbrella frameworks the General Food Law Regulation and the Official Controls Regulation The book then presents an in depth discussion of the food law acquis before contextualising EU law against international food law Schebesta and Purnhagen have created the definitive resource on EU food law offering a balanced treatment of the subject across eighteen carefully structured chapters This volume is essential reading for students academics and practitioners alike

Advanced Introduction to European Union Law Jacques Ziller, 2023-12-11 This thoroughly updated second edition of *Advanced Introduction to European Union Law* provides an essential overview of the diverse fields of EU law and their relevant politics In precise but accessible language Jacques Ziller analyses the latest developments in EU law following Brexit the Covid 19 pandemic and the Russia Ukraine war focusing on the main fields of action for the EU the internal market area of freedom security and justice and external action

EU Food Law Caoimhín MacMaoláin, 2007-03-01 This is the first comprehensive analysis of the European Union law of food regulation It details the way in which EU law impacts upon the production and sale of food throughout the Union It examines the legal protection accorded to the free movement of food within the EU discussing those circumstances in which Member States may derogate from this principle in particular where this is done to protect human health or safeguard consumer interests Chapter four discusses and places in context the international trade law influences on EU food law Chapter five describes EU responses to recent food safety crises avian influenza and BSE The book also deals with issues such as nutrition law and policy obesity GMOs organic food animal welfare and food naming and labelling This book offers an account of the historical political sociological and jurisprudential context of European Union food law The author who is an academic and consultant in this area translates the legal and scientific complexities of food law into a lucid and compelling narrative The resulting work will also prove an indispensable guide to the practitioner

EU Food Law Handbook Bernd Van der Meulen, Bart

Wernaart,2020-09-01 The twenty first century has witnessed a fundamental reform of food law in the European Union to the point where modern EU food law has now come of age This EU Food Law Handbook presents the most significant elements of these legal developments with contributions from a highly qualified international team of academics and practitioners Their analysis is based on a shared vision of the structure and content of EU food law The book takes the perspective of food law embedded within general EU law It highlights the consequences of this combination and provides insights into both substantive and procedural food law Taking the General Food Law as a focal point this handbook systematically analyses and explains the institutional substantive and procedural elements of EU food law Principles are discussed as well as specific rules addressing food as a product the processes related to food and communication about food to consumers through labelling These rules define requirements on subjects like market authorisation for food additives novel foods and genetically modified foods chemical and biological contaminants in food food hygiene tracking tracing withdrawal recall food labelling and claims The powers of public authorities to enforce food law and to deal with incidents are outlined Attention is given to the international context WTO Codex Alimentarius as well as to private standards In addition to the systematic analysis the book includes selected topics such as nutrition and health policy special foods food import requirements food contact materials intellectual property private food law and animal feed In this new edition existing chapters have been updated to take account of many important developments in legislation and case law Several new topics have been added to the analysis such as the right to food organics and food fraud The EU Food Law Handbook is produced in co operation with the European Institute for Food Law It is relevant for practitioners and academics both with and without a background in law It is ideal for education purposes

European Food Regulation after Enlargement Karolina Žurek,2011-11-11 This book presents a critical legal perspective on the current direction of EU food regulation Analysing three regulatory mechanisms mutual recognition scientific risk regulation and standardisation in the evolution of food legislation in the EU the book shows the inadequacy of the current framework in facing the challenges of enlargement Using the particular experience of a new member state Poland the book argues that an enlarged Europe must not disregard diverse socio economic implications of market regulation Due to historical legacies and a bias in favour of homogeneity the EU food regulatory regime has generated a one dimensional crisis oriented approach As a result it tends to overlook other legitimate concerns such as quality diversity and local traditions This book argues that this need not be so

EU Food Law K Goodburn,2001-06-14 Given its fragmented development EU food law can be seen as both complex and confusing With its distinguished team of contributors EU food law highlights the key issues so those non specialists can understand the legislation and what it means for them It is designed to help readers ask the right questions when developing and marketing products in the European Union and to provide answers to those questions The book begins with an overview of the development of EU food law and then describes the main institutions involved in framing food legislation and the legislative process This discussion is

designed to provide a context for the chapters on specific aspects of EU food law that follow Part one there are a series of chapters on legislation controlling food safety ranging from the way food products are manufactured hygiene and the control of contaminants to food composition and packaging additives and food contact materials Part two considers how EU food law ensures that consumers are properly informed about the food products they buy There are chapters on labelling nutrition information the increasingly important area of health claims and the handling of foods for particular nutritional purposes Part three of the book contains two case studies illustrating how these various strands of EU food law impact in practice on a particular food product looking at both an established food ingredient and the emerging area of functional foods EU food law provides an authoritative introduction and guide to a complex subject It will be widely welcomed by all those designing food products for and selling food products in the European Union

The European Union and Global Emergencies Antonis Antoniadis,Robert Schütze,Eleanor Spaventa,2011-06-01 This collection of essays analyses the European Union s involvement in global emergencies from a law and policy perspective Bringing together leading academics and officials from the European Union institutions the book offers an expert account of the theoretical and practical issues the EU faces when dealing with global emergencies The subjects covered are highly topical and include the financial and debt crises regional security and the fight against terrorism public health and food scares human trafficking and energy security

The European Union and Japan Paul Bacon,Hartmut Mayer,Hidetoshi Nakamura,2016-03-09 The EU and Japan have one of the most important trade relationships in the world Fittingly this book presents a detailed analysis of their bilateral regulatory environment and negotiation processes Moreover the two polities have also co operated extensively in bilateral and multilateral contexts on a range of global governance issues Nevertheless the relationship is widely acknowledged to have significant untapped potential Deploying the concept of civilian power the book takes a fresh honest and provocative look at this important relationship in a post Fukushima post sovereign debt crisis world First the book analyses the place of EU Japan relations within the worldviews of the Japanese and European bodies politic Subsequently three thematic sections evaluate their cooperation on such issues as trade energy security environmental politics development human rights post conflict reconstruction health and biosecurity The eminent scholars of the EU Japan relationship gathered in this book offer informed empirically rich and policy relevant insights into the present and future prospects for the relationship

Regulating food law Anna Szajkowska,2023-09-04 Animal cloning nanotechnology and genetic modifications are all examples of recent controversies around food regulation where scientific evidence occupies a central position This book provides a fresh perspective on EU scientific food safety governance by offering a legal insight into risk analysis and the precautionary principle positioned as general principles of EU food law To explain what the science based requirement means in EU multi level governance this book places these principles in the legislative dynamics of the EU internal market and the meta framework of the international trade regime established by the WTO Numerous examples of the case law of

European Courts show implications of risk analysis and science based food law for EU and national decision makers as well as food businesses This book focuses on the crucial aspects of the risk analysis methodology It redefines the precautionary principle and clarifies its scope of application It analyses the extent to which non scientific factors such as consumers risk perception local traditions or ethical considerations can be taken into account at national and EU level This book argues that compared to EU institutions the autonomy allocated to national authorities is much more limited which raises questions about the legitimacy of food safety governance in the EU

Chemistry of Foods: EU Legal and Regulatory Approaches

Daniele Pisanello, 2014-09-09 This book concerns the EU legal and regulatory framework relating to Chemicals in Food It is divided in two parts the first section offers an introduction to the European General Food Law with an analysis of EFSA the European Food Safety Authority and a description of main features of food safety related regulations The second part focusses on the legislation finding application concerning chemicals in food from different viewpoints namely the REACH regulation the enzyme flavorings and additive regulatory framework the matter of contamination and veterinary drugs the use of Food contact materials The final chapter addresses several considerations relating to chemical hazards and crisis management highlighting shortcomings and lessons from experience

Ensuring Food Safety in the European Union

Marco Silano, Vittorio Silano, 2020-10-14 It s not easy to navigate through EU food laws so this book provides a clear analysis of the relevant EU regulations making it beneficial to food safety organizations and food industry professionals Ensuring Food Safety in the European Union provides an overall detailed analysis of the many and complex initiatives implemented by the European Union Institutions since the European Commission adopted on 12 January 2000 the White Paper on Food Safety with the objective of defining the policies to improve the level of health protection for the consumers of Europe s food Achieving the highest standards of food safety in Europe has been a key policy priority for the European Institutions during the past 20 years through the implementation between 2000 and 2019 of many initiatives anticipated in the mentioned White Paper concerning i The establishment of the European Food Safety Authority ii the adoption of new food safety legislations in many domains and iii the adoption of consumer s mandatory and voluntary information regulations Features Offers a clear and evolutive view of all relevant procedures and objectives to ensure food safety in European context Up to date presentation of EU relevant regulation and EFSA roles and activities Discusses the basic reasoning underlying the development and objectives of the current approach to food laws The book offers a review of all the available tools and their practical usefulness on food safety at European level and their possible integration The interest of the European Institutions for food safety policies continues to be very high as shown by the adoption in September 2019 of the EU regulation 1381 to further reinforce and potentiate among others EFSA risk assessment The main target of the book is the food business operators of large and medium enterprises and their consultants Other interested parties are the authorities competent at national and regional and local level and university teaching professionals in charge of food safety and related courses
